Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Vol. XXVIII No. 26

June 28, 2013

Single copy price \$5.00

Gold Plummet Below \$1,200 Stack's Bowers Lands \$6 Million In MD

Stack's Bowers earned nearly \$6 million from their Baltimore auction June 20-21, with the top lot being an 1879 \$4 Flowing Hair Stella graded PCGS PR64 Cameo hammering for \$164,500. We have listed several additional highlights herein. Precious metals are taking quite a beating lately, with Gold and Silver at lows not seen since August of 2010. Gold closed at \$1,211 in New York after trading below \$1,200 intraday while Silver Spot settled at \$18.53.

Both Gold and Silver Classic Commems are still having a hard time at recovery, as the columns for both series are again awash with reductions resulting from sight-unseen trade orders at offers that were considerably below previous Bids, most of which were sustained during the relatively calmer activities of last week. This week's sharpest decliners included 1937 Boone PDS Sets in MS61 through MS64 and Missouri 2X4 Halves in PCGS MS64, with a near equivalent drop of 15%, while identically graded Grant with Star issues incurred further weakness for the third time this month. 1920 Pilgrim Halves in MS65 are lower now by \$22, and Bids for Texas Type issues, including those for all related PDS Sets in MS61 through MS63, other than the scarcer 1938 issues, were also diminished by this segment's beleaguering conditions. 1903 Jefferson Gold Dollars are down to an even Bid of \$1,500, and 1916 McKinley Dollars in MS64 are down this year by 26%.

Bids for generic Morgan and Peace Dollars in MS63 through MS65 deflated moderately again, as 1881-CC and 1883-CC cartwheels in NGC MS66 fell a tad short of maintaining previous Bid levels. Virtually all other better-date Dollars of the Morgan series resumed trading in their current Bid positions. An 1885 Morgan Dollar is relatively common even in MS65DMPL and, therefore, Bids for far less than most of its comparably graded peers. But this particular example offered through Heritage's summer FUN Show auction, graded by PCGS and CAC approved, with its magnificent original rainbow toning on its obverse, has already lured offers from on-line Bidders amounting to a sum of more than seven times its sight-unseen Bid. It was a down week for all four generic Peace Dollars in MS63 and MS64, as well as for NGC graded examples in MS65.

Divergence in the coin market is expected to broaden, if it isn't already quite wide, between the scarcer, traditional collector Type coins and the more bullion oriented generic material as more collectors take note of the fact that the pricing of most material of the latter option, in many cases, has not adjusted downward that much yet in relation to its intrinsically lower melt value. While this may hold particularly true within other segments, the Type segment overall stands to benefit from this phenomenon as an increasing number of collectors begin to recognize both the hedging and historical long-term appreciation benefits offered by rarer material. Offers increased by \$150 for those pristine first year issue No Cent variety Liberty

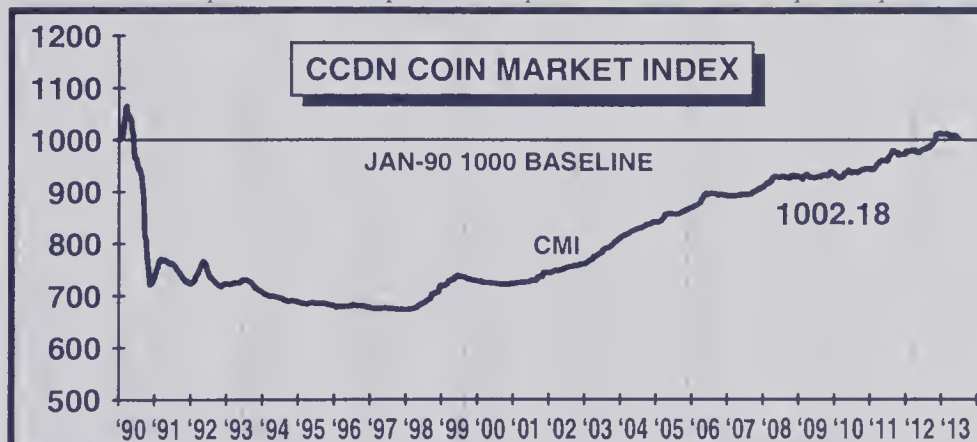

Nickels in PCGS MS67, and as much as \$250 more is being offered for No Drapery Liberty Seated Dimes in NGC MS66. Despite these positive outcomes, some material, however, is not deriving full benefit from auction activity in terms of realizing maximum gain, as was the case with some Barber Halves in PCGS MS63, which were acquired for \$162 below sight-unseen Bid as seen in this week's Market column. A slight bit of downside activity affecting Proof Type issues such as Legend variety Liberty Seated Half Dimes in PCGS PR65 and Barber Halves in PCGS PR63 had miniscule consequences.

Late-date Buffalo Nickels grabbed the attention of market participants this week, resulting in upward and downside drifts in their sight-unseen Bids, mostly for a few final year issue examples, with movement occurring within a fairly moderate range in each case. A string of moderate declines among common-date Mercury Dimes in MS66FB dominated this week's activity within this segment as the trading results for NGC graded issues mirrored those for their comparably graded and similarly dated peers in PCGS plastic. 1939-S and 1941-S Merces in NGC MS65FB each dipped lower by \$2.

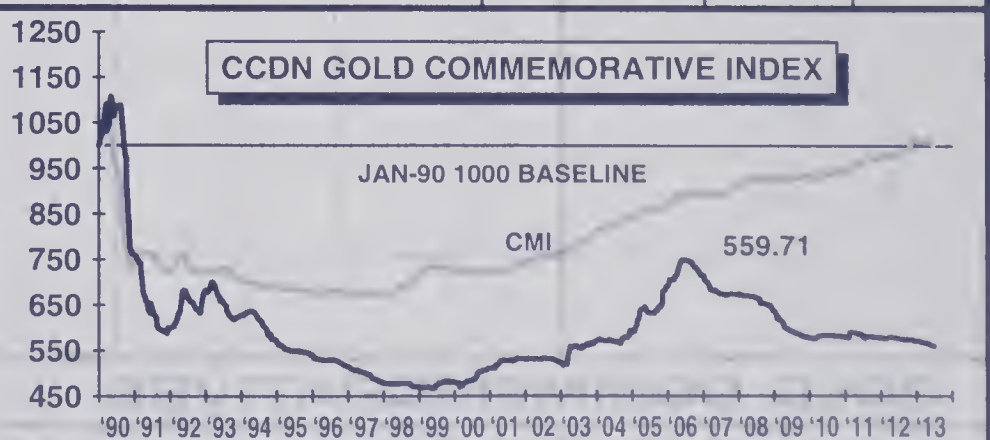

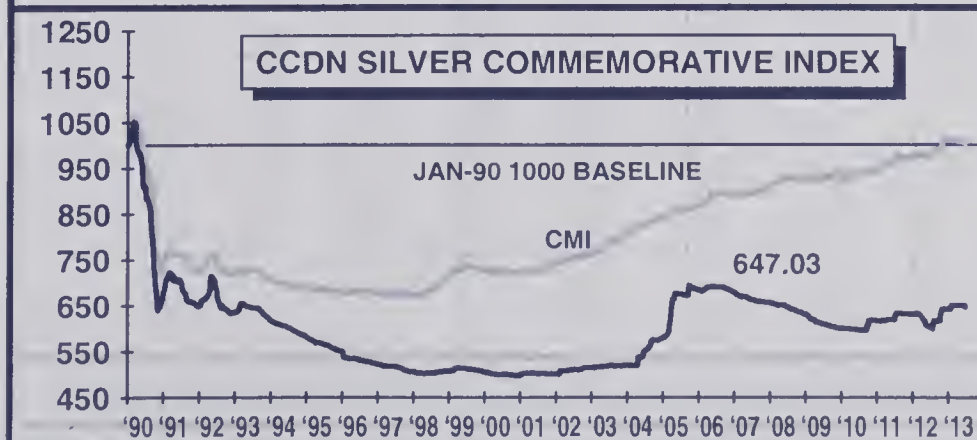

A number of Walking Liberty Halves, particularly those most common within their respective grade columns other than MS61 and in NGC MS67, are wheezing in reaction to the effects of widespread quantity trading activity. Despite the negativity, there were no reductions of major significance within this segment. Another dramatic drop in the Gold Spot market of over \$100 per ounce this week will, understandably, exacerbate the "bleeding" that continues to weaken the Gold Type segment. Relatively few generic issues in Gem or better buckled to the effects of this recent trauma as did their lower graded peers, however.

Coming up next is the 7th annual Summer FUN Show, July 11-13, in Orlando, Florida. Dealer set-up is Wednesday from 2-7. In addition to educational programs, exhibits, and a young numismatist program, Heritage will hold an auction at the show, July 11-14. Following the FUN gala is the SoCal Coin and Currency Show, July 18-20 in Ontario, CA. Running July 17-20 is the PCGS Vegas members only show at the Bellagio. Then, at the close of the month is the Scotsman Midwest Summer Sale, July 26 in conjunction with the Missouri Numismatic Society's 53rd Annual Coin Show 7/25-7/27 in St. Charles, MO.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest national reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks. sell list, c, r show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis. Page 2a

MORGAN DOLLARS

PCGS DMPL and PCGS DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and PCGS PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations

Throughout his 19 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Gold Loses 40% This Quarter Classic Commems Still In Slump

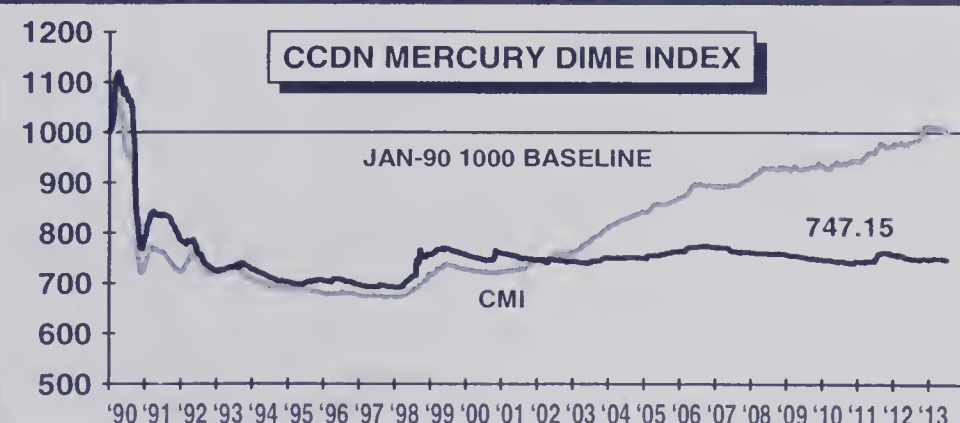

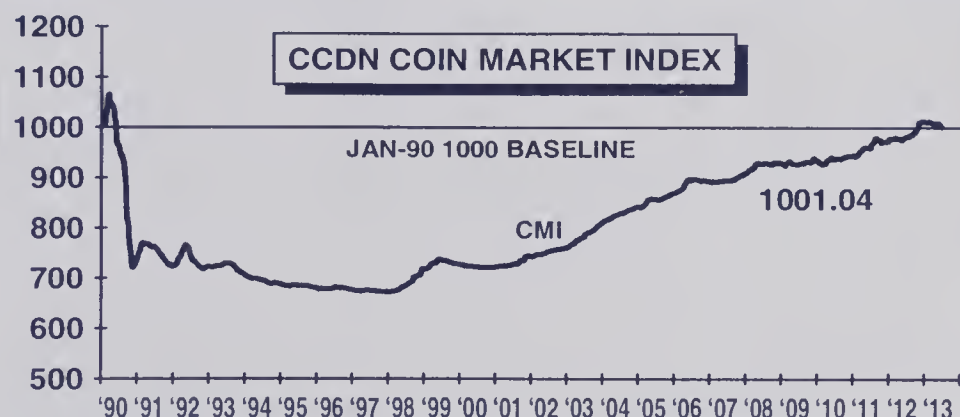

Gold and Silver have made slight gains over last week, with the yellow metal closing at \$1,252 and the white settling at a Spot of \$19.69 an ounce. Platinum and Palladium are both lower with the former now down to \$1,347 and the latter coming in at \$686. Such volatility in the precious metal arena does affect generic material negatively, but generally, better dates are safe, at least for a while. As metals soften, confidence can erode and widespread weakness can occur. Common date Morgans in MS63 and MS64 are showing signs of Spot related softness with a number of decliners recorded. The last time Silver was this low was September 2010 when generic cartwheels were Bid \$34, \$44, and \$112 in MS63-MS65. Even with today's declines, sight-unseen Bid remains substantially higher at \$47, \$57, and \$120. Gold is behaving in stark contrast in that the last time Spot was this low, also in September 2010, common date \$20 Saints were \$1,450, \$1,480 and \$1,490 in MS61-MS63 versus today's much lower levels of \$1,340, \$1,370, and \$1,385.

Ceaseless movement predominately on the downside took hold over the trading activities concerning Classic Commems of both series again this week. Elgin and Norfolk Halves in NGC holders, the former issues in MS66 and the latter issues in all Mint State grades other than MS67, were all severely marred by a slew of discount trades that were drastically below their previous Bids by at least 15%, and Bids for 1934 Texas Halves in MS61 through MS63 fell in-line with those of their comparably graded Type issues which descended by an equal extent just last week. Numerous Gold issues also drifted lower again as the shakedown this week included 1903 Jefferson Dollars in MS66 sagging to well below \$1,500, and 1905 Lewis & Clark Dollars in MS66 are now all down to an even sight-unseen Bid of \$10,000, while \$2½ Sesquicentennials in MS63 and MS64 each incurred sharp pullbacks by as much as \$100 and \$150, respectively. Numerous Morgan Dollars, mostly common-date issues in MS63 through MS65, were rounded up for quantity discount trades, as sight-unseen Bids for early S-Mint generic Dollars in MS66 receded by as much as \$20. Frenzied demand persists for those elusive GSA packaged 1879-CC cartwheels with NGC MS65 wraparound grade sticker, which have been Bid up by more than 60% over the past two months and are being sought now for \$25,000. Dealers are paying even more for these and other GSA issues on a sight-unseen basis including the new PCGS packaged product. Collectors interested in Morgan

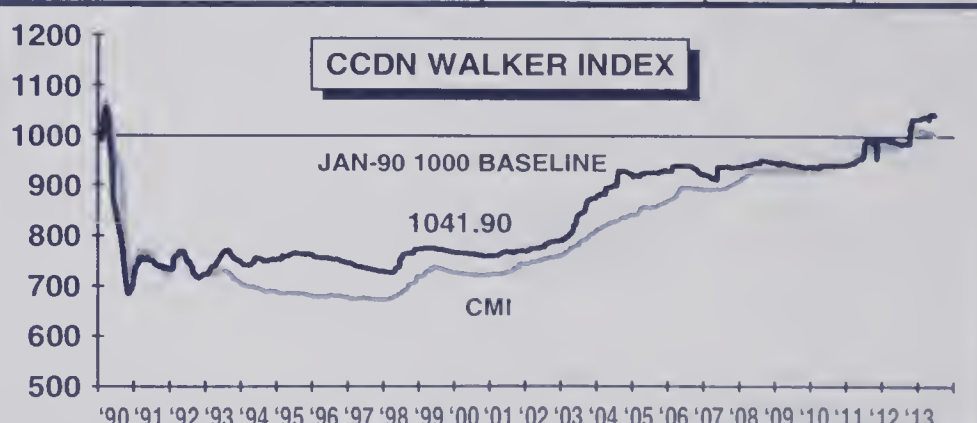

Dollar die varieties have a rare opportunity to Bid on a very scarce 1880-CC 8/7, Low 7 (VAM-6) specimen, graded PCGS MS65DMPL, one of only six graded by this service with merely one finer. It is up for grabs to the highest Bidder the end of this month in St. Louis through Scotman's Midwest Summer Sale. A total of only 42 examples of the 1880-CC have been certified at the MS65DMPL level across all varieties, with just five of these highly reflective CC-Mint DMPL Dollars qualifying for higher grades. 1897 Dollars in NGC MS67 were among the few better-date issues affected by this barrage of declines, posting a loss of \$375, while 1926-D Peace Dollars in PCGS MS65 were among the hardest hit of this series with a 13% dip.

Heraldic Eagle reverse variety Half Dimes in MS61 and MS62 seem to be nearly as popular as their comparably graded Small Eagle variety predecessors. Strong enthusiasm is evident among Bidders contending for a beautiful rainbow toned 1817/3 Capped Bust Half Dollar graded PCGS MS64 with CAC approval, due to conclude its auction session with Heritage in Orlando at the summer FUN Show. A sparse total of ten specimens of this interesting re-punched date die variety early Half Dollar issue have been graded by both services at this level while only three have graded higher.

Two NGC graded early Buffalo Nickel issues, the 1913-S TII in MS64 and the 1919-S in MS65, ran up against some trading obstacles that kept them from retaining their full Bids from last week. Buff collectors may have a love-hate relationship with final year 1938-D issues and, while the sustenance problems continued for these Nickels in PCGS MS65, their peers in NGC MS66 are passing through the auction venues for as much as 24% below sight-unseen Bid. Some enthusiasm fizzled for 1939-S Mercury Dimes in MS67FB, even though these last of the better-date pre-war Dimes in this grade still pack a good punch insofar as maintaining their popularity over their comparably graded war-time issued peers. Nonetheless, these Mercs are now trading sight-unseen by at least 10% lower since last week. The drainage from the Walking Liberty Halves segment continued from last week as market-makers apparently see no advantage in holding large quantities of common-date issues in MS63 through MS65 graded both by ANACS and ICG. A sharp 14% pullback in Bid for 1945-S Walkers in PCGS MS67 resulted this week, but these issues have still retained 25% of their gains for this year.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

All Eyes On Summer FUN Gold Type Clobbered Again

Sight-unseen trading is strong with nearly \$700,000 in blind transactions in the past week through the dealer-to-dealer electronic networks. Such high volume is especially impressive considering the Summer FUN is underway in Orlando, FL and runs until July 13. Heritage is holding the auction with nearly 7,000 lots up for sale, including a Premier session designated in the catalog by green edged pages. This auction as well as the bourse activity will be looked at closely as a barometer as to the health of the market. The next test will be at the Chicago ANA World's Fair of Money, coming up August 13-17 with a Stack's Bowers auction beginning August 9. Before that it's the SoCal Coin & Currency Show in Ontario, CA July 18-20. July 18 is also slated for a Legend-Morphy 380 lot auction in Las Vegas being held in conjunction with the PCGS trade-n-grade show. We have listed several of the many highlights herein. Metals made a bit of a comeback with Gold closing at \$1,280 and Silver settling at \$20. In addition, the Dow and S&P 500 had record high closes today in response to Ben Bernanke stating that quantitative easing will continue with no tapering.

This week's trading activity among Morgan and Peace Dollars failed to reverse a predominance of moderate downside motion that has been prevalent within this segment over the past several weeks. The market appears a bit saturated for 1883-CC and 1883-O Dollars in a couple of PL grades, as most generic material, even if acquired in Gem quality, is done so with great caution now, and Morgan and Peace Dollars are no exception. Better date issues such as 1888-S and 1892-O Dollars in MS65 managed to edge slightly higher, while comparably graded 1893 cartwheels in NGC plastic reversed direction to regain a bit of their \$25 loss from last week. Dollars that are exceedingly rare in Gem and better grades will likely continue to gain potential in terms of increased future demand in Choice and very choice. Such may well be the case for the aforementioned cartwheels, as well as for several of the S-Mint Peace Dollars.

An abundance of Barber Dimes in NGC PR66 pressured these issues to surrender all and then some of their gains for the year, ending \$85 lower. Examples of our nation's first Quarter Dollar, the 1796 Draped Bust variety with Small Eagle reverse, are gaining immense popularity as they are among the most coveted of early Type issues, and one such specimen graded XF40 by NGC is due to go before the auction block during Scots-

man's Midwest Summer Sale in St. Louis on July 26. Another comparably graded specimen, certified by PCGS, will be available through Heritage's upcoming auction in Rosemont, on August 6-9. Of the 508 specimens known to have been certified by both services across all grades, a mere 15 examples of this extraordinarily rare Quarter have been certified at the XF40 level, and just 67 have survived in Mint State.

A few late-date Philly-Mint Buffalo Nickels in MS64 fell a bit short of sustaining current Bid, but there were no major setbacks to report for this segment. Mercury Dime enthusiasts have another sensational opportunity to Bid on some superb quality early issue semi-key Merc specimens offered through Legend-Morphy's upcoming auction in Las Vegas, including a 1918-S, a 1919-S, and a 1920-S, the first of which is CAC approved, and all are graded PCGS MS66FB.

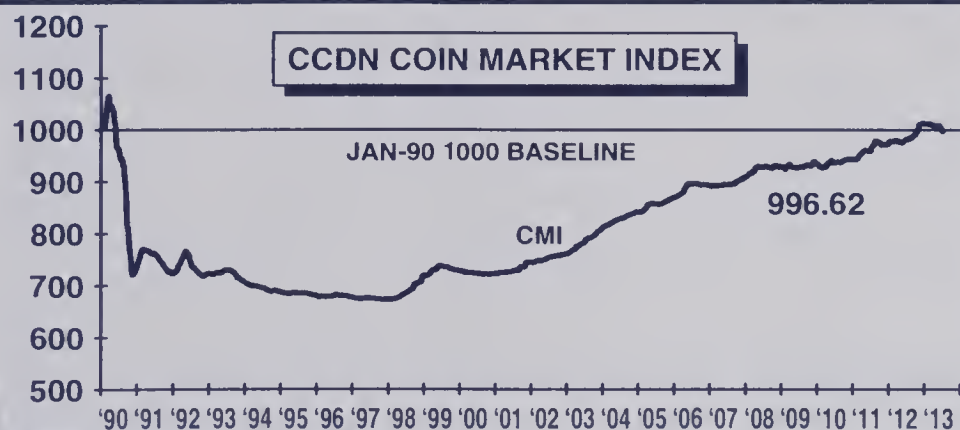

An originally toned Lafayette Dollar, graded PCGS MS66+ with CAC approval, seems to have captured much attention from Bidders partaking in this week's auction in Orlando, as this specimen should realize a respectable final price. The ominous conditions that have been destabilizing the Classic Commems segment in general have not subsided much, however, and more than a handful of Silver issues have further softened under the stresses of discount trading and auction activity involving an in-pour of offers that are below current Bid again this week. Those popular and ubiquitous Iowa Halves in NGC MS67 persisted to lose ground as they did two weeks ago and are down now by \$20 this year, while Long Island Halves in MS65 saw an erosion of their Bid by \$10. As 1926 Oregon issues in both MS64 and MS65 were also Bid lower, Sesquicentennial Halves in MS64 met more obstacles

resulting in a \$20 reduction that constituted a 14% cumulative decline this year for these often revered issues. 1935 San Diego Halves in PCGS MS67, which shot up by \$55 late last October, slid back \$30 as Stone Mountain Halves in MS65 gave up another \$5. A hard sell-off for 1903 Jefferson Gold Dollars in MS63 and MS64, as well as for same issue year McKinley Dollars of the latter grade, concurred with a sharp drop for 1917 McKinley issues in MS65 and a succession of somewhat milder reductions for Grant No Star Dollars in MS61 through MS64.

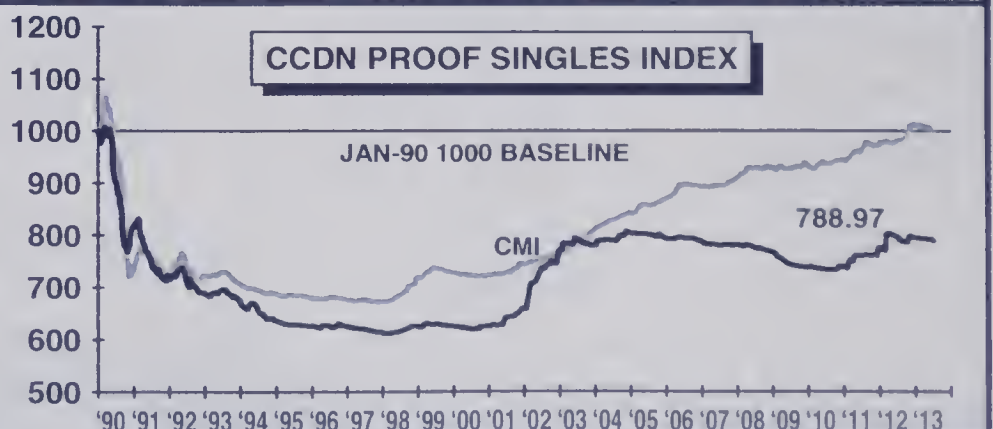

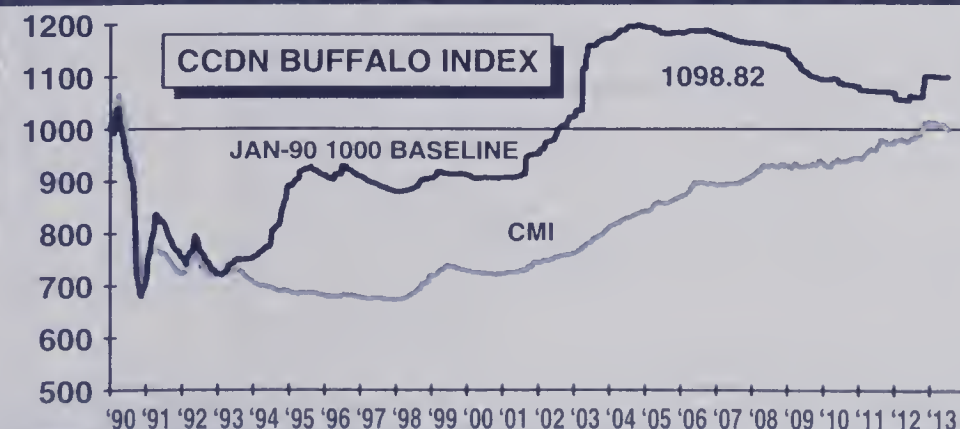

Sight-unseen Bids for a fair amount of Gold Type material have remained in place since last week due to a decrease in the range of the fluctuating activity within the Gold Spot market. Some positive action insofar as a resumption of increased orders for \$2½ Libs and Indians in MS61 kept this segment from complete decline, but common-date \$20 Saints, even in NGC MS67, slipped further as Bidders express concern over the continuing uncertainties.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the buyer and seller. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

www.CoinPlex.com

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/Ls are usually much lower than for DMPLs, but command some premium over non-P/L strikes.

UPDATE!

The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

^ 450,000

\$ 2
billion

CAC has evaluated over ~~400,000~~ coins with a market value over \$1.8 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~\$275,000,000~~

^ \$300,000,000

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

CAC And + Still Winning

Higher Grade Generic Dollars Hearty

Summer FUN was quite successful overall with more booths sold and public traffic than at any previous Summer FUN event. High-end coins traded well, and Heritage hosted a powerful auction bringing in nearly \$10 million. Scotsman will hold its Midwest Summer sale Friday, July 26 in St. Louis, MO. See a preview herein. Heritage will hold a pre-ANA auction August 8-10, and then next on the agenda is the ANA World's Fair of Money, August 13-17, in Chicago, with an auction by Stack's Bowers. One of the displays at the show presented by PCGS and Kevin Lipton is the \$15 million Nova Constellatio unique set of four 1783 patterns, which have an anonymous owner. One of the Nova Constellatio is Copper and three are Silver. PCGS has slabbed and graded each example. Stack's Bowers, Spectrum Numismatics and Teletrade will be combining operations under the name Stack's Bowers Galleries. These companies will integrate their technology to give customers online access to 1.5 million auction prices realized.

Quite a few generic Morgan Dollars in NGC MS65, as well as the early S-Mint issues in MS66 and in PCGS MS67, are in favor again with dealers giving them their thumbs up for inventory inclusion. Offers for CAC approved and + graded Morgan Dollars remain quite robust with visible sight-unseen buyers present for over 90% of the CAC issues we list. 1893-CC Dollars in MS64 CAC are now fetching an extra \$3,100 and one such Dollar in PCGS MS66, once owned by Jack Lee, was the top contender for Bids among the impressive selection of cartwheels offered up by Legend-Morphy's auction in Vegas. Many market-makers regard Lee's pedigree as a virtual affirmation of top-tier quality for the grade. Trading activity for Peace Dollars was concentrated among the generic material, resulting in a turn of direction to the upside for those in MS64 since last week, while those in MS65 with the green bean are now needed at \$145 each.

A very impressive line-up of rare and top quality Type material will be offered to the highest Bidders in Rosemont during Heritage's auction. One lot that's sure to tantalize the crowd is a very seldom seen final issue year 1891-O Liberty Seated Quarter, considered to be a Branch Mint Proof, representing a miniscule combined pop of one, with one finer, for this particular example, graded NGC SP66, with its wonderful toning. Of the 93 total number of specimens certified across all grades by either service, only ten of these New Orleans

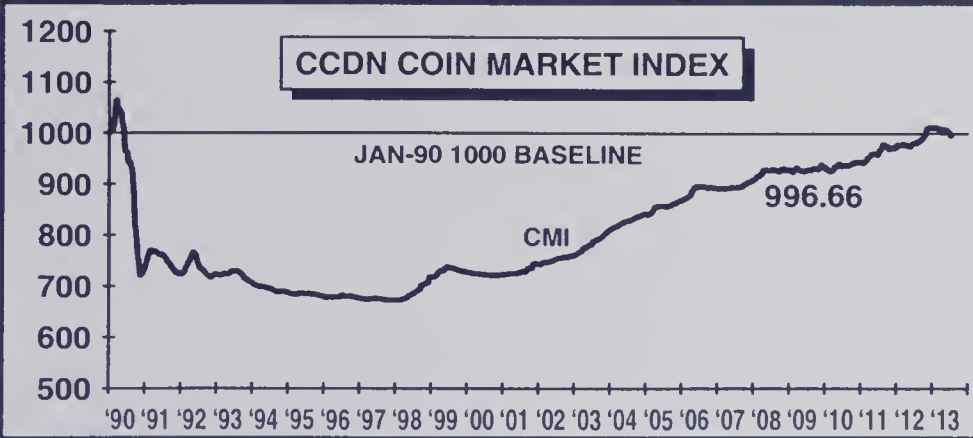

Quarters appear to have survived Uncirculated. For Barber Quarter enthusiasts, an 1896-S in PCGS MS64 and a key-date specimen of the 1901-S in NGC MS66★ will surely stir up some excitement as well, as did a 1904 Proof specimen, graded PR69 by NGC, during the Vegas event this week. All Capped Bust Dimes and Halves in MS64 through MS66 with CAC approval made noteworthy advances. There was some minor downside movement among various Type issues in Mint State certified by both services as well as among Proof Type issues graded by PCGS.

A gorgeous 1892 Columbian Half, graded PCGS MS67+ CAC with dazzling centrifugal toning, so far appears to be on path to setting a record price, thanks to on-line Bidders partaking in Heritage's Rosemont auction. Silver Commems continue to struggle with sustenance difficulties, even in MS67, as this week's activity demonstrated concerning 1926-S Oregon and 1934 Texas Halves graded as such by NGC, the latter of which fell by \$40. Stone Mountain Halves in MS65 have persistently traded lower over time to Bid at an even \$100 now and, while 1917 McKinley Dollars in NGC MS61 and MS62 lagged moderately, these same issues in MS64 tumbled significantly by an average rate of 14% this week.

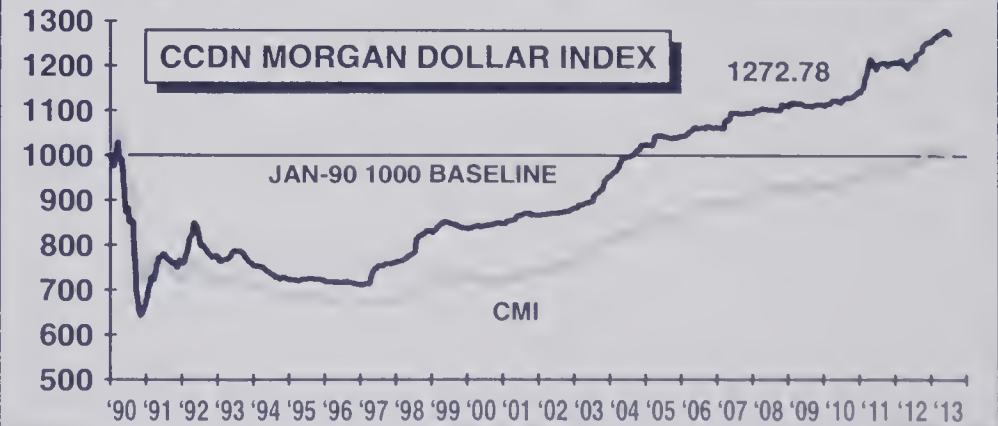

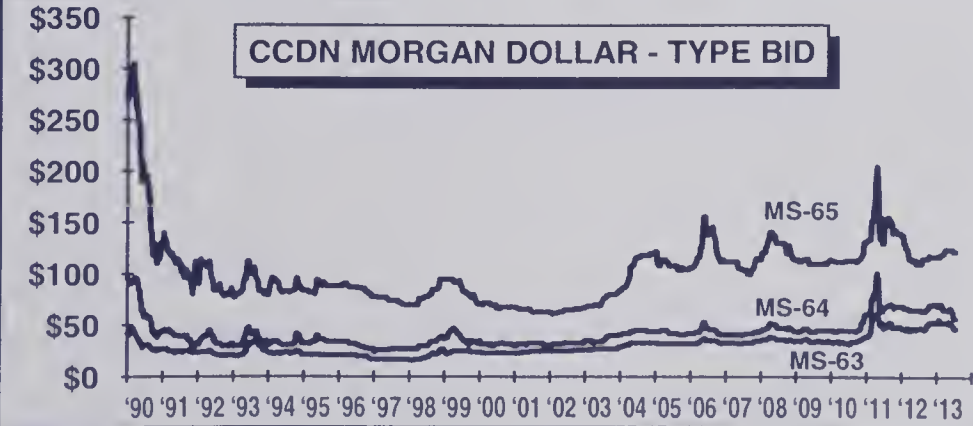

A truly beautiful specimen of the 1937-D 3-Legged Buffalo Nickel, graded PCGS MS65, is among Heritage's auction highlights in Rosemont. Any Buff fan will have a hard time passing up this specimen with its original colors of steel blue centers and mellow orange-yellow colored peripheries on both sides. There are only four key-date 1916-D Mercury Dimes in MS65FB that CAC has approved, and these Dimes are Bidding sight-unseen for at least a \$6,000 premium over stickerless slabs. Several semi-key MerCs in MS65FB comprise the roster of highlighted material featured by Heritage during its Rosemont auction next month, including a 1921, a 1921-D, a pleasingly toned 1926-S, a 1942/1-D with CAC approval, and a tough to find, un-toned 1945 issue, all graded by PCGS.

Type 3 Gold Dollars, \$2½ Libs and Indians, and \$5 Libs in MS61 were among the few benefactors of the resumption in orders for Gold Type, and greater call for \$5 Indians in MS64 resulted in a \$100 upswing for these issues. Overall, however, conditions within this segment remain constrained and dormant due to Bidders' cautious sentiments.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices! The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

Data for each stickered-coin is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

CERTIFIED COIN DEALER

CCDN—a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVIII No. 30

July 26, 2013

Single copy price \$5.00

Eruption Of Higher Bids For Dollars \$1,300 Gold Returns

Dealers have returned from Vegas after the completion of the PCGS members only show and the associated Legend-Morphy auction that brought in nearly \$3 million through their 380 lot sale. Improvements are being made here as only a pair of coins realized less than what dealers will pay sight-unseen. Most notable was a 1921-S Buffalo Nickel, graded PCGS MS65, leaving some \$135 on the table and can be seen in this week's Market column. Next on the agenda is the 53rd annual Missouri Numismatic Society show in St. Charles with an auction by Scotsman, Friday, July 26. After a brief pause, Heritage will hold an auction August 8-10 in Chicago. See highlights herein. Then the ANA PNG pre-show will run August 10-12. ANA's World's Fair of Money will take place in Chi Town August 13-17, with an auction by Stack's Bowers.

NGC has begun a Circulated coins only program for their Set Registry which accepts only material graded AU58 and below. This concept is similar to PCGS's "Everyman Collection" which began in 2009. This has sparked increased interest in Circulated certified coins, and many examples graded AU58 are selling for more than MS60-MS61 money.

Monday, the yellow metal saw its single largest one day increase in over 13 months. Gold, now over \$1,300 an ounce, hasn't been this high in over a month. Silver is also higher and has regained its position over \$20 an ounce. All this while the financial indices continue to set new record level highs.

An 1879-CC Morgan Dollar, graded NGC MS65DMPL, one of only four such cartwheels graded at this level, is up on the auction block through Heritage in Chicago. Both PCGS and NGC have each certified only two such Dollars in MS65DMPL and, while the latter service designated one with the Star accolade, none have graded numerically higher. Other than a few minor declines, Dollars had another outstanding week as a multiplicity of mostly better-date Morgan and Peace issues of various Mint State grades were ordered up in increasing numbers for dealers' inventories. Common-date Peace Dollars in most Mint State grades may not always excite everyone, but superb Gem specimens in MS66, and especially in MS67, are eagerly being sought now and lured on to the market with considerable premiums.

It was almost expected that an original 1804 Draped Bust Silver Dollar in PCGS PR62 that's being offered up at the auction in Chicago would leave all other lots way behind in the dust right from the onset of on-line Bidding activity. Little of any major consequence occurred within the Type segment this week as discount trading for a few Barber Dimes in PR66

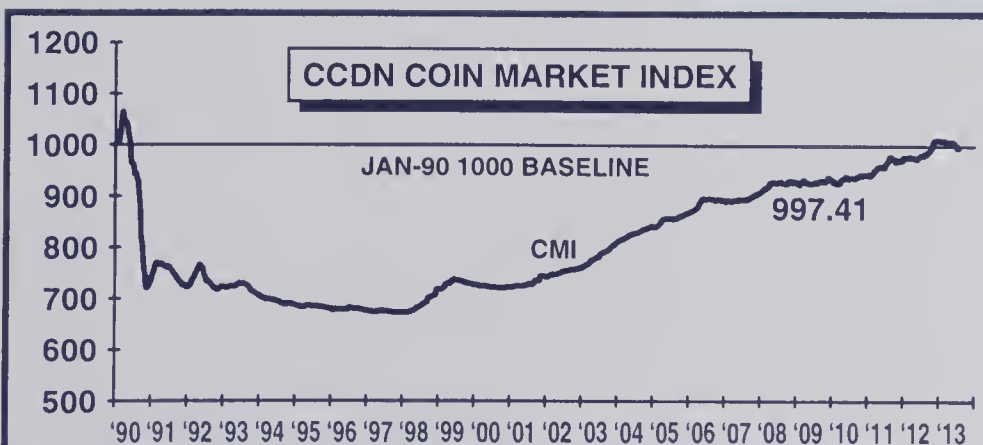

caused a mild reduction for these issues. Just a few of the more commonly traded late-date Buffalo Nickels, mostly in MS65 and MS66, are in another stage of moderate fluctuation due to some market volatility affecting this series. Mercury Dime enthusiasts will have a chance to Bid on two exceptionally scarce issues offered through Stack's Bowers during its auction in Chicago next month – a 1920-D in MS67FB+ and an always desirable 1942/1-D in MS66FB, both of which are graded by PCGS and CAC approved. At least six late-date Merces in MS67FB ran into obstacles insofar as maintaining that sight-unseen Bid of \$120 they've been clinging on to for almost two months. The auction offerings in Chicago include an extensive selection of early date semi-key Walking Liberty Halves, many of which are in Gem or better grades with CAC approval, and there's been a strong level of participation from on-line Bidders so far competing for them.

Quite a few Classic Commems were under the effects of what may have been residual weakness left over from past week's trading activities, as Connecticut Halves in MS65 and Lynchburg Halves in MS64 each ended \$10 lower, while Bids for the peers of the latter issue in MS61 through MS63 also gravitated lower. Descents in Bid within the MS66 columns included those for Rhode Island Type, Roanoke, and both San Diego Halves. 1903 McKinley Gold Dollars in PCGS MS67, which incurred a \$150 setback early last month, took on another loss of equal amount accompanied by that of a lesser extent for comparably graded examples in NGC plastic, and Pan-Pac Gold Dollars in this grade in PCGS holders have now dropped to a sight-unseen Bid of \$4,200 – down this year by \$975.

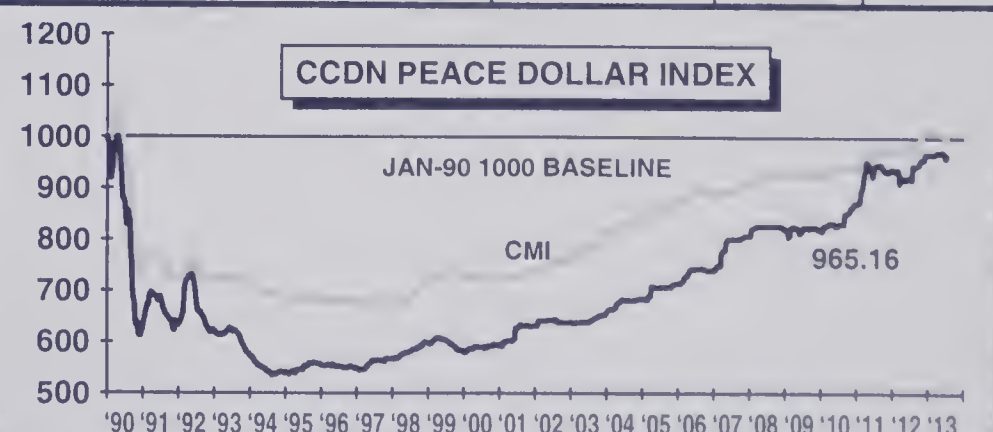

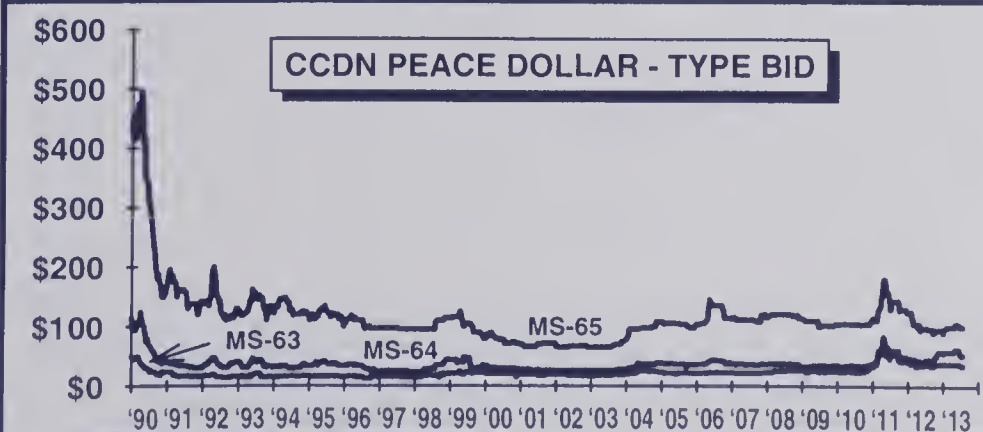

Two PCGS Gold Type issues, \$3 Indian Princesses in MS64 and \$20 Type III Libs in

MS66, both of which hardly appear to be in over-supply, have been on a gradual downward spiral all year as the former issues settled well below their \$5,000 benchmark while the latter receded for a second straight week for a total loss of \$1,150. The overall movement within this segment, however, was to the upside, mostly due to the recent increase in Gold Spot. One of the most complete and impressive collections of Proof Gold Type material will be auctioned off by Bonhams in Los Angeles in late September. Known as the Tacasyl Collection, it is comprised of at least one Superb Gem Proof quality example of each Gold Type design issued between 1836 and 1915. Several of the specimens are struck with Matte, Satin, and Ultra Cameo finishes and all 27 examples have been certified by NGC. Aside from the highly coveted 1836 \$2½ and \$5 Classic Head specimens in NGC PR66★UCam and NGC PR67★UCam, respectively, are Ultra-Gem examples of all four design Types of the \$4 Stella grading at least PR67.

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest reported sight unseen Bids, Asks, Trades, prior levels, and auction prices! The CCDN may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealer, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guarantee or that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month, lm - Lowest asking price appearing last month publication (week old); "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions, "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 20 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined
over 450,000 coins
(\$2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

Carson City Morgan Dollars Shine

Active Chicago Anticipated

Stocks went through the roof during intraday trading on the Fed's announcement it would continue purchasing \$85 billion per month in treasury and mortgage securities Wednesday, July 31. This affected metals as well in that Platinum and Palladium increased while Gold and Silver receded a bit. Dealers and collectors are looking forward to the ANA's World's Fair of Money August 13-17 in Chicago, with an auction by Stack's Bowers. This event will be preceded by a Heritage auction in Rosemont August 8-10 with the PNG/ANA Pre-Show beginning August 10. Scotsman held their Midwest Summer sale July 26 in St. Charles, MO, which brought in over \$1.9 million. Taking the top lot for this auction was an 1852 \$50 U.S. Assay Slug graded PCGS AU53 which sold for \$69,000. See additional highlights herein.

Few Morgan Dollar collectors would pass up owning a nice 1878-CC example, particularly in light of the fact that Mint State issues have been gradually edging higher all year. Specimens graded MS65 by NGC are up 14% these past two weeks, their ascent accompanying those of several comparably graded generic issues in PCGS plastic this week. By far the finest known 1889-CC Morgan Dollar, graded PCGS MS68, is expected to set a record price at the conclusion of its auction session in a couple of weeks with Stack's Bowers in Chicago. This rustic, smoky toned but lustrous specimen once belonged to such prominent collectors as Eliasberg and Jack Lee and, whoever is fortunate enough to win this fabulous Dollar, if they choose not to remain anonymous, will surely be a recognized celebrity within the numismatic community. Since our last report on original GSA packaged Dollars, Bidders have been offering \$200 more for those of the 1890-CC issues. Aside from increased orders for quantities of generic Peace Dollars in MS63 and MS64, Bidders are demanding more 1935 issues in PCGS MS65 and MS66, significant to many collectors in that they are often recognized as Gem examples of the nation's last of the truly genuine Silver Dollars.

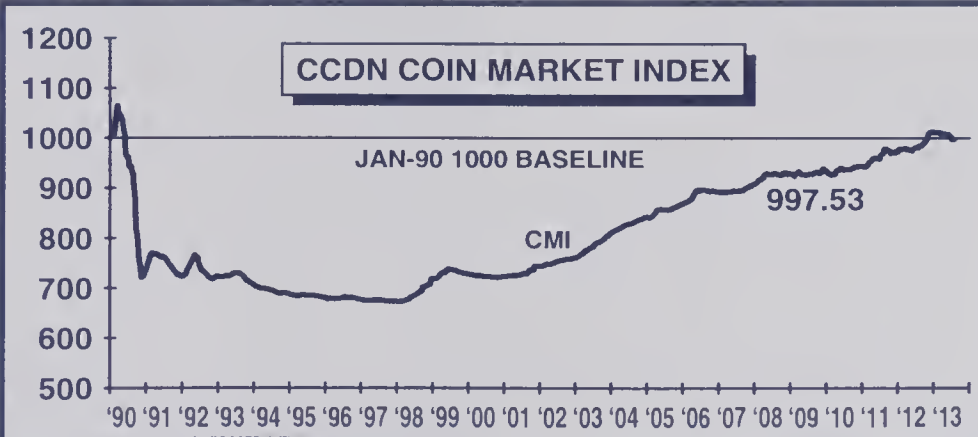

A mild pullback in Uncirculated Type for Standing Liberty Quarters in MS65 may reflect Bidders' preference for those specimens with the Full Head detail, while interest in Liberty Seated Halves with Motto in PCGS MS63 has waned to the extent of preventing these issues

from meeting their current Bid target by as much as \$30 at recent auction outings. At the third highest position so far regarding on-line offers submitted by participants of Heritage's Rosemont auction is a 1918/7-D Buffalo Nickel, graded PCGS MS65, already having raked in a respectable six-digit sum. This is only one of five specimens graded at this level by either service, two of which are + and Star designated by PCGS and NGC, respectively, while only one finer example in NGC MS66 is known. Last week's trading activity for Silver Commems concluded with a \$10 reduction for Connecticut Halves in MS65, but those in NGC slabs continued to slide lower by another \$10 this week to a sight-unseen Bid of \$300. The market couldn't absorb all the 1926 Oregon issues in NGC MS63 that are available, peeling a smidgen off of their last Bid, and the supply of 1903 McKinley Gold Dollars in NGC MS66 and MS67 hasn't yet diminished enough to stabilize these issues either as each landed slightly lower again - this time by \$15.

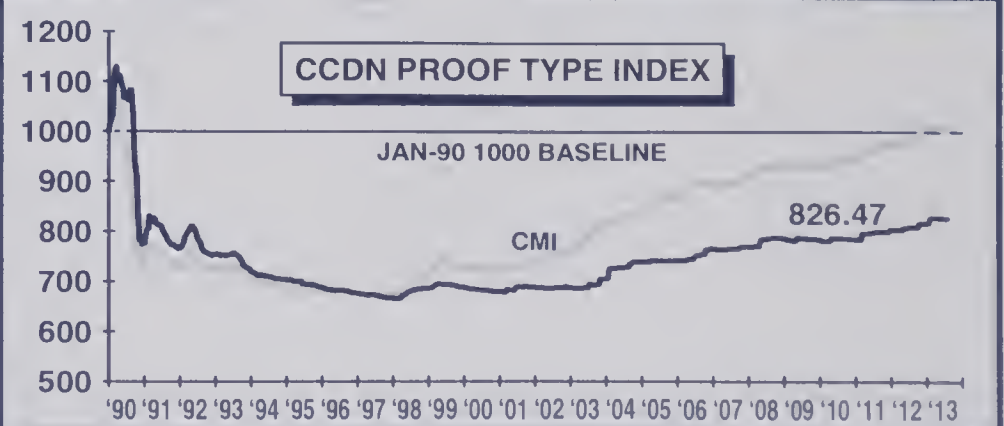

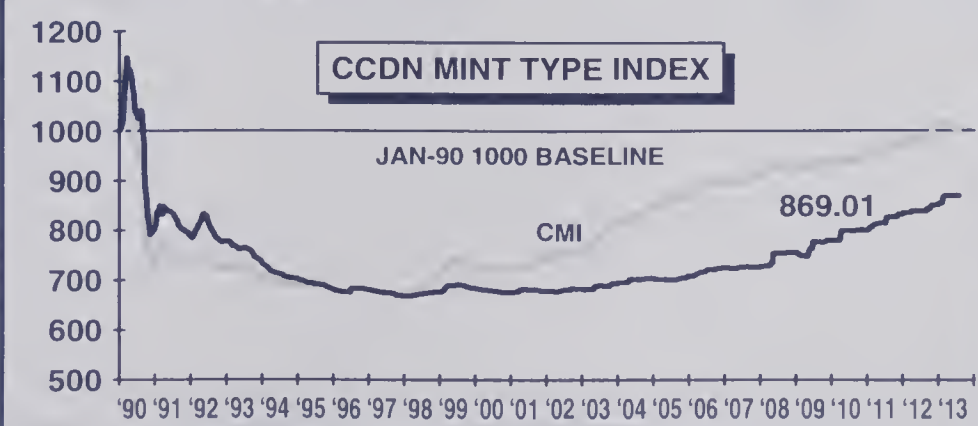

Bidders who miss out on acquiring a 1942/1-D Mercury Dime in PCGS MS65FB with CAC approval during Heritage's auction will have another opportunity to Bid for one of these popular rarities, graded PCGS MS66FB CAC, during the Stack's Bowers ANA auction the following week in Chicago. Both specimens have pleasing light and mellow golden toning about their obverse and reverse peripheries. Walking Liberty Halves were spared from total inactivity by a rather significant string of higher sight-unseen offers for 1947 issues in PCGS MS65, as resurging interest for these final issue year Half Dollars added 12% to their Bid this week.

Interest in Gold Type material remains solid enough so as to keep any motion within this market segment predominantly on the upside for a third straight week. Stack's Bowers' offering of a very scarce 1930-S \$10 Indian, graded NGC MS67, along with a specimen of the iconic 1933 \$10 Indian in PCGS MS64, will no doubt keep the hearts pounding during their final Bidding sessions in Chicago. Only four specimens of the former issue have been graded at the MS67 level, with one given the Star designation by NGC, while none have graded numerically higher.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

UPDATE!

The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

^ 450,000

\$ 2
billion

CAC has evaluated over ~~400,000~~ coins with a market value over \$1.8 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$275,000,000 worth of coins.

^ \$300,000,000

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Single copy price \$5.00

Generic Morgans Muster Gains Slightly Better \$20 Saints Spike

Many dealers have been in the Chicago area all week trading privately amongst themselves and awaiting the ANA's World's Fair of Money to officially begin August 13. To whet their appetites, Heritage is holding an auction August 8-10 which includes a Platinum Night session. This will be followed by the PNG/ANA pre-show beginning August 10 at the Donald E. Stephens Convention Center. This summer's ANA show will be considered a bellwether event setting the tone for the remainder of the year. A relatively small percentage of the material being offered up by the auction firms partaking in this year's annual convention in Chicago is of the early Coppers category. But, that isn't to say that these often under-represented specimens, mainly due to their rarity, are being overlooked by Bidders. Along with the 1793 Vine & Bars Edge variety Wreath Cent in PCGS MS69BN featured by Stack's Bowers, is an 1824/2 Matron Head Large Cent, graded PCGS MS63BN, and it's no surprise that this coin has already been gathering hefty offers from on-line Bidders so far as well since it is very tough to find in just about any Mint State grade. Type enthusiasts, especially those leaning towards the Barber issues of all denominations in Mint State quality, should be pleased with this segment's performance. Trading activity here demonstrated good reception from Bidders who also were more aggressively in pursuit of Three Cent Nickel and Type 3 Silver Pieces in PR62 through PR66. Barber Dimes in PCGS PR64 and NGC PR66 also advanced to regain some ground lost earlier this year.

An abundant supply of 1916-D Buffalo Nickels in PCGS MS64 has been keeping demand for them somewhat cool, resulting in their Bid reduction of \$15, but significant movement in either direction for any other issues of this segment was not reported. Traders offered \$1 more over previous sight-unseen Bids for virtually all of the most common Mercury Dimes in MS67, as well as for a few of these issues in NGC MS67FB. Sight-unseen Bids, while moderately on the upside, were limited to orders for quantities of generic Walking Liberty Halves in MS64 and MS66 while having no effect at all on any better-date issues relative to these two or any other grades. Buyers will take any MS67 example graded by PCGS or NGC at \$500 and \$345 respectively. Premium quality examples have recently sold in retail internet auctions at these wholesale levels.

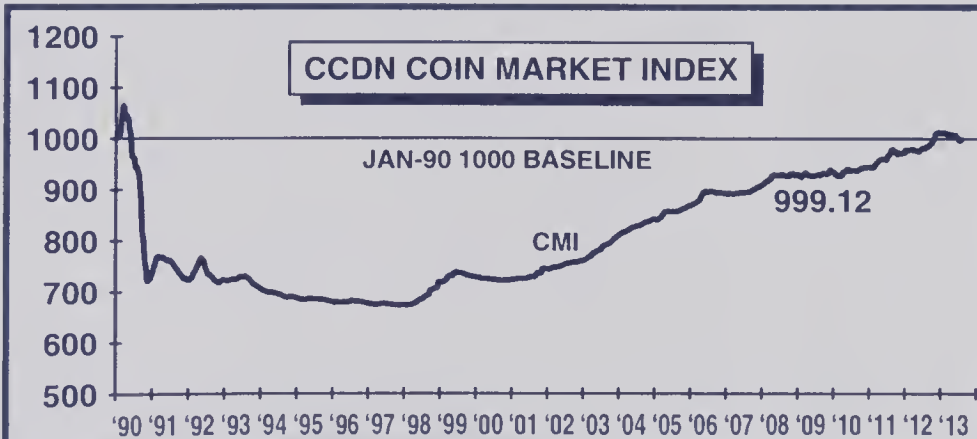

Those relatively scarce \$5 Indians in MS64, while still trading sight-unseen at \$500 below their mark at the start of the year, have been demonstrably resilient this past month, regaining 14% over a four week period. Current Bid support for most Gold Type material during what still must be considered a depressed Gold market attests to continuing confidence among those comprising the collector/investor base for this segment. After losing over \$40 during the past week, Gold Spot closed up today at \$1,311 regaining the \$1,300 an ounce plateau. Silver performed similarly, dipping near \$19.50 for much of this week only to settle today at \$20.18 an ounce. Slightly better than common through a few semi-

key date \$20 Saints are in the crosshairs of dealers. A boatload of higher sight-unseen Bids are in place hoping to secure several issues that are perceived to be grossly under priced. Some serious increases among the 275+ advances here are seeking out a few better issues, mostly in the teens and early twenties. Sight-unseen Bids for 1913-D nearly doubled from our last report to \$12,500 in MS66; while MS62 examples of 1913-S jumped by 49% as Bids for 1923 specimens in MS66 increased by as much as \$4,400. This segment of the market helped push the overall CCDN CMI up 1.59 points to 999.12, nearly back to the baseline established in January of 1990.

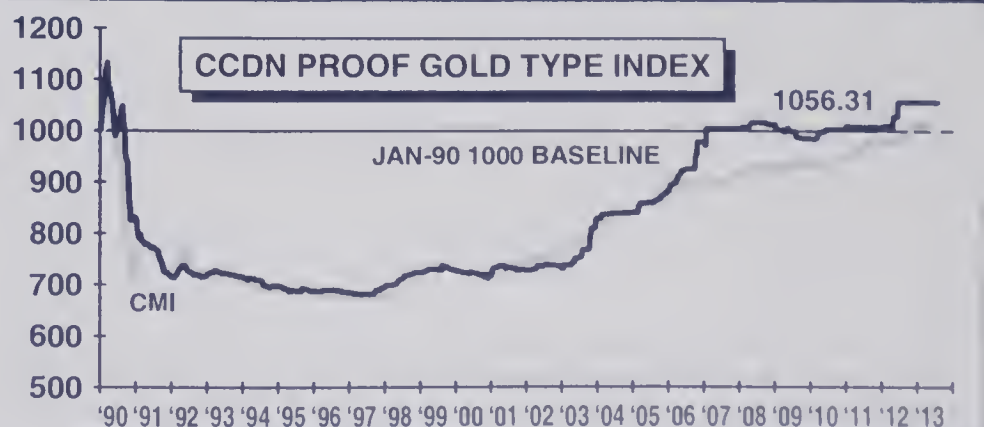

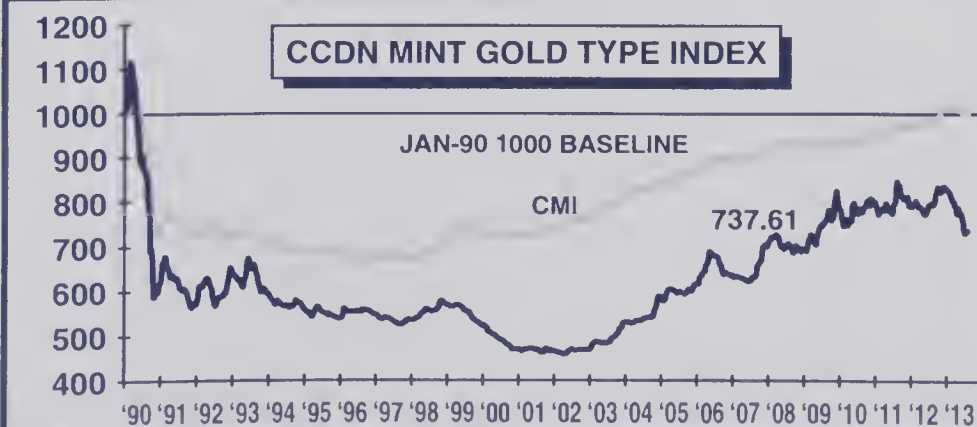

Nothing was either gained or lost among Silver Commems this week, as they all avoided further volatility. For a third straight week among Gold Commems, 1903 McKinley Dollars in NGC MS67 remain in descent, along with visible weakness for their comparably graded peers in PCGS plastic, while 1916 McKinley Dollars in MS65 and Grant with Star issues in NGC MS64 traded lower by a respective \$10 and \$50.

There appears to be an influx of capital deriving from collectors of more modest means expressing interest for common-date Morgan Dollars, possibly in reaction to reports of lackluster bullion market performance and the recent price surges for better-date Dollars of this series. In any event, sight-unseen Bids for a number of mint-marked second and third issue year Morgans in MS61 through MS64 are moderately rising, as are several of the generic cartwheels in MS65 and MS66. The selection of Morgan Dollars offered by Heritage and Stack's Bowers during the auctions held in Rosemont and Chicago is as diverse as can be expected for an annual convention of such major proportions. Among the top lot business-strike specimens available for Bidding is a beautiful 1879-CC Dollar in NGC MS65DPL, one of only four graded as such by both services. For many Dollar buffs, the "trophy" coin, of course, is the finest known 1889-CC Dollar, graded PCGS MS68, due to finalize its session with Stack's Bowers on August 15. Bid movement among the Peace Dollars, also mostly on the upside, was strictly limited to PCGS issues with 1928-S Dollars in MS63 rebounding 6% since last week.

Standing Liberty Quarters are mixed with over 35 advances and a similar number of declines. Full Head examples dated 1929 and 1930 in NGC MS65FH were among the top gainers, increasing 13%. Poor auction performance resulted in the \$20 Bid reduction recorded for 1918 issues in NGC MS64. Full Bell Line Franklin Half Dollars are on the move, with the majority of advancers jumping by 4%. Several non-FBL examples sold thru internet auction this past month for as little as half of their sight-unseen Bid. Minus signs are not present since sight-unseen buyers are still waiving their higher offers and remain in need of material. Included among these idiosyncrasies are select dates from 1949-S through 1960 in NGC MS64-MS66 grades.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity including the reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid. Asks are the lowest near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and strictly the responsibility of the dealer. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The CURRENCY DEALER newsletter

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

BUFFALO FIVE CENTS
 1918 S 5C MS
 NGC Universal ID: 22RK

Coin Specifications

Category: Buffalo Five Cents (1913-1938)
 Mint: San Francisco
 Mintage: 4,882,000
 Catalog: KM-134
 Obverse Designer: James Earle Fraser
 Reverse Designer: James Earle Fraser
 Composition: Copper-Nickel
 Weight: 5.00 Grams
 Diameter: 21.2mm
 Edge: Plain
 Numismatic specification data provided by Krause Publications NumisMaster.

MERCURY DIMES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Proof Silver Type Heats Up Precious Metals See Increases

Gold jumped nearly \$80 in the last seven trading sessions and is now at \$1,362 per ounce, which is an increase of 6%. This solid performance from the yellow metal during the ANA is no doubt giving participants a boost of excitement and optimism. Silver, at \$23 an ounce, is strong as well, moving up 5% today for a 17% jump in under two weeks. Such increases in precious metals have certainly come at a good time, that is, during a bellwether numismatic gala. Heritage already hammered \$28 million in Rosemont just prior to the World's Fair of Money show. The official ANA sale, conducted by Stack's Bowers is still underway.

The upside movement within the Silver Dollar segment continued, but with moderation for each issue denoted with an advance in Bid, and they included several generic Dollars along with the mostly better-date cartwheels. A better-date and first year issue Dollar in PCGS MS67 from each series were among the most noteworthy of the gainers – the 1878-CC and the 1921 Peace Dollar – Bids of which were respectively elevated by \$100 and \$1,000. Somewhat foreshadowed by the prolific upside activity, however, are the declines of at least 16% for 1921-S Dollars in MS61 and MS62, while 1927 Dollars in NGC MS64 receded \$25 to Bid as they last did in late March. Other than 1922 Peace issues in PCGS MS65+, not a single other Morgan and Peace Dollar in + grade or with a CAC sticker is being offered up at discount.

Pre-1858 dated Proof Type of just about any denomination, the original mintage figures and historical details of which have always been a mystery, fared strongly during this recent major auction circuit in the Mid-west region of the country. The story behind the reason for producing Arrows at Date coinage still fascinates many collectors; however, Half Dimes of this variety in NGC PR65 fell into minor disfavor. More Proof Barber Quarters and Halves as well as Proof Liberty Seated Halves and Dollars of several varieties in Gem or less are needed to meet heightened demand, and Bidders are voraciously in pursuit of Arrows variety Liberty Seated Halves in PR63 and PR64, as demonstrated by their Bid increases this week of as much as 50% and 67%, respectively.

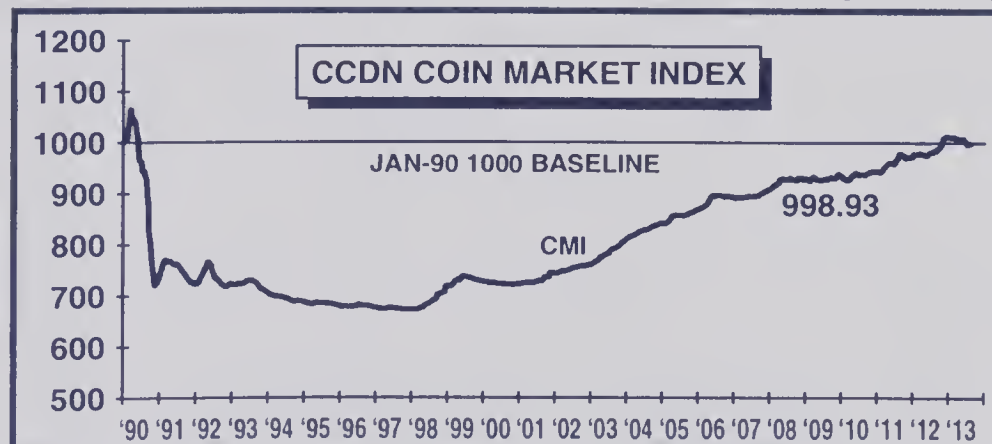

While still retaining a good portion of their gain for the year, 1914 Buffalo Nickels in NGC MS66 slumped down by \$75 during this week's auction activity, and even though there's still plenty of praise for 1937-D 3-Legged Buffs in almost any grade, those certified by PCGS in MS65 also strained in retaining current Bid support to the tune of \$3,350 resulting in a 12% Bid reduction. Key-date issues from just about any series can encounter occasional obstacles insofar as maintaining current Bid, as what happened this week with 1916-D Mercury Dimes in PCGS MS64FB missing their target by \$500. However, orders for common late-date Merces in MS66FB and MS67FB are on the increase again. Semi-key

1933-S Walking Liberty Halves in PCGS MS66 didn't receive as warm a reception this past week, but their shortfall was small potatoes compared to that for 1942-S Walkers in PCGS MS67, with a combined pop of just 10 with 1 finer at the + level in this grade. Back in early May, sight-unseen Bid for these short-set key Halves tumbled from \$75,000 to \$42,500, a 43% decline brought about through a weak performance during a major auction event. It appears that this issue was still over valued for some Bidders competing for such a specimen during the recent outing in Rosemont, resulting in another tumultuous descent by \$20,000.

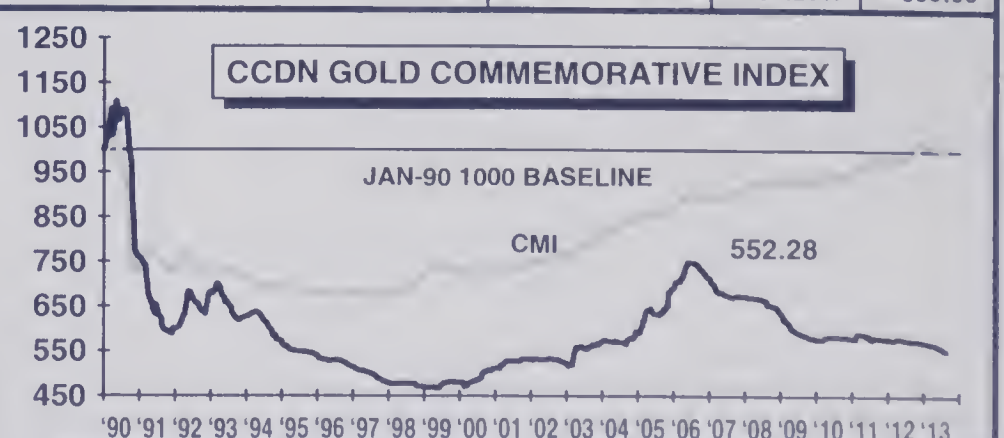

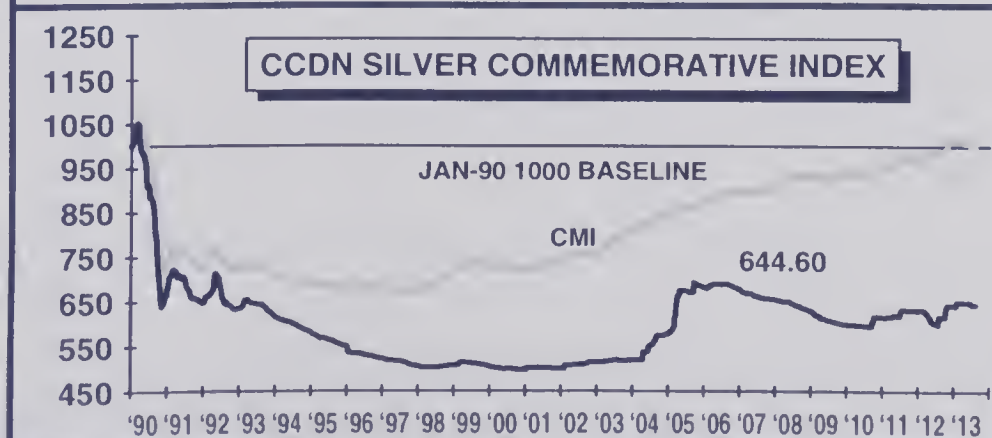

Most Gold Type material has been retaining current Bid support despite arguments that many market experts are expecting another looming downside correction. Although some of the more common Spot sensitive Gold Type issues appear a bit unstable due to persisting volatility in the Spot market, both generic and scarcer material of all denominations in Gem Mint State and better has been spared from any negative trading activity for the third straight week.

It has become abundantly clear that most Classic Commemoratives are in a long-term pattern of decline in terms of market valuation due to over-supply relative to waning demand. Auction results for this week reflect market participants' cognizance of this condition, and so, quite a few Silver and Gold Commems persisted to trade on a regressive path resulting in declines. The auction scene already boded quite poorly for the handful of Isabella Quarters made available, as those in PCGS MS64 and NGC MS65 lost 10%. Other important Silver Commem issues unable to hold on to their last sight-unseen Bid were Alabama 2X2 Halves in NGC MS66 and Grant with Star Halves in NGC MS64, the former issues ending lower by 11% while surrendering all but \$120 of their rather impressive gain for the year. This most recent drop in sight-unseen Bid for 1936-D San Diego Halves in PCGS MS67 constitutes a total decline for these issues of 22% this year, a decline of the same proportion occurring just this week for 1903 Jefferson Gold Dollars in NGC MS61, while their peers in MS66 settled lower to Bid at \$1,400.

PCGS is teaming up with online marketer eBay to expand its U.S. and Canada coins catalog. "We are providing eBay with expanded structured data that will essentially quadruple the number of products in the eBay category and improve the standardization of listing information across the category," said Don Willis, President of PCGS. "Listing with the new eBay-PCGS catalog will be a fast and easy way to create professional, detailed listings and make it easier for buyers to find exactly what they are looking for. Sellers will benefit from detailed product descriptions and the high-quality imagery available in the eBay catalog," said Willis.

The Certified Coin Dealer Newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and strictly the responsibility of the dealer. Prices fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours *FREE!*

CAC's POP Report puts all the data you need at your fingertips

Data for each stickered-coin is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

CCDN CMI Breaks 1,000 Morgan Dollar Star Of ANA Auction

With the ANA in the rear view mirror, the afterglow remains. Dealers were generally quite satisfied with the wholesale and retail bourse action and auction by Stack's Bowers. All told, Chicago auctions surrounding World's Fair of Money totaled in the \$75 million neighborhood. An 1889-CC Morgan Dollar graded MS68 by PCGS stole the show as the highest lot, bringing in \$881,250. This spectacular cartwheel, finest by three full grading points, last sold at public auction January 9, 2009 for \$531,875. Market action is expected to increase soon with summer vacations over and kids back in school. Over 980 plus signs recorded this week have catapulted the CCDN CMI past the 1,000 point baseline established in January 1990. Now at 1,002.28, the CMI fell below 1,000 July 12 after remaining above water for 35 consecutive weeks, following the recent peak on December 14, 2012 of 1,012.75. Precious metals are up as well, which is always a good sign for the rare coin market. Gold has increased by \$50 from last week to \$1,371 while Silver Spot is up to \$23 an ounce for a 60:1 ratio to Gold. Platinum, at \$1,540 hasn't been this high since April 9, with the gap over Gold expanding to \$169. Palladium is also white hot at \$755 an ounce, up nearly 20% in the past two months.

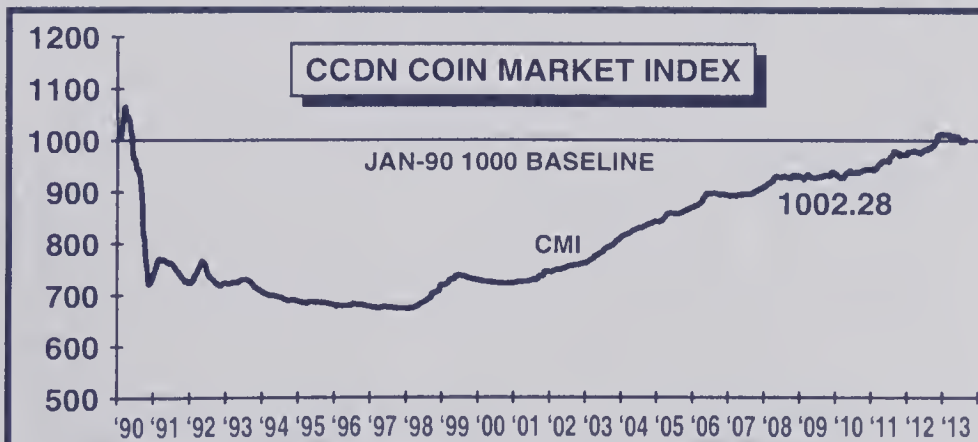

Aside from the moderate gains posted for late-date Walking Liberty Halves in MS64, several of those hard to find early issues in MS61 through MS64 are being targeted more aggressively by Bidders recognizing them for their relative scarcity. Those still very popular 1941-S Halves in MS65, however, dropped back down to where they started out the year as an adequate supply of these issues could no longer support sight-unseen offers at previous Bid, but there appears to be somewhat of a shortage of comparably graded 1944-S Halves.

Bidding volume for both Morgan and Peace Dollars actually picked up quite a bit from last week's already brisk paced activity, conjuring up heightened demand yet again for a multiplicity of generic and less-common issues in a variety of grades. A gain of at least 20% took hold for 1879-CC Capped Die cartwheels in MS61 and MS63, and other better than moderate gains were scored by such uncommon Dollars as the 1894-O, 1895-S, 1903-S, and 1904-S, all in MS64. The pervasive upside momentum transpired prolifically throughout the MS65 grade columns and quite extensively as well throughout the columns listing MS66 Morgan Dollars. Peace Dollars kept up strongly as well in terms of motivating Bidders to shell out more for several issues of this series too, with 1935-S Dollars in NGC MS66 rising 23% to a level on par with their comparably graded peers in PCGS holders. In the aftermath of what turns out to be the most significant auction activity each year, the results reported from the Chicago area were of sufficient optimism to make the Type segment appear as if it is on fire. Mint State material from Three Cent Nickels to Standing Liberty Quarters with Full Heads were of particular interest to market-makers

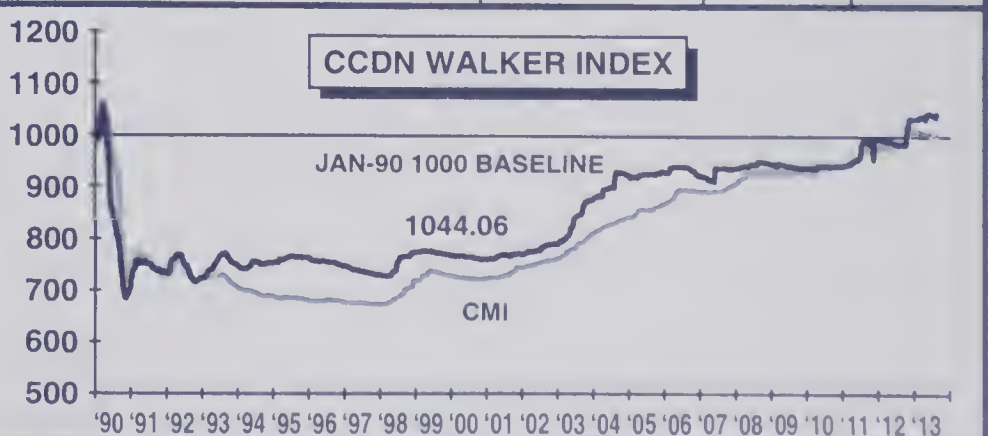

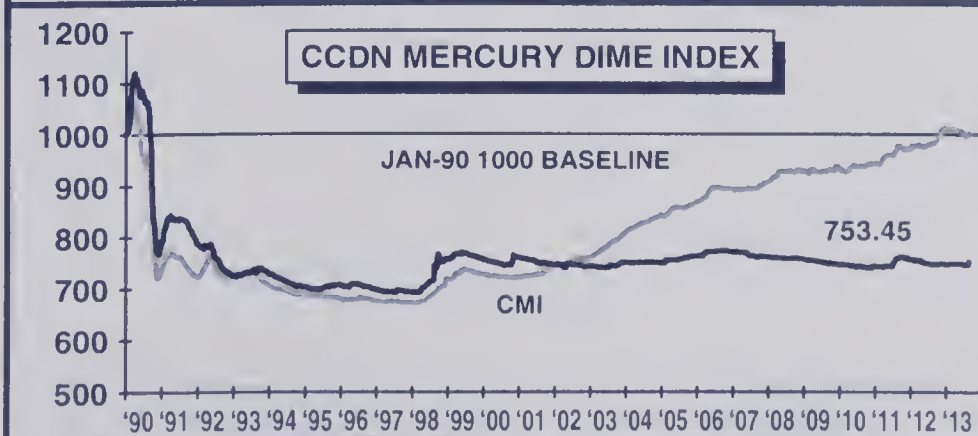

this time around, and late date Three Cent Silver Pieces in PR62 through PR65 and early Matte Proof Buffalo Nickels in PR61 through PR66 were among the many Proof Type issues advancing this week along with those of the higher denominated material, mostly of the Liberty Seated variety. Arrows at Date Quarters in PCGS PR65 gained 28% since last week. Final year 1938-D Buffalo Nickels in MS63 and MS64 were the only issues of this series showing higher sight-unseen Bids. More than a dozen early-date Mercury Dimes in MS64 through MS65FB are receiving considerably more attention from Bidders after a long period of summer season dormancy. First year issue 1916 Mercs in the latter grade rose by an average of 36% this week, while 1919 Dimes of the former grade lured in offers of as much as 78% over previous Bid. Combined pops for 1919 Mercs in MS64 are 59 while 319 have been encapsulated with the Full Band designation in this grade. Numerous other advances for various issues were quite significant, and late-date common Mercs in MS66FB and MS67FB didn't have such a bad week either.

Gold Type at least appears far more stable since the negative volatility within the Spot market has been nearly absent over the past two weeks, but some issues such as \$3 Indian Princesses in MS65 continue to weaken. Scarce-date Gold in any grade still evokes much attention at major auction venues, nonetheless. Recent on-line Bidding activity involved a key-date 1909-O \$5 Indian in NGC AU58 taking in a respectable \$18,400 as the top lot during this past weekend's Teletrade auction. Some significant advances among Silver Commems reflected the resilience of a handful of important issues that sustained rather considerable losses during the previous week's trading activity. Alabama 2X2 Halves in NGC MS66, for example, fully recovered from their week long \$180 suppression to regain their sight-unseen Bid at \$1,905, and Hudson issues in NGC MS64 are back up to Bidding at \$790 as they were two weeks ago while those comparably graded Missouri 2X4 Halves in PCGS plastic also performed well enough this week to achieve full restoration of the \$130 deducted from their Bid in late June. That isn't to say that there were no decliners within this series, and the Gold Commems were especially riddled with them again, causing further instability for at least five Gold Dollar issues and for \$2½ Sesquicentennials in MS64 and MS65.

Next month will be busy beginning with Griffin's Santa Clara show, in Northern California, kicking things off September 6-8. Next up is the Philadelphia Expo, September 19-21 with an auction by Stack's Bowers. Ira and Larry Goldberg will hold their Pre-Long Beach sale from the 22nd through the 25th in Los Angeles. Bonhams will host a sale, also in the City of Angels, on the 23rd featuring the Tacasy! Collection highlighted by a quartet of \$4 Gold Stellas. The Long Beach Expo follows Sept. 26-28 with an auction by Heritage.

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity and reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupportable Bid, or a near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and may differ from the levels shown. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied warranty that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might appear at a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; a blank, for all Market prices older than two months, "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

MORGAN DOLLARS

PCGS DMPL and PCGS DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and PCGS PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined
over 450,000 coins
(\$2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

CAC[®]

"Because Confidence is Priceless"

www.caccoin.com

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 20 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

Silver Commems See Activity Rare Silver Dollars To Be Auctioned

Dealers and collectors are looking forward to the plentiful shows and auctions in September, especially with a positive send off from the World's Fair of Money. Sight-unseen trading remains very active with another round of plus signs outnumbering minus signs, though not by as wide a margin as last week when it was 983 increases to 63 decreases—this coupled with the positive movement in precious metals with Spot Gold up over \$40 an ounce to \$1,413 from our last report and Silver up 5% to \$24 in the same time period.

It was a voluminous trading session among Classic Commems this final week of the month and while several Silver issues were Bid up, allowing for recovery of some of the losses incurred in recent past weeks, there also were a few considerable declines. On the positive end of the results were Isabella Quarters and Lafayette Dollars in MS64, the latter issues bouncing back with a nice 12% gain to settle at a sight-unseen Bid of \$2,260, while Cincinnati Halves of comparable grade and Gettysburg issues in MS66 edged higher by a similar rate, and there was some re-ignition of interest in Grant With Star Halves in MS61 and MS63. Numerous PDS Sets also benefited moderately from the mostly upside activity. However, Bidders' generosity wasn't extensive enough to support trading even at current levels for Missouri 2X4 Halves in NGC MS65 and MS66 as those of the latter grade passed hands at discount by \$700, and the severity of this shortfall likely put stress on their plain rendition peers in PCGS MS65, causing them to weaken as well. Bids for 1903 McKinley Gold Dollars in MS61 and MS62 have each receded by \$60 this year, but those reductions still can't seem to incite a rebound for these issues as they continued on a downward slide for a second straight week.

Movement to the upside within the Silver Dollars segment was nearly negligible, but a noteworthy advance despite its moderation allowed for 1878 7/8 TF issues in MS65 to settle at a benchmark \$1,500 level. Far from rare but increasingly popular and difficult to locate are Mint State 1892 Morgan Dollars. Bonhams' upcoming auction on September 23 (see preview herein) will feature a Gem quality specimen graded PCGS MS65, with a combined pop of 362 and only 27 examples finer. An identically graded but much scarcer 1894 Morgan, with a combined pop of only 25 and 5 finer, will also go before the auction block shortly thereafter with Heritage during the Long Beach Expo event, as will a really tough to find 1896-S specimen,

graded PCGS MS65+ with CAC approval. Competition should be especially stiff for this Dollar, considering its low combined pop of only 5 at the MS65+ level (all by PCGS) with just 9 graded numerically higher. Fairly considerable downside activity prevailed amongst 1898 Morgans in NGC MS63, which lost 14%, while 1921-D issues in MS61 and MS62 seem to be regarded more so as generics despite their being highly revered in most of the higher Mint State grades, and 1924-S Peace Dollars in PCGS MS63 are Bidding \$10 less since last week.

Bidders are offering a minimum of \$325 for any one year Type first year issue 1859 Indian Cent in MS63, attesting to the rise in popularity for these historically important Copper-Nickel Pennies. On the other hand, market participants placed further limits on their offers for those most common of with Motto variety Liberty Seated Halves in PCGS MS66, causing these issues to plunge by over \$1,000 this year. Proof Three Cent Silver Pieces, Type 2 in PCGS PR64 can be quite challenging to find; however, after holding onto their sight-unseen Bid at the even \$3,000 level, these scarce issues finished the week down by 8%, and Barber Dimes in PCGS PR66 fell back as well to Bid at an even \$1,200.

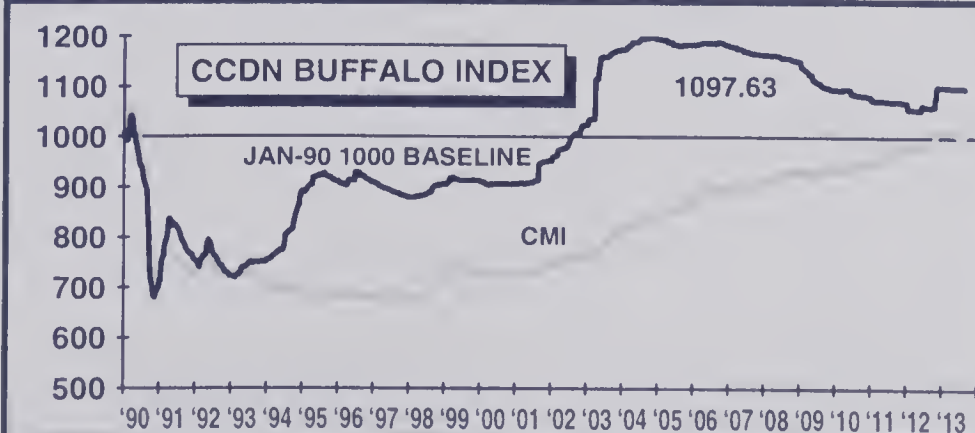

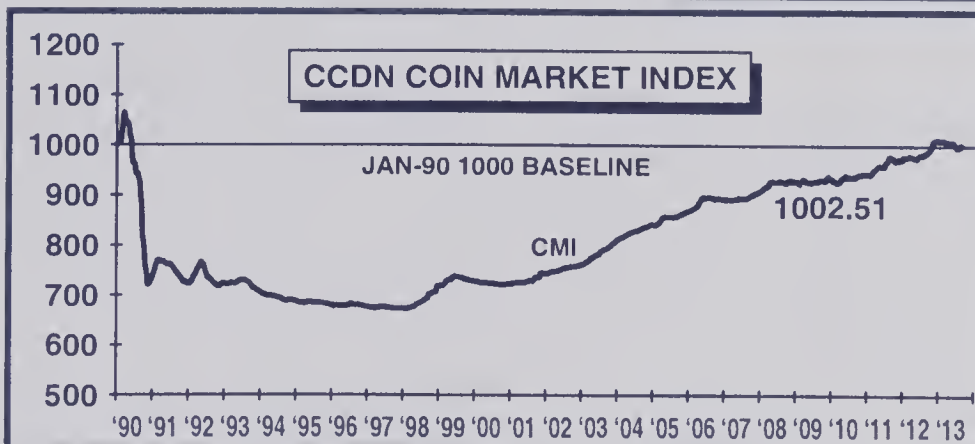

Early Buffalo Nickels in Gem, especially first year issues of both Types from all three Mints, remain among the favorites for collectors of this series. However, the more than adequate supply of 1915 and 1916 Buffs in PCGS MS65 induced dealers to discount them, particularly the latter issues, by as much as 10%, and a reduction of \$15 for comparably graded 1930 Buffs may enable the market to also absorb their excess supply.

Bidders participating in on-line auctions refrained from offering more than an even \$1,200 for semi-key 1920-S Mercury Dimes in PCGS MS64FB, forcing these issues lower by \$40. A few Philly-Mint wartime issued Walking Liberty Halves in NGC MS67 traded at slightly reduced amounts this week along with 1941-S Halves in NGC MS64 and 1943-S Halves in NGC MS66. Overall, it was a somewhat quiet week for this series.

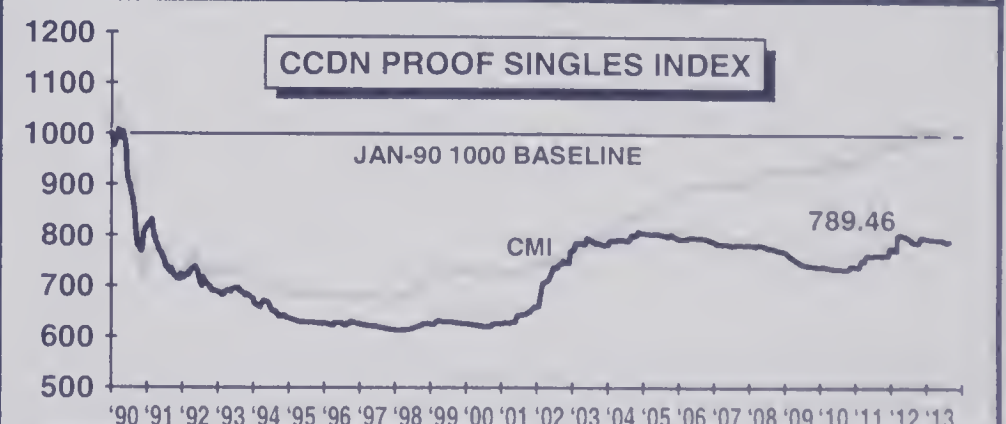

Even though Gold Spot regained the \$1,400 per ounce level and appears to be holding at slightly above it, Bidders remain cautious and apparently conscious of the sudden volatility that may again arise as a consequence of both economic and political uncertainties. While a stronger Spot market lends support to much of the generic material within the Gold Type segment, \$3 Indian Princesses in MS64 and common date \$20 Libs in

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity, reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported Bid. Bids by Auction are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES
Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Table with 15 columns: Item, MS61, MS62, MS63, MS64, MS65, MS66, MS67, MS61, MS62, MS63, MS64, MS65, MS66, MS67. Rows include various US state and territorial commemoratives, US Bicentennial, and US Sesquicentennial items.

GOLD COMMEMORATIVES
CCDn does not buy/sell any coins whatsoever. CCDn will not recommend any particular dealers.
Bid prices are represented as authentic to the CCDn, nevertheless, CCDn implies no guarantee whatsoever

Table with 15 columns: Item, MS61, MS62, MS63, MS64, MS65, MS66, MS67, MS61, MS62, MS63, MS64, MS65, MS66, MS67. Rows include various US Gold Commemorative coins.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bid for PCGS PL and NGC FL 1 coins be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Winged Liberty Dimes Take Flight

Higher Bids, Yet Lower Volume

Plenty of opportunities to replenish inventories or augment collections are taking place this month. September has multiple auctions and shows in store. Dealers are preparing for the Philadelphia Fall Expo and Stack's Bowers sale running the 19th-21st and the Bonhams sale featuring a quartet of Proof Gold \$4 Stellas in PR67 on the 23rd in Los Angeles. Among the remaining 23 lots of Proof Gold are some of the finest known for their Type. Ira and Larry Goldberg will hold their Pre-Long Beach auction September 22-25, and included in the sale is the finest collection of Half Cents ever formed, known as the Missouri Cabinet Collection. Many dealers have taken their vacations during this time of year, as can be seen by the slow activity through the dealer-to-dealer electronic trading networks which totaled less than \$80K in sight-unseen transactions this week. This is the lowest volume of trades so far this year with the second lowest being in mid-July at just over \$100K in recorded transactions. Gold dropped \$40 an ounce since last Thursday, standing today at \$1,373 while Silver, now at \$23.21, dipped nearly \$1. Platinum has fallen just over \$40 to land on \$1,482, and Palladium plummeted a whopping \$53 an ounce, coming in today at \$687.

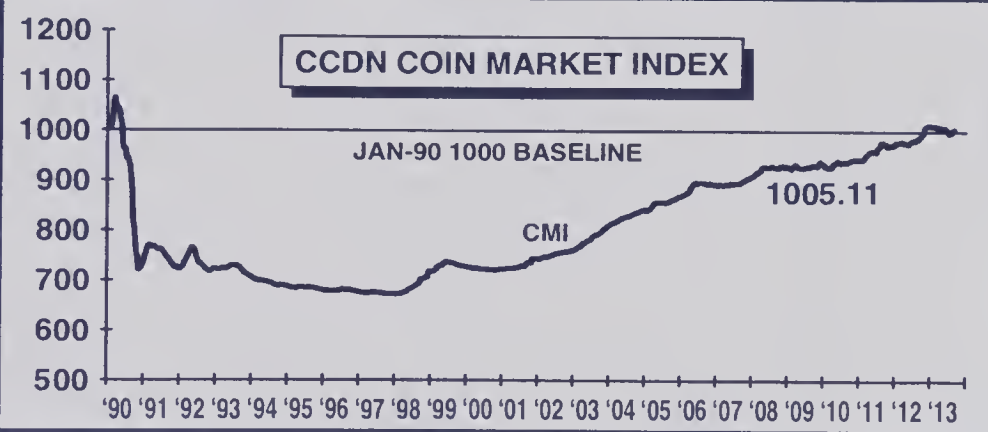

Continuing fascination over 1879-CC Capped Die Dollars in MS62 has boosted sight-unseen Bid for these cartwheels by as much as 17% over the last four weeks and, among higher graded material, 1880-CC (Rev. of '78) issues in NGC MS66 gained this week by 15%. 1890-CC Dollars have been the best performers this year among those available in their original GSA holders with government issued box and COA, having gained \$1,300 since January. Among the more important Morgan Dollars offered by Heritage in the upcoming Long Beach Expo is a not too often seen 1901 in PCGS MS64 with a relatively strong strike for this issue. Stack's Bowers Philadelphia auction is featuring a very rare specimen of the anomalous 1921-D Morgan Dollar in NGC MS65DPL, one of only four such specimens at this grade, all certified by NGC, with none finer.

Gold Type, other than \$2½ Libs in MS62, remained remarkably resilient despite Gold Spot's reverting back down to well below the \$1,400 per ounce level. Higher sight-unseen Bids in MS61-62 for \$10 Eagles, both Indians and late date Libs, maintain a bit of buoyancy for this segment.

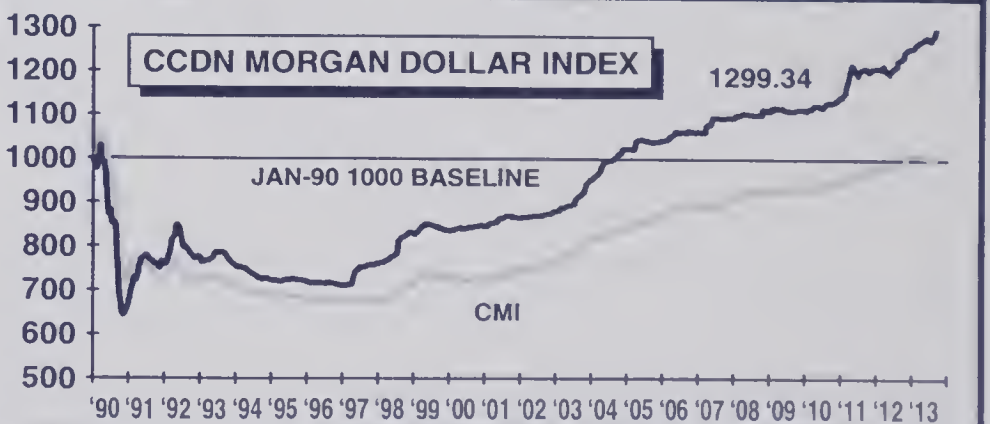

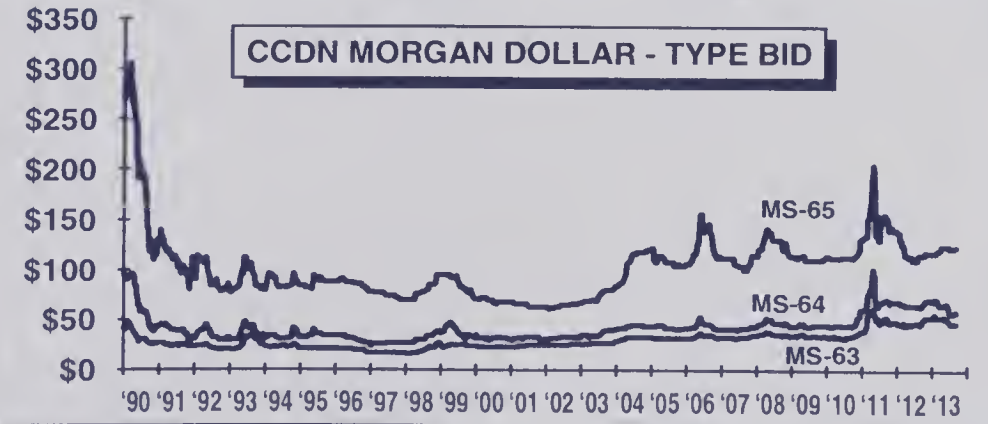

Weakening demand for 1915 Buffalo Nickels in PCGS MS65 apparently had a mildly adverse effect on those same issues in NGC MS64. Two important key-date Buffs are currently eliciting on-line Bids from participants in the auctions taking place in conjunction with this month's upcoming Long Beach Expo: a 1937-D 3-Legged specimen in PCGS MS66 and a 1926-S in PCGS MS65, each offered through the Goldbergs and Heritage, respectively. Two weeks ago, a wave of plus signs denoting increased offers for many early-date semi-key Mercury Dimes in MS64 and MS65 seemed long overdue and significantly bolstered activity for a segment that appeared

relatively dormant throughout the year. But that wave was overtaken this week by a tsunami of even more pluses, targeting both with and without Fully Split Bands, and Bidders are aggressively pursuing the scarcest of these Mercs, be they in NGC or PCGS plastic. Sight unseen offers for any 1920-S Merc in NGC MS65FB, for example, escalated to \$4,000 – a jump of 60%, while 1921 and 1921-D issues in MS64 are now Bidding \$1,500 and \$1,800, respectively, and offers of as much as \$850 for 1928-D Mercs in NGC MS64FB constitute a gargantuan 118% gain for these Winged Liberties. Since early last month, interest in 1943-S Walking Liberty Halves has waned, especially for those in NGC holders, resulting in a \$25 Bid reduction over the past two weeks. Despite this, these Halves are still \$45 above their Bid at the start of the year while their peers in PCGS slabs are still up by \$40 since then. Blind Bidders are accepting any examples of the most common of Walkers in ICG MS64, regardless of what they look like, each with a \$5 hike since last month.

Looking beyond the results of this week's lackluster performance of Bay Bridge Halves in MS65, demand for a number of other Silver Commems firmed up to the extent of allowing such issues as comparably graded Huguenot and 1928 Oregon issues, as well as Pan-Pac Halves in MS63 and MS64, to all receive higher sight-unseen Bids, now in positive net territory for the year. Bidders strove to also acquire numerous PDS Sets with offers at above their respective current Bids, including the 1938 Oregon and Texas Sets in MS64, and 1948 B.T. Washington Sets in NGC MS66 continued in their advance from the previous week to accumulate a two week gain of 20%. Considering how pummeled the Gold issues have been with declines recently, a trading session that left their Bids all unchanged must be regarded as a welcome reprieve from all the frenzied discounting this series has encountered over the past few weeks. Quantities of Bronze Proof Indian Cents and Two Cent Pieces in PR64RB and PR65RB have been insufficient to meet demand, causing Bid for the former issues of the latter grade to surge by 33%. This upcoming succession of major auctions and bourse floor activity taking place in Philadelphia and on the west coast should prove to be a remarkable cornucopia for collector/hobbyists expecting to see a diversity of available Type material. Many fans of the Standing Liberty Quarter series have by now surely taken note of what no doubt is one of the most phenomenally eye-appealing specimens to ever appear at public auction, that is, a 1928-S graded NGC MS68FH with original obverse toning incorporating virtually every possible representation within the color spectrum. This specimen is among the lots offered by the Goldberg's Pre-Long Beach Auction. Aside from its alluring kaleidoscopic appearance, its strike and luster are exceptional, allowing this Quarter to boldly reveal its detail from under the collage of iridescent coloration.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

^ 450,000

\$ 2
billion

CAC has evaluated over ~~400,000~~ coins with a market value over ~~\$1.8 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~\$275,000,000~~ worth of coins.

^ \$300,000,000

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Franklin Halves Gain Some Respect

Gold Commems Reverse Direction, Head North

Sight-unseen trading is on the slow side again this week, with the electronic dealer to dealer networks coming in at just under \$90 grand in completed transactions. In addition to the multiple auctions coming up, Great Collections will be selling off the Young Collection of Classic Silver Commemoratives. This set of 144 pieces is currently ranked #1 in the PCGS Set Registry, and more than 85 slabs are approved by CAC. Those who are curious can take a look at the set at the Long Beach Expo where they will be on display September 26-28. Bidding will take place in four sessions of 36 coins each, ending on October 6, 13, 20, and 27. Numismatic action is the name of the game late this month. Philadelphia's Fall Expo and Stack's Bowers auction is set for September 19-21. Los Angeles will play host to the Bonhams sale on the 23rd. September 22nd-25th is slated for the Goldberg's Pre-Long Beach auction taking place near Beverly Hills.

Sight-unseen Bids for better-date Dollars, mainly in Choice and better grades, give or take a few generics, moved moderately higher again in reaction to the continuing emphasis being placed on acquiring scarcer material deriving from this segment. Prooflike Morgan Dollars had mixed results since our last report and, here too, really only the scarcest of these cartwheels are being sought at significantly higher Bids since last month. Peace Dollar trading lured an increased number of Bidders who were inclined to offer up more for first year issues in all Mint State grades up through MS65. Lexington Halves in MS65 were the only Silver Commems unable to pull in offers sufficient for maintaining their current Bid during trading this week, resulting in a mild decline, but one dealer is blindly offering \$600 for any of the fifty or so 1934 Texas Halves in MS67 graded by NGC. Most noteworthy was the voluminous trading activity that enabled considerable recoveries for a large number of Gold Commems, and it appears that this series has finally come to the end of its nadir with a turnaround providing more positive prospects. Bidders gave a particularly good boost to 1916 and 1917 McKinley Dollars as well as both varieties of Grant Gold Dollars in MS64 and MS65; however, those Grant with Star issues in MS67 slid lower. Two key-date 1926-S Buffalo Nickels that are among the lots featured by Heritage in Long Beach, one graded PCGS MS65 CAC and the other graded PCGS MS64 CAC, have so far accumulated on-line offers significantly exceeding their respective sight-unseen Bids, attesting to the popularity of these scarce and highly sought-after Nickels. PCGS and NGC have graded a combined total of 493 specimens in Mint State, 282 of which are in MS64 with 29 finer, while a mere 22 graded MS65 with just 3 finer.

Early-date Mercury Dimes that sky-rocketed to higher sight unseen Bids last week all continued to trade firmly at these new higher levels along with those that, albeit less elusive, remained neutral these past several weeks but are no less stable in terms of holding onto their market demand. One of a handful of Gem quality Proof 1867 Shield Nickels with Rays has already been eliciting a healthy amount of Bids from on-line participants competing for it through Stack's Bowers' Philadelphia event. This particular specimen, with its appealingly warm obverse and reverse toning, is graded PCGS PR65. Barber Quarter enthusiasts have another chance in Long Beach to Bid on a key-date 1901-S specimen in NGC MS65 offered by Heritage, and this same auction is providing an opportunity for the highest Bidding Standing Liberty Quarter buff to scoop up a really pretty, delicately toned 1916 issue, graded NGC MS65FH. Franklin Halves, especially with Full Bell Lines, have perhaps attracted more collector attention in recent times than any other 20th Century issued series and, as seen on Page F, sight-unseen Bids for these Halves are increasing in sync with their growing popularity. Key-date specimens in Gem FBL, such as the 1953-S, when offered, are available almost exclusively through major auction venues, and one such specimen, graded PCGS MS65FBL, will conclude its final

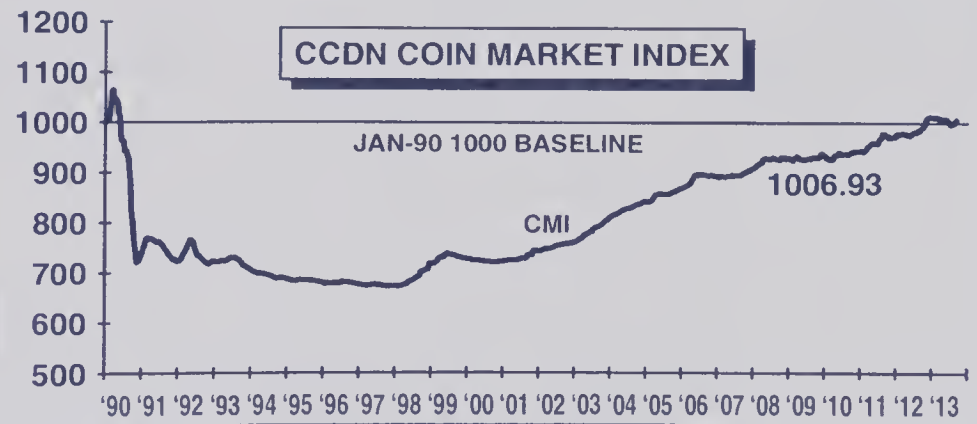

Bidding session with the Goldbergs during their Pre-Long Beach event. Better Washington Quarters are also receiving quite a boost from new higher sight-unseen Bids.

Widespread divestiture from Gold Type is not apparent despite the recent reversion of Gold Spot to \$1,330, down \$34 an ounce today; however, this segment has been adversely affected as a result of Bidders' uncertainties over Gold Spot's near-term future performance more so than by an over-supply of truly desirable material. Better-date and condition rarity issues of virtually all denominations are still being hotly pursued and often demand hefty premiums. Silver Spot also had a less than desirable trading day, losing some 5% from yesterday's close, now under \$22 an ounce. Dealers and collectors are looking forward to the Long Beach Expo, September 26-28 with an auction by Heritage (see highlights herein). There will be plenty to keep attendees entertained as the \$10 million Ship of Gold display makes its return

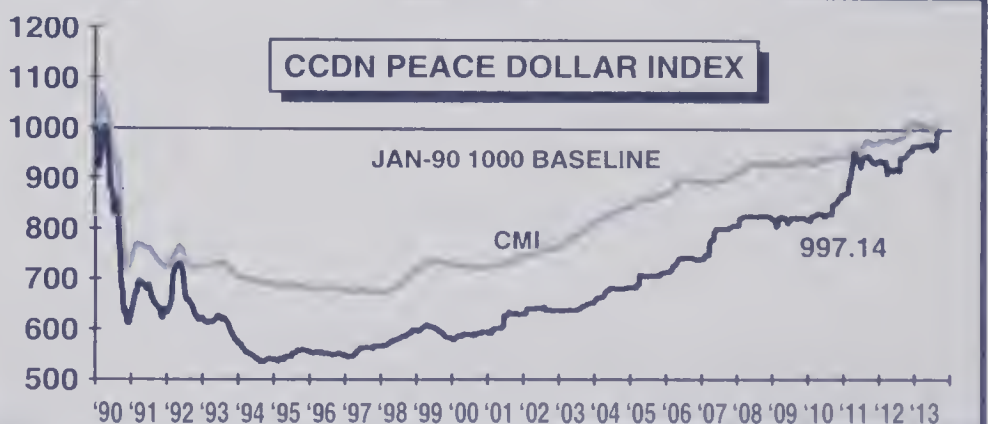

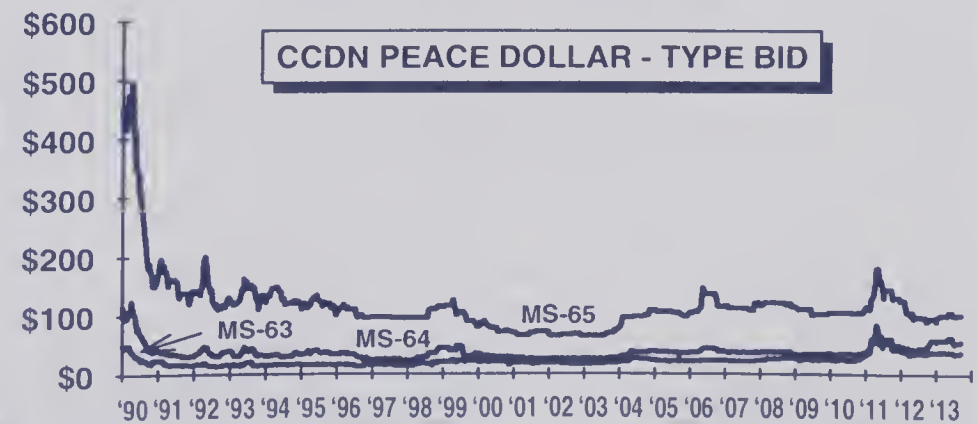

to celebrate 25 years since the discovery of the SS *Central America*. Also, in keeping with the recent increased focus on sports memorabilia, Tommy Lasorda and Darryl Strawberry will be signing autographs on "Dodger Day" at the show on Saturday, the 28th.

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

Data for each stickered-coin is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Proof Dollars. Bids for P/Ls are usually much lower than for DMPLs, but command some premium over non-P/L strikes.

Buffalo Five Cents (1913-1938)
 < 1918/7 D 5C MS | 1919 5C MS >
BUFFALO FIVE CENTS
 1918 S 5C MS
 NGC Universal ID: 22RK

Coin Specifications

Category: Buffalo Five Cents (1913-1938)
 Mint: San Francisco
 Mintage: 4,882,000
 Catalog: KM-134
 Obverse Designer: James Earle Fraser
 Reverse Designer: James Earle Fraser
 Composition: Copper-Nickel
 Weight: 5.00 Grams
 Diameter: 21.2mm
 Edge: Plain

Numismatic specification data provided by Krause Publications NumisMaster.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Silver Dollars Continue To Advance Sight-Unseen Bids For CAC, + Escalate

No Star variety Liberty Seated Dimes in NGC MS65+ acquired \$600 worth of additional appreciation from sight-unseen Bidders since last month. Perhaps elements of nostalgia and fond reminiscence among baby-boom generation collectors who grew up during the days when a Franklin Half Dollar often provided as weekly allowance money, may explain this rather recent market fervor that's been developing for this series. Plus graded and/or CAC approved specimens with Full Bell Line designations are being actively targeted, particularly those from the late 1950s with that often alluring and original looking Mint Set toning. Key-date Buffalo Nickels, such as the 1916/16, 1926-S, and 1937-D 3-Legged specimens featured among the lots presented by the major auction firms in conjunction with the Long Beach and Philadelphia events taking place over the next two weeks, are so far attracting as much on-line attention and Bidding activity as can be expected. Interestingly, a far less elusive semi-key Buff, a 1925-S offered by Heritage and graded PCGS MS65 CAC, has already pulled in strong offers, especially in relation to sight-unseen Bid.

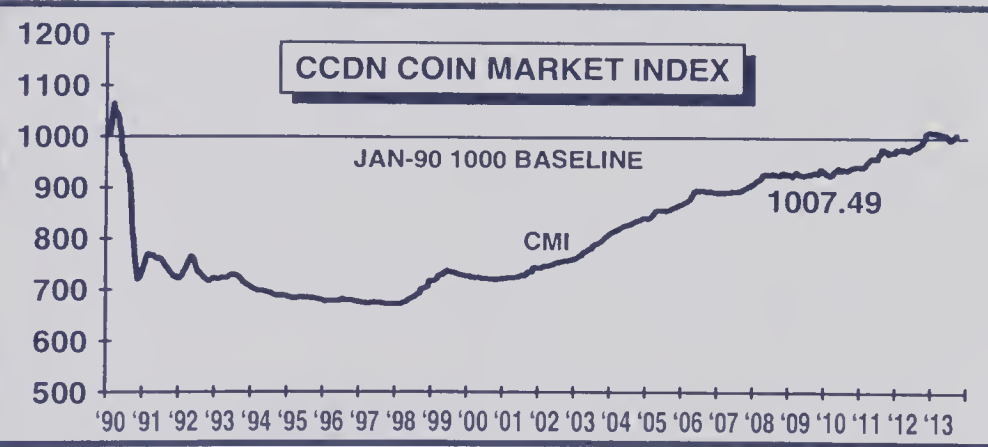

Alabama 2X2 Halves in MS65 are still in a \$15 net positive position for the year despite losing most of their gains since January, as sight-unseen trading for Silver Commems concluded the week with moderate declines for Maine issues in NGC MS63, as well as for Texas Type Halves in NGC MS61, a result which also dragged down their identically graded 1935 through 1937 PDS Sets by a proportionately moderate extent. The hope for another rally among Gold Commems similar to the one occurring last week was dashed by weaker prospects for 1905 Lewis & Clark Dollars in MS61 and MS62, as well as for 1916 McKinley Dollars in NGC MS66, which moved lower by as much as \$60 below their previous Bid while 1917 McKinley issues in PCGS MS67 were reduced by \$50.

A pattern of selectivity is evident among active Bidders opting for Morgan and Peace Dollars in that they continued to gravitate towards acquiring the better-date issues of both series. Later-date, scarcer cartwheels in MS61 through

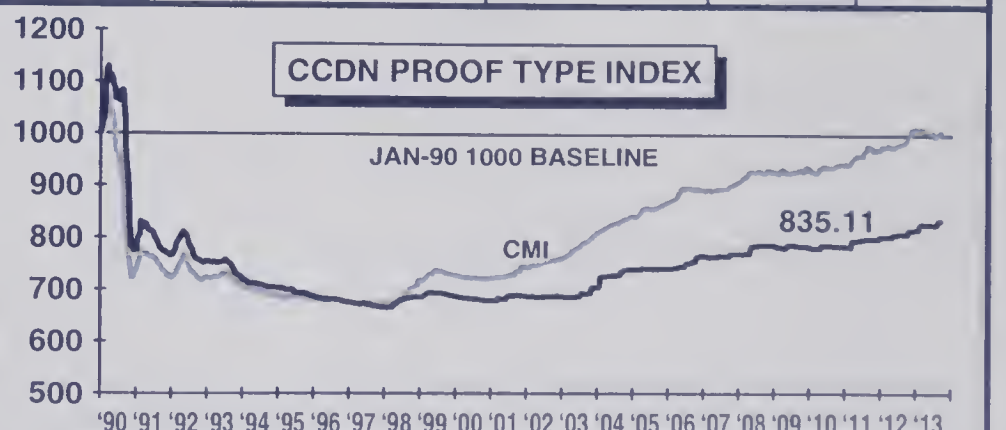

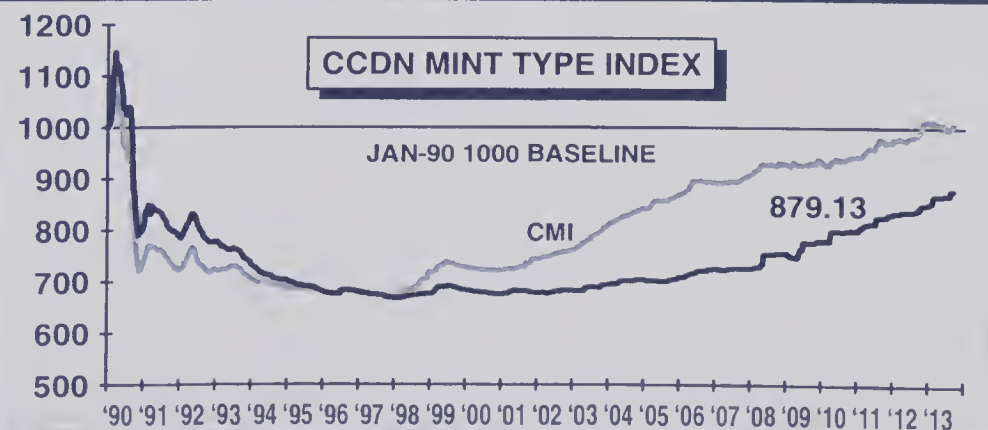

MS66 were in the crosshairs this week, and all 1900-O/CC Dollars up to the MS65 grade range were being particularly sought after. A strong flurry of plus signs once again adorns the Peace Dollars, as first issue year specimens in MS61 and MS62 retained their upside movement from last week, while a multiplicity of + graded and CAC approved examples advanced significantly along with a most dramatic increase in sight-unseen Bid for 1924 Dollars in PCGS MS64+ since our report last month, resulting in a gain for these issues of 47% since then. Nearly 150 Bid jumps are in place for cartwheels deemed solid for the grade by CAC and/or + graded. The Peace Dollar CCDN Coin Market Index shot up by over 12 points to settle at 1,009.19. Walking Liberty Half short-set collectors appear eager to up their offers for a number of component issues in MS66 with CAC stickers on their holders.

Most Gold Type enthusiasts are keen enough to realize that these recent dips in Gold Spot have been an integral part of this volatile free-market since its institution began in the mid-1970s, and there's ample indication of a "buy and hold" sentiment still underlying this segment, even with respect to some generic material. This week, \$20 Saints in PCGS MS65 regained \$25, and CAC examples tacked on \$50.

Sept. 18 saw volatility in the stock market as well as with the precious metals. This was a direct result of the Fed, headed by Ben Bernanke, deciding to maintain the \$85 billion a month bond buying program, or quantitative easing. After the announcement, the S&P 500 jumped 18 points in 30 minutes, and closed at an all-time high of 1,725.52. Rising 147 points, the Dow closed at 15,676.94 while the Nasdaq increased 1.01%, closing at 3,783.64. Gold was below \$1,300 per ounce earlier in the day, at \$1,298, a level not seen since early August. The yellow metal then headed to \$1,360 an ounce and closed today at \$1,369. Silver rebounded by nearly 10%, and climbed to \$23.24 per ounce. Sight-unseen trading over the electronic dealer-to-dealer networks resulted in over \$510K in transactions over the last week.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest and lowest reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 20 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined
over 450,000 coins
(\$2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

Single copy price \$5.00

Recent Sales Tally \$22 Million

Long Beach — Full Steam Ahead

As we head into fall, the public auction scene keeps on grinding along. Stack's Bowers scored over \$4.4 million in their Philadelphia sale, September 18-20. A top lot of \$70,500 went to a Pacific Company \$1 Die Trial Token graded AU58. Bonhams brought in \$11.1 million September 23 with a top lot of \$2,574,000 for an 1880 \$4 Coiled Hair Stella, NGC PR67 Cam. Goldberg's Pre-Long Beach auction, September 22-25 wrapped up for a total of \$6.5 million with a top lot of \$264K for a 1795 \$10 Capped Bust Right Eagle, NGC MS64. See highlights herein. Heritage is the official auction company of the Long Beach Expo, and their sale is now in full swing. In addition to the live auction, the Expo will offer much for attendees to enjoy, including multiple exhibits, a grading class, and a relatively new way to search for coins while on the bourse. Twenty-one dealers have participated in the Collectors Corner Coin Search program, amounting to 7,918 coins and banknotes, which can be searched for using the multiple wireless tablet stations available on the floor, or by using your own.

Morgan Dollar enthusiasts attending the Long Beach Expo this weekend will have a rare opportunity to see the much anticipated display of the Coronet Collection, a 97-coin extravaganza consisting of many of the finest known examples ever certified by PCGS, including an 1891-CC in MS68PL, an 1893-S in MS67, and a 1901 in MS66. Stack's Bowers' Philadelphia auction concluded with a CAC approved 1894 Dollar in PCGS MS64 fetching \$15,275. Higher sight-unseen Bids steered clear of the Morgan segment focusing more on the Peace Dollar series. Increased attention drove up Bid for 1921 issues in NGC MS66 by \$100 and gave a moderate boost to generics in MS63 and MS64. However, those flashy-looking 1923 Dollars in NGC MS67 and those low mintage 1928 Dollars in PCGS MS63 are now down, respectively, by 15% and 10% for the year. There appears to be enough die-hard Gold bugs out there remaining loyal to Gold

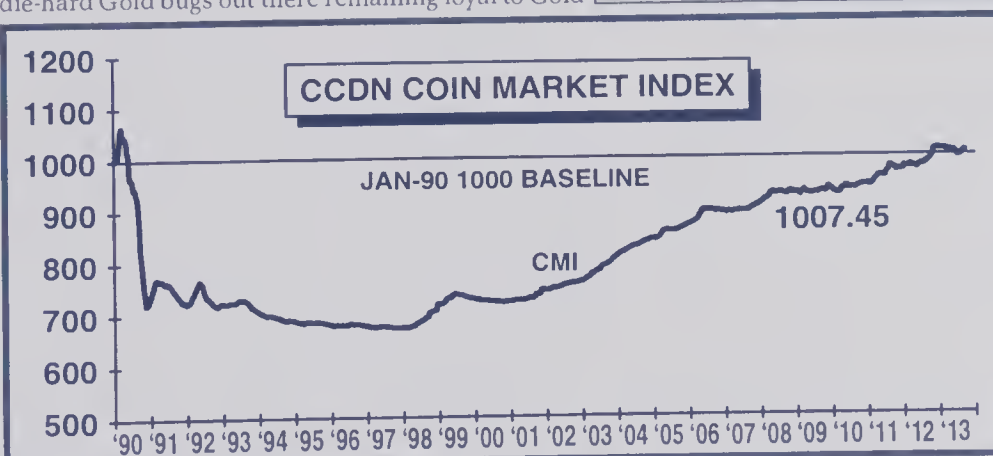

Type material so as to allow sight-unseen trading to rein in results reflecting more plus signs than minuses within this segment. Even though \$3 Indians in MS63 slid by \$100 this week, Bidders put some of their confidence and money back into \$20 Libs and Saints in MS61 through MS63.

The Goldberg's Pre-Long Beach offering of an extensive selection of registry set quality Buffalo Nickels, deriving from the Gerald Forsythe Collection, is expected to have a determining effect on market appreciation for this series. Many of the Buffs featured are key and semi-key issues with exceptional eye-appeal in Gem or better, most of which are CAC approved. This week's trading results posed difficulties for a couple of first issue year Buffs in PCGS MS64, and a more than sufficient supply of 1925 Nickels in PCGS

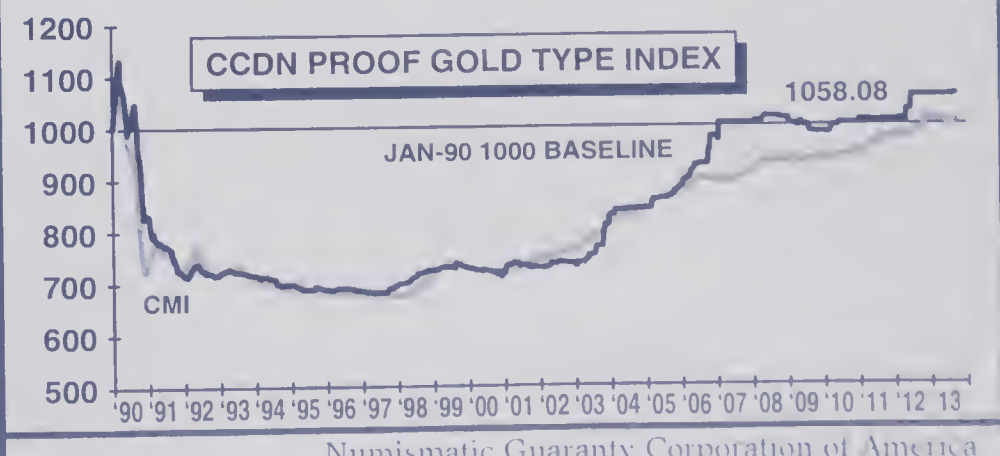

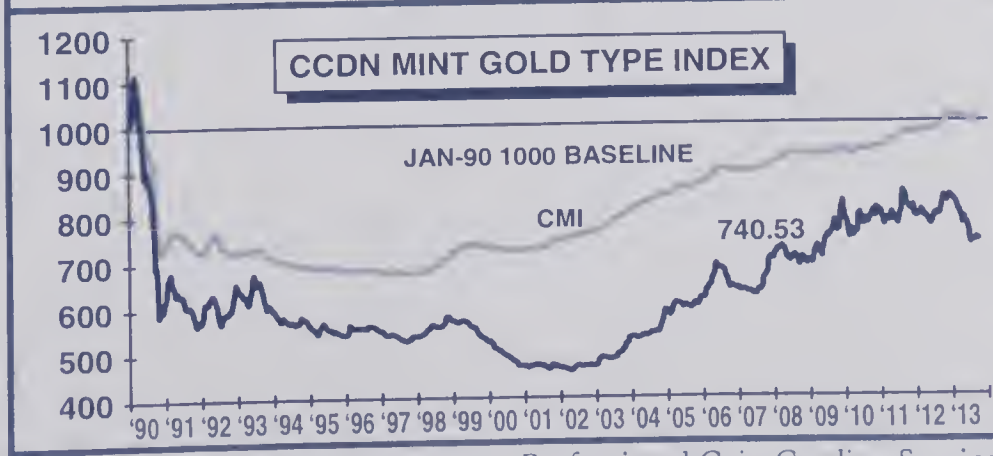

MS65 pulled down their Bids along with those for 1928-S, 1930, and 1930-S Nickels in NGC MS64. The highest Bidder for a 1916-D Mercury Dime in PCGS MS63FB took it home after paying nearly \$16,000 at the conclusion of Stack's Bower's auction in Philly.

Less than enthusiastic Bidding activity took hold over the Classic Commems segment again, with reductions among the Silver issues that included a mild reversal for PCGS graded Antietam Halves in MS65 and Gettysburg issues in MS62, the latter of which were pulled back down to their year's start level of \$355. Moderate declines were posted for Lincoln/Illinois issues in MS61 through MS63 along with comparably graded Maryland Halves. Gold Commems are still suffering losses, some significant in terms of outcomes, as seen by declines this week incurred by 1903 McKinley Dollars in MS66 and those of the 1917 issue in NGC MS61 and MS62 each drifting lower by 7%, while Grant with Star Dollars in PCGS MS66 moved lower by a rather hefty \$175. A wide range of material has sold at public auction recently for below sight-unseen Bid and can be seen in this week's Market columns.

Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading service determined through the most recent survey. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the removal of a low Bid. The CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices vary according to market conditions and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, with the exception of coins which are sold by the dealer and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher assumes that the exercise of due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied warranty of the accuracy of the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin may be sold at a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete a coin's Market price which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month-old); "l" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

UPDATE!

The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^ 450,000} ~~400,000~~ coins with a market value over ^{\$ 2 billion} ~~\$1.8 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ^{^ \$300,000,000} ~~\$275,000,000~~ worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* \$100 per month for three years. Cancel at any time without penalty.

Gold Commems Come Alive Rising Demand Shines On Generics

Dealers are back home from the Long Beach Expo after a hectic week with over \$35 million in total prices realized recorded from public auctions, including the official Heritage sale (see highlights herein). Most expressed having a great show, meeting or exceeding expectations, though some noted the afternoons were a bit slower than normal on Thursday and Friday. After a short respite, attending local shows, it's back on the road again for the highly anticipated Silver Dollar and Rare Coin Expo in St. Charles, Missouri October 17-19, with an auction by Scotsman on the 18th. Bullion dealers are reporting increased action in physical sales of Gold, Silver and Platinum. Beginning October 1, the first day of the government shutdown, APMEX Bullion Center saw three times the recent normal volume. Trading certified coins sight-unseen through dealer-to-dealer networks was fairly robust with over \$280K in transactions recorded this week.

On-line and live auction Bidding for both Morgan and Peace Dollars remains brisk. However, as with material of most other segments, premium Bids are only being offered for specimens that meet the strictest criteria for the grade. While some Bidders may compete most aggressively for common-date Dollars in Ultra-Gem grades with colorful rainbow toning and tend to place somewhat less eye-appeal emphasis only on the scarcer issues, others tend to seek out only the most uncommon of material for the money. Thus, there is now an obvious condition-scarcity/absolute-scarcity dichotomy underlying this market. Generic Morgans in MS65 have 5% higher sight-unseen Bids, now at \$130, a level not seen since February of last year. Choice examples are also in demand with dealers now paying \$50, regardless of what they look like. NGC guarantees GSA Dollars in their original government holder with their wraparound grade sticker for grade and authenticity. ANACS also offers the option of applying a grade sticker while PCGS encapsulates the entire GSA slab. These nostalgic numismatic pieces have the allure of the Old West going for them along with the neat story of their dispersal and are increasing in popularity with a higher Bid in place for an original 1890-CC \$1 GSA graded MS64 by NGC, now at \$6,500. SEGS has a new certification verification lookup feature on their website, and the online pop report is reportedly coming soon.

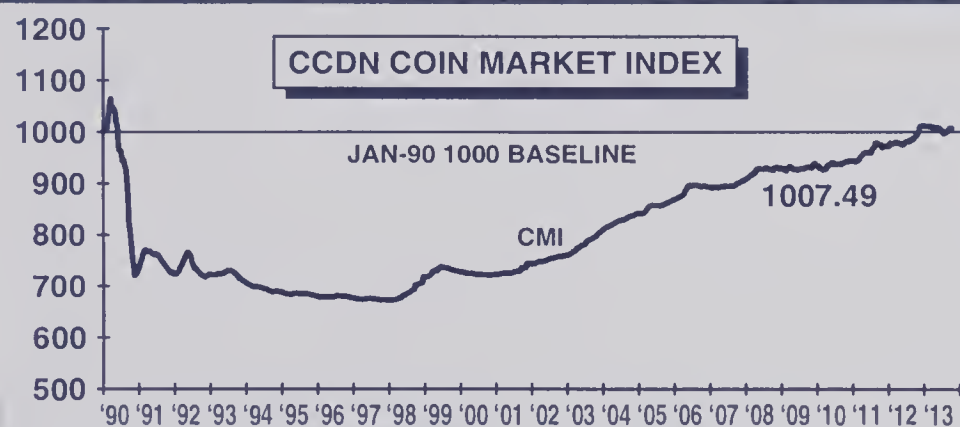

Some leaning down occurred within the Type segment in terms of downward movement among a handful of Mint State and Proof issues, but there hardly were any losses that can be deemed devastating. Bid for Coronet Head variety Large Cents in MS65BN receding back down below \$1,000 and a 10% slide for No Cent Liberty Nickels in NGC MS66 were among the most noteworthy of the underperforming results. Some Proof Type issues encountered somewhat less than enthusiastic reception in recent auctions, as Liberty Seated Dimes with Stars obverses in NGC PR65 traded with the largest proportionate loss to settle back with a Bid lowered by \$135.

Bidding action of these past few major auction events brought both encouraging and yet more disappointing prospects for Classic Commems. For the Silver series, the latter condition predominated as several issues failed to maintain support at current Bid levels during the frenzied activity Grant with Star Halves in PCGS MS64, which appeared gainfully positioned earlier this year with their Bid ascending to \$2,300, began losing ground in June and have since declined to Bid at \$1,850. An equally hard blow came about for Huguenot Halves in PCGS MS67, as these issues ended 11% lower this week, and comparably graded Roanoke Halves in NGC plastic wound down by 14%. Multiple recoveries can be reported among several Gold Commems in MS61 through MS65 as over 60 advances are recorded in this report with 9 out of the 13 issues participating.

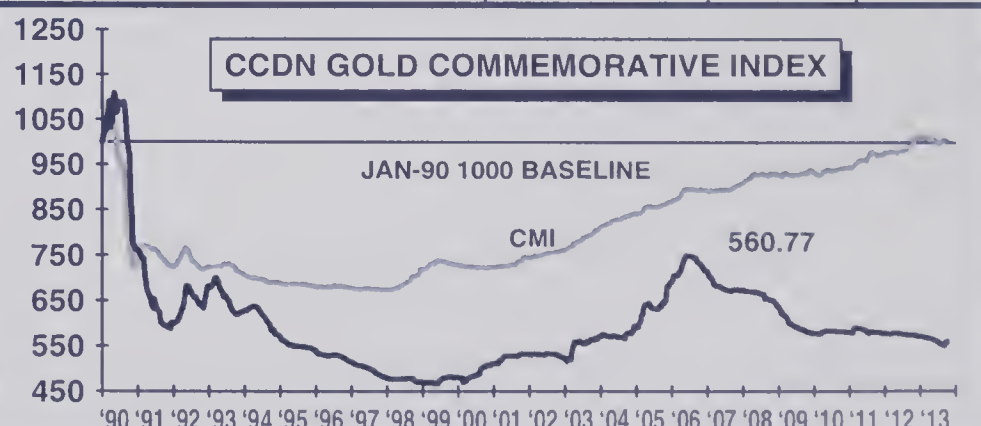

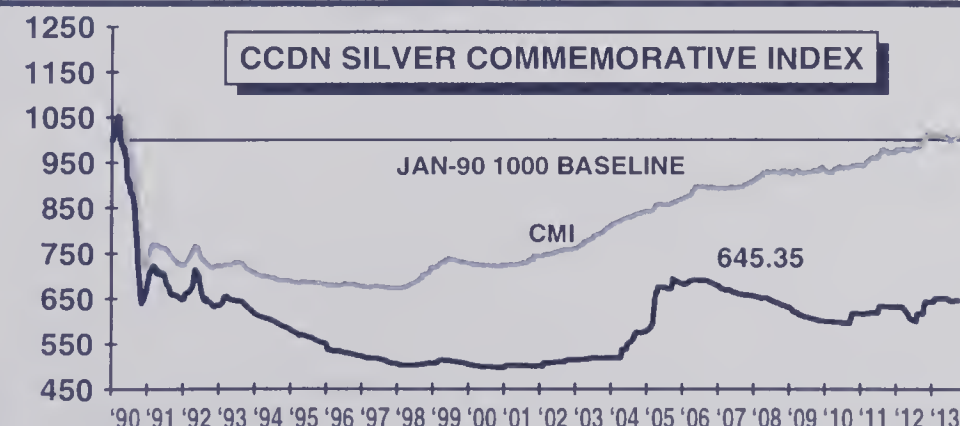

This past week's disposition of a rather large number of Buffalo Nickel lots through the auction scene on the west coast boded well for most of the scarcest key and semi-key-date issues of this series, but not so well for others. 1913 Type II Buffs in NGC MS66 and 1915-D Nickels in PCGS MS64 each incurred losses of about 13%, while 1920 issues in PCGS MS65 missed their current Bid target by \$35. Another challenge involving a significant pull-back of \$70 was posed to 1928-S Buffs in PCGS MS64, and this week's \$1,000 drop in Bid for 1937-D 3-Legged issues in PCGS MS66 now consummates a decline of 10% this year for these popular Buffalo rarities. Of all the semi-key Mercury Dimes, 1927-S issues in MS64FB, with a combined pop of 60 and 57 finer, had among the best track records so far this year, gaining an average of 55% since January. However, these Dimes may have appreciated a bit too fast for some Bidders' comfort levels and, therefore, receded this week by \$150.

Generic Walking Liberty Half Dollars continue to pick up steam, now at \$57 in MS64, the same level they were at this time last year. Still, quite a bit of ground needs to be gained to return to the recent peak set in November of 2011 when quantities of Very Choice examples were trading sight-unseen for \$62. Type II Gold Dollars in NGC MS62 are regaining some appeal; however, \$5 Libs in NGC MS67 took a jostling this week, ending up with a \$1,000 decline due to weak auction reception. Late-date \$10 Libs in PCGS MS65 and comparably graded \$10 Indians, sustaining their upbeat momentum from last week along with their peers in MS64, stood out positively among the other Gold Type issues, most of which still appear resistant to the effects of this latest episode of volatility within the Gold Spot market.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

Data for each stickered-coin is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. The best sight-seen trades can be expected to occur at substantially higher levels in many cases.

Common Morgan Dollars Continue Climb Sellers Leave Money On The Table

Although the sight-unseen market is strong, with over \$300K selling through the dealer-to-dealer electronic trading networks, we continue to see coins selling for less than Bid at auction. Common date Carson City Morgan Dollars in lower Mint State grades is a segment that routinely sells at auction for less than dealers are paying. Also, some dealers are selling their material for less through one trading exchange than dealers are paying sight-unseen on another network. For example, an NGC PR66 Barber Half was sold for \$3,100 by hitting a Bid on one exchange, leaving money on the table as dealers on another network are still offering to pay \$3,300 for any example. Since these are sight-unseen offers, the trades are automatic with returns not an option regardless of the coin's appearance in the slab. This information is readily available in the CCDN Market columns published here the fourth week of each month.

Now that we are in the second week of the government shutdown, Gold is trading below \$1,300 per ounce for the first time since October 1, the initial day of the crisis. Silver remains fairly stable at just under \$22. Platinum has moved up a bit in this same time frame, now at \$1,392, and the spread between this industrial metal and Gold has virtually doubled since this time last week. Stocks rose sharply today on news that the government is moving closer to raising the debt ceiling and solving the threat of a US default. The Dow achieved its largest single day gain since January jumping 323 points, to 15,126, shy of its all-time record high of 15,677.

On October 6, Great Collections auctioned off the first group of 36 Silver Commemoratives from the Young Collection, a complete set containing many top pop and CAC approved examples, which realized a total of \$87,433. The three highest selling lots from this group include a 1928 Hawaiian Sesquicentennial graded PCGS MS66 for \$7,208; a 1936 Cleveland Centennial, PCGS MS67+ CAC crossed the block in second place for \$5,500; and a 1938-S Oregon Trail Memorial, PCGS MS68 sold for \$5,280. The remaining three groups of 36 coins are scheduled for auction each Sunday throughout the month of October. Bids for those popular Gettysburg Halves in MS65 and Maine issues in MS62 and MS63 receded this week to the extent of forcing these Commems to forfeit all of what little they gained this year and then some. Similarly poor reception for 1926 Oregon Halves in NGC MS61

and MS62, as well as for their 1934-D peers in MS65 in both PCGS and NGC plastic, also may have portended the possibility of continuing weakness for this segment. Last week's multiple gains for several Gold Commems held up firmly, however, as market participants appeared less discount frenzied with respect to this series.

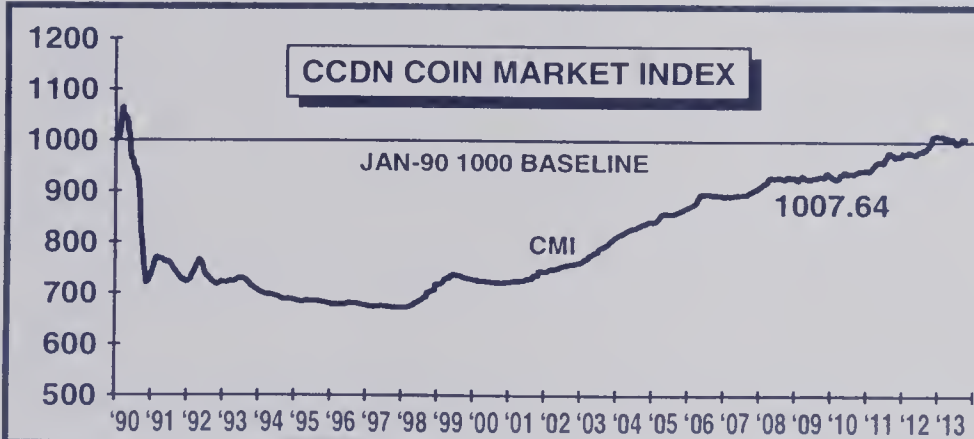

Type enthusiasts have a rare opportunity during Heritage's second New York City auction, November 15-16, to Bid on an exceptionally high quality 1853/53 No Arrows variety Liberty Seated Quarter, graded MS67 by NGC, with lovely shades of delicately colorful toning about its peripheries on both sides. This is one of two CAC approved examples in MS67, with a PCGS and NGC combined pop of just five and one finer. Pedigreed to the former collection of Eric P. Newman, it is often regarded as a very underrated coin due to its comparatively sparse mintage of just 44,200 pieces.

A very elusive 1918-D Mercury Dime, graded PCGS MS65FB with CAC approval, is included among the lots presented through the auction in NYC. This Dime's combined pop of 35 with only 3 finer makes it quite less available than a comparably graded 1916-D specimen with a combined pop of 57 and 34 finer. Generic Morgan Dollars in PCGS or NGC plastic grading Very Choice are moving higher once again, jumping 3%

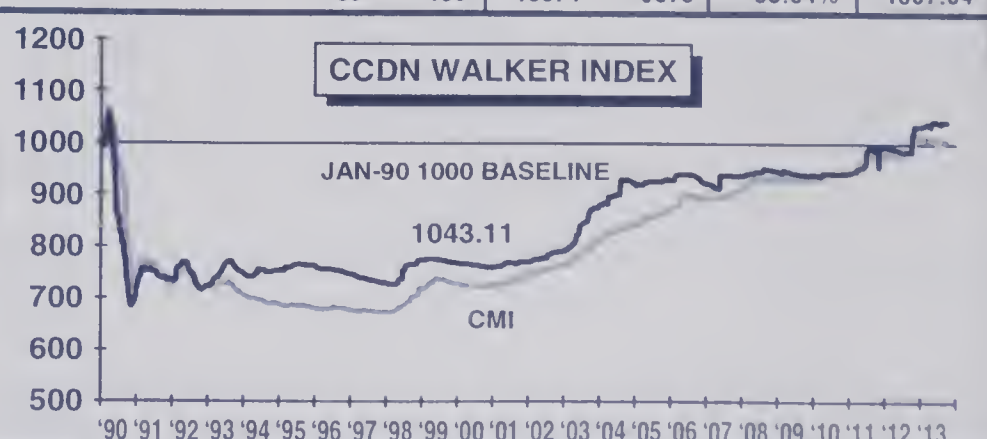

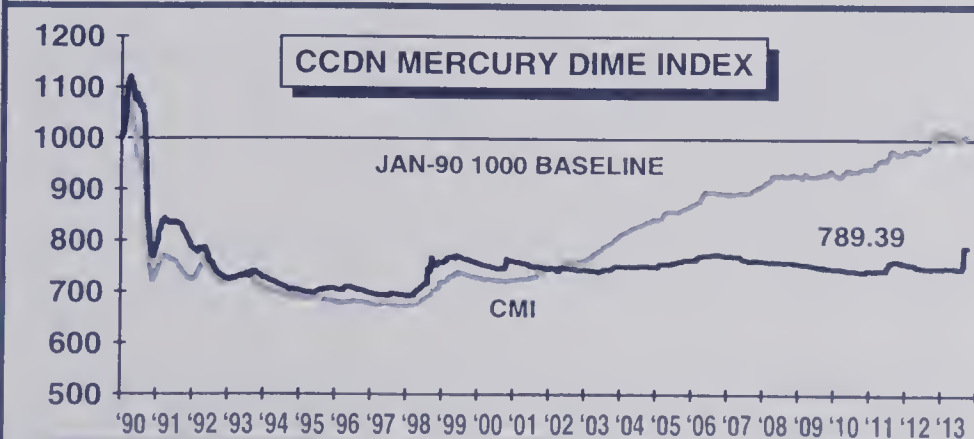

this week now \$62 Bid with buyers looking for quantities. Unsightly examples whether they be darkly toned, streaked, spotted, mushy, whacked up, dipped out, overgraded, etc., all qualify for this blind offer. Just ship. Over fifteen years ago, in April of 1998, these had a Bid of \$27 and recently peaked in the same month of 2011 at \$101.

NCA, the Numismatic Consumer Alliance, is offering to finance free memberships in the Numismatic Literary Guild for up to 100 young numismatists interested in writing about the hobby. Membership application fees of \$25 plus the first year dues of \$15 will be covered, and those who receive the offer will be able to apply to have their dues paid each year up to the age of 25. The Silver Dollar and Rare Coin Expo is scheduled for October 17-19 with an auction by Scotsman. Heritage will be holding an auction November 1-3 in New York City. We have included several of the many highlights herein. Next up is the Baltimore Expo November 7-10, with auction by Stack's Bowers.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an open bid. Bids are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

October 11, 2013

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike. Bids for P/Ls are usually much lower than for DMPLs, but command some premium over non-P/L strikes.

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined
over 450,000 coins
(\$2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

WALKING LIBERTY HALVES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Clearer sight-seen trades can be expected to occur at substantially higher levels in many cases.

CERTIFIED COIN DEALER

newsletter

CCDN—a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXVIII No. 42

October 18, 2013

Single copy price \$5.00

Sight-Unseen Market Strength Remains Gold Commems Looking Up

Gold jumped well over \$40 an ounce today to close at \$1,323 as the federal government re-opened and raised the debt ceiling in an 11th hour decision before the October 17 deadline. Silver also spiked nearly 60¢ to \$21.92. Platinum settled at \$1,432, rising close to \$37 an ounce. Also, the S&P 500 ended at a new record high of 1,733. All this government action over the last 16 days hasn't stopped coin dealers and collectors from preparing for the upcoming shows and auctions. Today begins the Silver Dollar and Rare Coin Exposition in St. Charles, MO. Auction duties will be handled by Scotsman at this show. The PCGS Members Only Trade-N-Grade is taking place concurrently at the Bellagio in Las Vegas. November 1-3, Heritage will be holding an auction with a Premier Session in New York City. Next is the big Baltimore Expo, November 7-10, celebrating their 41st year, with an auction by Stack's Bowers. Former US Mint Director Edmund Moy and retired US Mint chief engraver John Mercanti will attend the show Friday and Saturday, and offer autographs, a Q and A period, and photographs with attendees. November 15-16, Heritage will be holding another auction in New York City featuring part 2 of the Eric P. Newman collection.

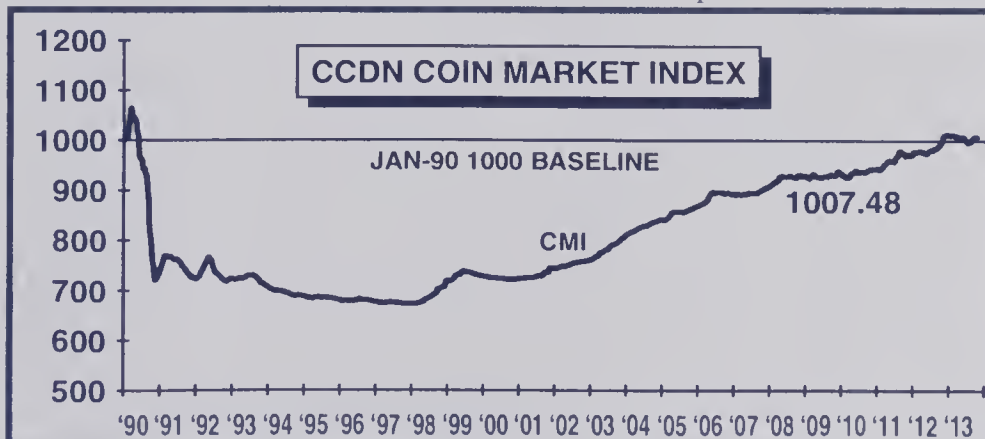

Common date Morgan Dollars are slightly softer in MS63, MS64 and MS65 — now Bid \$47, \$61 and \$125. These lower numbers represent weekly declines of 6%, 2% and 4% respectively with only the Gem grade trading above their Bids from the beginning of the year when they were \$117. Generic cartwheels in Mint State 63 and 64 began the year much higher at \$53 and \$70. Semi key dates through the rarities are holding strong at their current levels with a handful of PCGS Plus grades moving higher. A boost of \$1,250 equaling an 18% Bid jump is looking to secure any of the 17 MS64+ 1886-O Dollars that PCGS has encapsulated. Remember the Certified Coin Exchange will automatically invoke a sight-unseen Bid for + grades, such as this one for \$8,250 when a dealer placed a sight-seen Bid for a non-Plus graded example. Common Carson City mintmarked Morgans continue to suffer in retail auction venues, with MS62 and MS63 examples often selling for less than sight-unseen Bids for the MS61 grade. Peace Dollars remain active as common dates move up a bit in MS65 to \$103

Bid and NGC Very Choice slabs trade for a couple of dollars less. PCGS Plus grades in this segment are receiving a very warm reception by way of higher sight-unseen offers, with over two dozen advances recorded. 1935-S specimens claimed the largest increase at 14% in MS66+ and 13% in MS65+. To date 29 examples have been graded MS65+ by PCGS and only one in MS66+. Over 90% of the CAC stickered Peace Dollars listed herein have visible sight-unseen buyers at CCDN Bid.

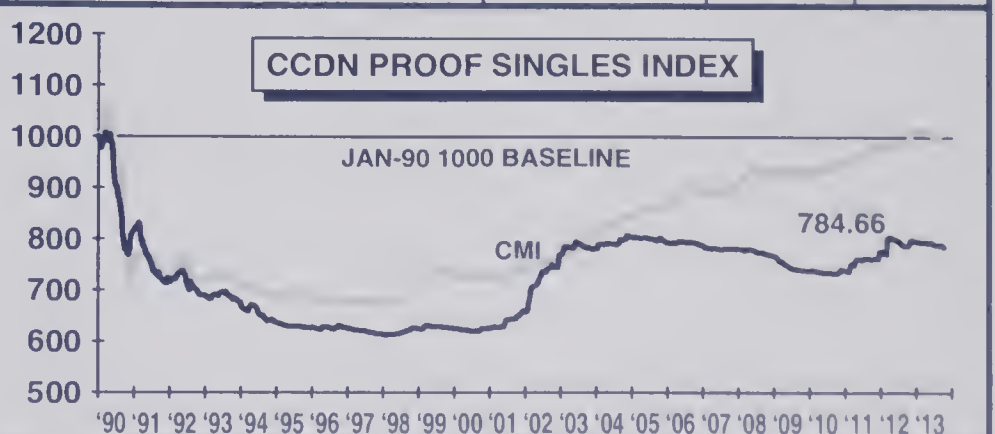

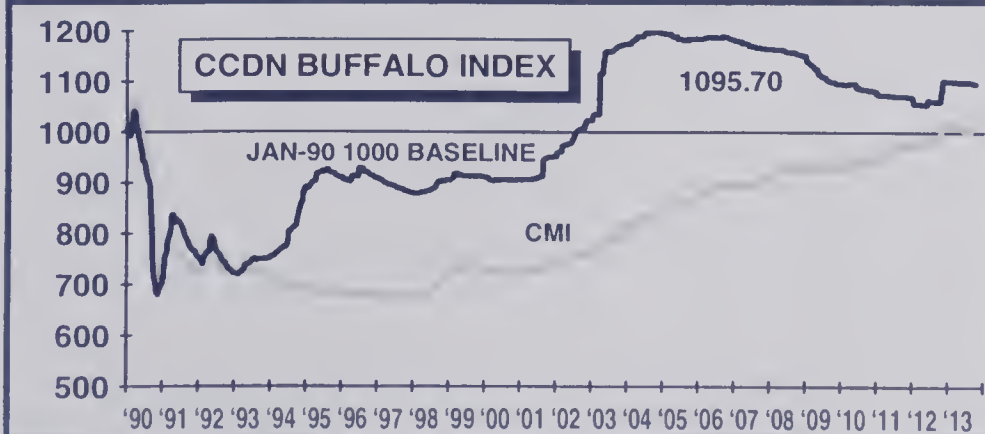

Gold Commemoratives are still shining brightly with another round of increases taking place. Although most of the 75 higher sight-unseen Bids are only up by \$15-\$40 from our last report, the trend is good for a market segment that has been down and out for years now. Another good sign is that as of late, far fewer examples have been selling in retail public auction for less than their current wholesale Bid levels. \$50 Pan-Pac Slugs are needed in MS64-MS66 with CAC approval and increased Bids by as much as \$8K are in the system hoping to bring even one of the eight stickered MS65 Octagonal examples to market.

Highly visible and active dealers have sight-unseen Bids in place for just about all of the CAC approved Type issues listed on this week's supplemental pages. PCGS Plus product is also solidly supported, albeit to a slightly lesser extent. Both Early and Proof Gold Type are included in this strong show of demand, in addition to each of the Copper, Nickel and Silver Type areas. This kind of active sight-unseen Bidding is in stark contrast to the standard slab coverage we see, where the amount and quality of Bids are far less prevalent.

More than one dealer has placed an order for quantities of Mercury Dimes grading MS67 with the Fully Split Band designation noted on the grade label. The high Bidders will take these Superb Gem Winged Liberty Dimes in either PCGS or NGC plastic at \$121 per. A combined total of over 17,500 have been graded at this level with over 750 rated MS68FB and have blind offers of \$405 targeting them. CCDN's CMI has been on a general upswing since mid July, moving from the high 900s to 1,007. This demonstrates, at least in part, that the sight-unseen market has been strengthening over time.

PCGS Professional Coin Grading Service Newport Beach, CA (800) 447-8848	NGC Numismatic Guaranty Corp. of America Sarasota, FL (800) 642-2646	CAC Certified Acceptance Corp. Far Hills, NJ (908) 781-9101
The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity and reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of a high Bid. As a result, the CCDN may report a bid near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary as long dealers are subject to the requirements of the marketplace according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.		

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

^ 450,000

\$ 2
billion

CAC has evaluated over ~~400,000~~ coins with a market value over ~~\$1.8 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~\$275,000,000~~ worth of coins.

^ \$300,000,000

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Morgans Manage Multiple Gains Market Columns Provide Answers

Sight-unseen trading is steady as she goes with some extra steam for this year compared to last, at least according to the dealer-to-dealer electronic trade reports. From late January to late October of 2012, \$10,836,192 in sight-unseen trades took place. This year, over the same time period, \$11,685,643 worth of blind trades occurred. Gold has increased \$27 from our last report, and Silver is up 87¢, or 4%. The yellow metal closed today at \$1,350 and Silver landed at \$22.79. Coming up next is a Heritage auction in NYC November 1-3. Then, November 7-10, it's the 41st Baltimore Expo. Stack's Bowers will handle the auction duties at this show which will feature the David M. Sundman Collection of Massachusetts Silver. Sundman, the president of Littleton Coin Company, formed his collection over a period of years, which consists of 18 different varieties of Massachusetts Silver coins. Heritage will hold yet another auction in the Big Apple, November 15-16, featuring part 2 of the Eric P. Newman collection.

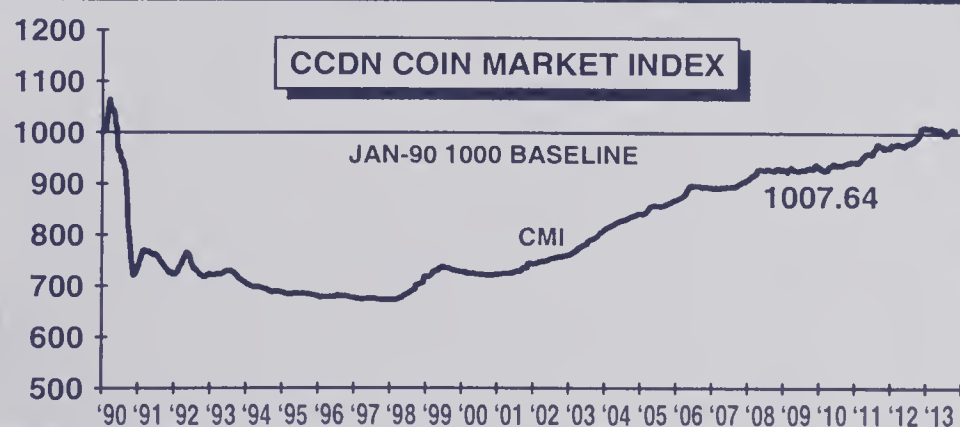

Classic Silver Commemoratives continue to struggle in respect to regaining popularity with collectors. This week a number of Bids are being lowered and are especially concentrated among the 3-piece PDS Sets. Many of these were sold at recent public auctions, which is somewhat unusual since they are most often sold individually rather than as a group. For the most part, Gold Commems are maintaining their increased Bid levels from the past few weeks. Buyers are visible at current sight-unseen Bid for the majority of Mint State issues through the Gem grade level. Some weakness is seen among NGC Gold Dollars in MS67, including 1903 McKinley and Grant with Star examples.

Morgan Dollars are moving higher with both generics and better dates participating. This market segment has performed well recently and a large number of issues are now selling in retail public auctions for less than wholesale sight-unseen Bid. A snapshot of this scenario can be seen in this week's Market columns in addition to quite a few examples trading dealer-to-dealer for less than current Bid. So far this October over \$27K in generics have sold sight-unseen through the Certified Coin Exchange, mostly in MS64 compared to the entire month of October in 2012 when less than \$15,000 worth of common cartwheels traded. Blast white or whitish Gems are currently receiving a 20% premium over their toned and possibly unattractive counterparts reported on herein. PCGS encapsulated examples of the 1884-S are the big winners in MS62. Bid has jumped 23%, tacking on \$1,500 in hopes of enticing sellers. PCGS has graded 101 1884-S Morgans at the MS62 grade level with only 58 qualifying for a higher grade. Retail auction prices realized reveal that three examples in PCGS plastic sold this year

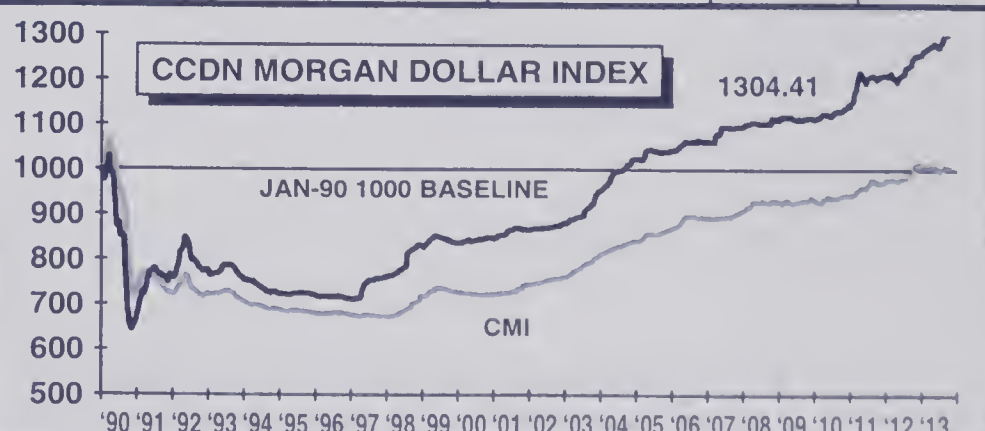

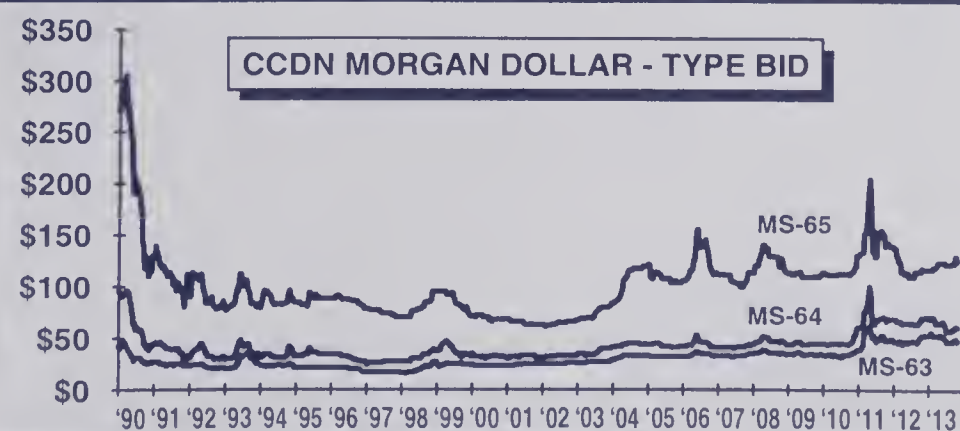

for a low of \$13,513 and high of \$16,450. Peace Dollars are just as healthy as Morgans with actually no Bid drops to report. This week's action is targeting slightly better dates in mid-grades, primarily on the NGC side of the ledger.

Mint State Type is very healthy for virtually all segments including Copper, Nickel and Silver issues. Higher buy offers are in place for Barber coinage in denominations of Quarter and Half Dollar. Barber Halves are now Bid \$485, \$750 (\$740 NGC) and \$975 for MS62, MS63 and MS64 respectively. The increases are relatively minor at \$5-\$15, with blind buyers accepting PCGS or NGC product. Barber Quarters in Choice are now Bid \$330, which is mostly in-line with the response these issues receive at public auction. NGC examples have sold for as little as \$317 in the past month while PCGS came in at \$382. Both of these realized auction prices can be seen in their respective Market columns. Gold Type remains quiet with little movement to report. It may take a rather dramatic change in Gold Spot to energize this area of the market which is directly tied to the sentiments surrounding Gold bullion levels. Three Dollar Indian Princesses were the largest casualty here, losing 6% in PCGS MS61 after an 1874 example had a less than flattering auction appearance last week.

Walking Liberty Half Dollars are continuing to slow down from all the positive activity experienced earlier this year. Early and key dates remain strong, but the late dates and slightly better issues are stagnant. A handful of declines have occurred due entirely to lower trades recorded through the dealer-to-dealer exchanges and less than expected auction results. Information absent from the Market columns reveals a lot of relevant data. A missing symbol (e.g. w, t, a) represents that it has been over three months since we have seen an example for sale, trade, or sell through auction. If the column is completely blank and is absent of a symbol or number all together, one can surmise the issue is extremely rare in that grade or does not exist. A complete explanation of the Market column and the meaning of the various symbols can be found at the top of page 2a. Proof Singles are mixed in this report with both advances and declines present. Action within this diverse segment of numismatics is usually pretty relaxed; however, pockets of higher Bids and discounted sell-offs have taken place this year. Proof Franklins have led by way of Bid percentage increases this year, with 4 of the 5 top ranking positions held by Benjamins. 1950 dated Franklins in PCGS PR67 are up 60% since January at \$1,600 while 1951 issues slabbed by NGC are up 38% in the same grade.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealer, and fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, or from other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guarantee that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin may display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the *last week* prior to publication (week old); "m" - Lowest asking price during the previous three weeks (*month* old); "t" - Trade during the most recent month; lm - Lowest asking price appearing *last month*; "lt" Trade appearing *last month*; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

Data for each stickered-coin is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

“Because Confidence is Priceless”

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 19 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Winged Liberty Dimes Take Flight

MS66 Walkers Step Up

Ben Bernanke stated yesterday that the interest rate will remain at 0%-¼% and that the bond buying program totaling \$85 billion per month will also be maintained. This is being done to support the economy, and the stock market is responding. This year, 32 record highs were set for the Dow, and 33 new records took place for the S&P 500. This is similar to Gold creating 37 new record high closing levels in 2011. Gold is currently down a bit to \$1,324, while Silver closed at \$21.87.

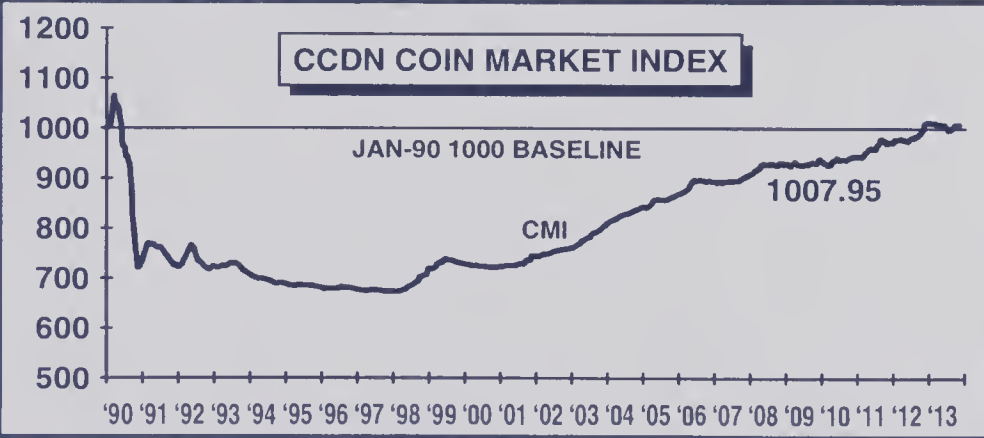

Morgan Dollar buffs monitoring the on-line progress of the Baltimore auction by Stack's Bowers can't overlook the fact that a very scarce 1883-S specimen in NGC MS65 has already stirred up quite a bit of attention from Bidders so far. Interestingly, PCGS and NGC have each graded 14 examples as such, with each service certifying 2 finer MS66 examples and 1 in MS67, constituting a combined pop of 28 with 6 finer for this elusive coin. The last MS65 to sell at public auction was an NGC graded example that brought \$19,550 last October. It has been over three and one half years since a Gem PCGS specimen sold in auction, when \$24,150 was shelled out. Generic Peace Dollars are higher in NGC MS64 while off a tad in lesser grades. Several Depression-era and war-time issued Mercury Dimes are Bidding higher in nearly all grades, inducing a trading session within this segment nearly as voluminous as that seen eight weeks ago but without the dramatic Bid augmentations. The exceptions, however, were 1938-S and 1945-S Merics in MS65FB – the latter issues jumping higher this week by as much as 97%. Dealers are now paying \$65 for any of the 622 examples PCGS has graded MS65FB while NGC slabs now have a higher sight-unseen Bid of \$60 with a mere 89 existing in this grade. PCGS has certified 606 in higher grades with the FB designation and NGC reporting in with 270. There usually is an ample supply of common-date Walkers in MS66, but this week's activity required quantities of them beyond those normally accessible and, therefore, each of these Halves moved to the upside. Short-sets in this grade are now Bid \$4,684 for PCGS and \$4,529 for NGC.

Silver Commems are again noticeably dusted with moderate declines as sight-unseen offers for Columbia and Elgin Halves in MS61 through MS63 were accepted at just below their previous Bids. A disappointing auction outing combined with waning sight-unseen Bids for Grant No Star Halves in PCGS MS65, forced these issues down from their \$400 level achieved back in early March. All Roanoke Halves in MS64 and lower Mint State grades dipped mildly as well. 1905 Lewis & Clark Gold Dollars in MS64 and MS65

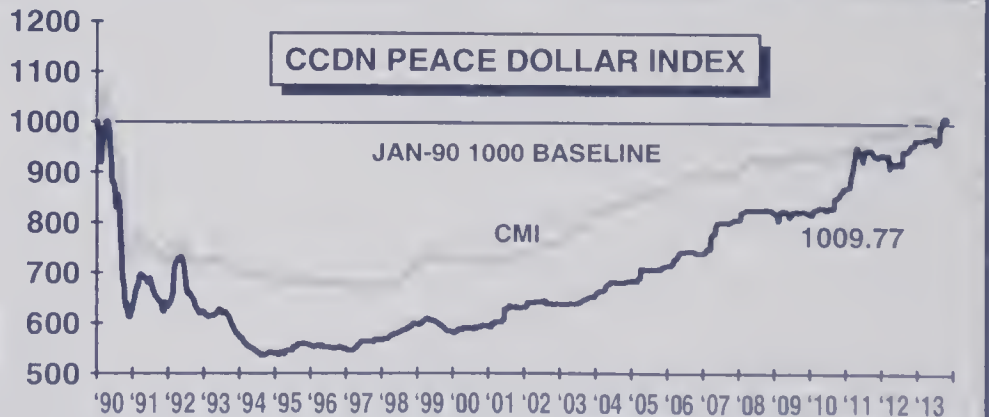

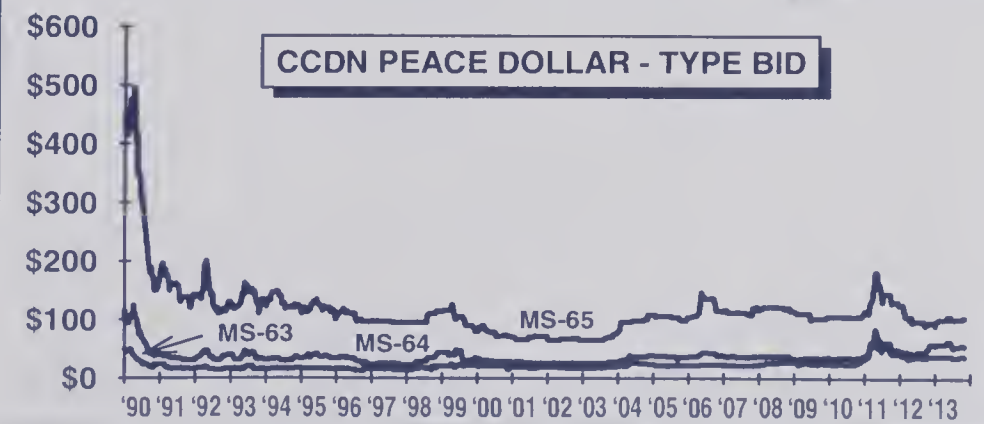

bounced back robustly this week due to resurging demand with dealers now offering at least \$5,000 for any of these examples in the latter grade. About a dozen Classic Silver Commems sold through public auction this past week for prices that are below standing sight-unseen offers. A PCGS MS65 Vermont sold for 10% less than dealers are advertising to pay for even the ugliest of examples, leaving money on the table.

Not much occurred this week on the Buffalo Nickels front other than 1936 issues in PCGS MS66 losing a bit of ground to Bid at an even \$70. Proof 1937 Buffs in PCGS PR67 also declined a bit to \$1,820 in response to lower wholesale Asking prices. Jefferson Nickel Proofs are telling a slightly different story as 1938 examples in the same service and grade jumped 88% to \$300 Bid. PCGS has graded 229 at this level with only 11 finer. Only 2 examples have sold at public auction for more than \$300 since June of 2011 and both were approved by CAC. Some 23 PCGS/NGC examples sold in this period with prices realized as low as \$138. Disposition of another major portion of the renowned Eric P. Newman Collection (Part II) by Heritage in New York City two weeks from now is expected to positively stimulate interest in both Mint State and Proof Type. Condition-rarity and absolute-rarity specimens of every denomination and variety abound among the offerings through this landmark auction event, and Bidders with connoisseur taste will surely be treated to a feast of enticing possibilities in terms of the diverse selection of superb quality material presented to them. This week, however, the Type segment retained virtually all of its current Bid support posture with hardly any changes in sight-unseen Bids to report.

Gold Spot flinched just slightly since last week while remaining well above the \$1,300 per ounce level as economic and financial prospects for the nation remain questionable and reports of aggressive physical Gold purchases by individuals and central banks in Asia and Europe persist. However, some Gold Type material remains weak, such as Type I Gold Dollars in PCGS MS66, as these rather infrequently offered specimens are now Bidding for well below \$6,000, but \$10 Libs with Motto in PCGS MS65 have moved higher by \$150 over the past two weeks. Many dealers took advantage of NGC's in house walk through event this October 29th thru Halloween. NGC has duplicated their invitational/trade-n-grade environment without the travel and casinos. This allowed dealers to head to New York for the Heritage auction November 1-3. Next up is the Baltimore fall Expo November 7-10 with an auction by Stack's Bowers.

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined
over 450,000 coins
(\$2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

Vol. XXVIII No. 45

November 8, 2013

Single copy price \$5.00

Morgans & Mercs Higher \$20K For Choice \$20 High Reliefs

Much of the professional numismatic community, along with a wealth of collectors, primarily from the east coast are in Maryland attending the highly anticipated Baltimore Expo and Stack's Bowers auction Nov 7-10. This activity is taking place on the heels of the NYC Heritage sale that concluded last week with over \$11.3 million crossing the block. High end rarities are continuing to perform quite well at public auction, especially if the material is fresh to the market after being put away for several years, if not multiple decades. Most scarcities that are problem free and solid for the assigned grade are also doing extremely well, across the entire grade spectrum. All of this positive energy from collectors and dealers alike has spilled over into the sight-unseen marketplace. Weekly increases have become common as wholesalers realize they will need to up the ante in order to replace and or acquire certified product in quantity. Many of these sight-unseen Bid jumps are pushing wholesale levels higher than the last retail price realized at public auction. This creates minimum downside risk for buyers, allowing them to move in and out of generic slabs with little to lose.

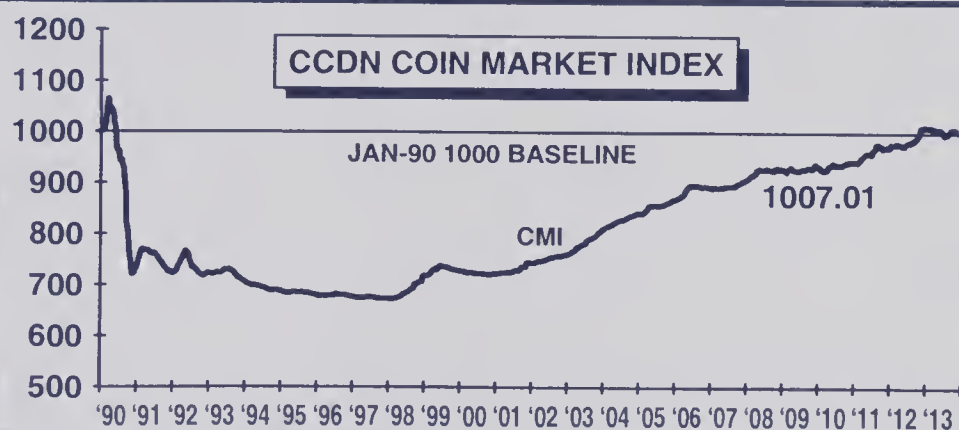

Bidders placing multiple orders for Silver Commems exacted discounting on a broad scale again, resulting in even lower Bids for at least a dozen or so issues in various Mint State grades, including some that are not always the easiest to find. California Halves in MS67 were among these, with a combined pop of 251 and 21 finer. Connecticut Halves in PCGS MS65 and MS66 were each lowered by \$10, while Maine and 1921 Pilgrim issues in PCGS MS65, along with Stone Mountain Halves in PCGS MS67, each fell short of current Bid support by up to \$15. Minor pull-back activity affected a few NGC issues as well, including both Missouri Halves in MS63, Pan-Pacs in MS65, and Spanish Trail Halves in MS62 through MS64. Overall, the Gold series appears to remain in recovery as several moved higher – benefiting from the trading activity that was predominantly to the upside this week.

Common-date Morgan Dollars in MS65 are now Bid sight-unseen at \$130 once again and have risen 11% this year – not a bad gain from material so often associated with the term "generic." This rise in demand may derive from the probability that more of these cartwheels are slowly but surely becoming more appreciated as the true collectibles they really are, more so than as mere tangible asset commodities for high turnover speculation. Deep Mirror Proof Like Dollars are on the rise, jumping some 8% in PCGS MS63DMPL to \$130. Gem DMPLs also moved higher with a half dozen NGC graded common dates trading through the dealer-to-dealer networks at \$325 a pop. Prooflike Morgan Dollars in MS63PL and MS64PL had more positive reception this time than during the past few months. Peace Dollars in Gem or better are scarcer than their comparably graded Morgan peers, as we all know, and it appears that collectors and market-makers are settling to

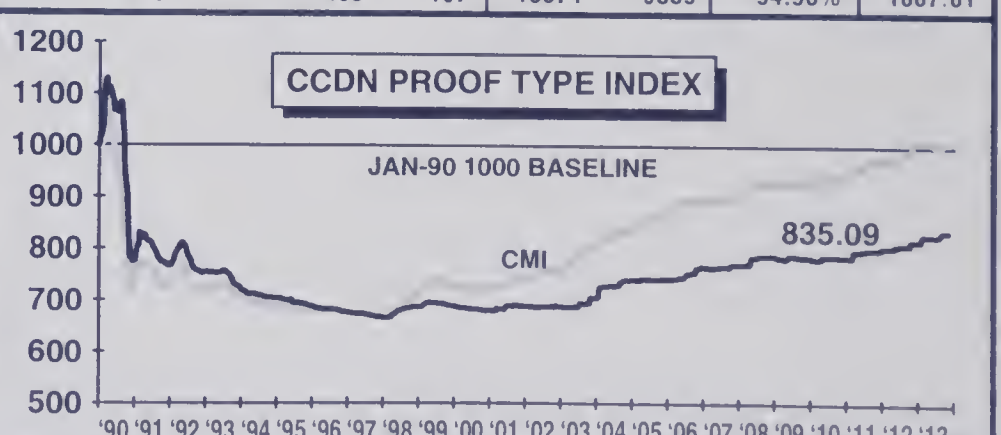

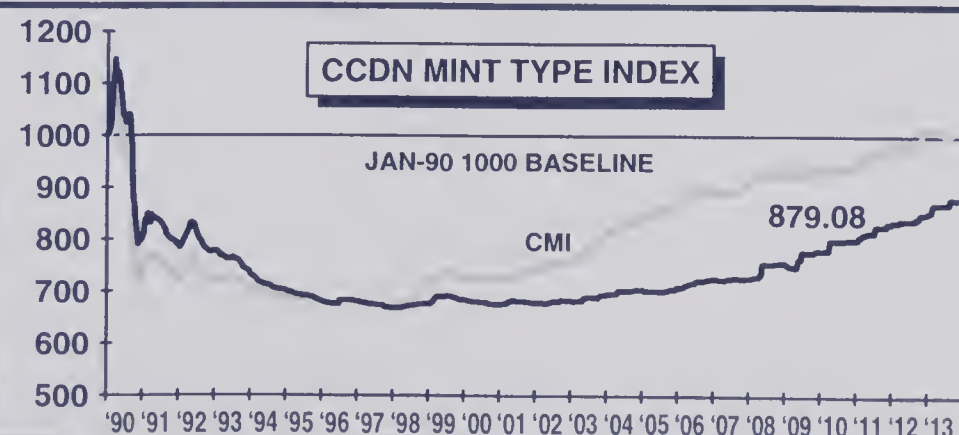

acquire some of those tougher early-date specimens in MS64 at higher Bids. Draped Bust Half Dimes with Heraldic Eagle reverses in MS61 and MS62 are in greater need again with sight-unseen Bids for them raised by another \$500. These historic obsolete denominations are up so far this year by 27%. The finest known 1796 Draped Bust Quarter, graded NGC MS67+★ CAC, featured among the material from the Eric P. Newman Collection, Part II, has already been Bid up to well over \$1 million by on-line contenders participating in the New York City auction conducted by Heritage. Other highlighted specimens expected to attain, if not exceed, this benchmark figure are two Draped Bust Dollars – a 1795 "Off Center" example, graded NGC MS66+★ CAC, and a 1799 "7X6 Stars" variety, graded NGC MS67. Although Bid for 1918-S Standing Liberty Quarters in PCGS MS67FH dropped down by \$2,000 due to lower Asking prices, a CAC approved 1921 Quarter in NGC MS67FH+ so far has taken the top lot position among 20th century issued specimens featured in the Newman auction. This coin is tied with just one other PCGS graded example of its kind for "finest known" recognition. Some Proof issues, such as Barber Quarters, are making a come-back, now up 8% and 15% in PR66-PR67 respectively.

Mercury Dimes are on fire again this week, especially early-date issues in Gem and higher grades. First issue year specimens in top condition are actively being sought, but other early issues, such as the 1918 in NGC MS67FB, sprang up way short of demand and, thereby, forced Bidders to shell out as much as a 30% more for these increasingly tough to find Dimes. Several of the far more common late-date Mercs with Full Bands aren't doing so badly either, with issues such as the 1942 in NGC MS67FB and comparably graded 1944 Dimes rising by over a 30% level as well. In just the past few weeks, Bid for 1936 Walking Liberty Halves in NGC MS67 has dropped by 14%, but while a lightly toned 1938-D Walker in PCGS MS66 sold for a respectable \$1,783 this past weekend during Teletrade's on-line auction, some mildly buoyant activity sent Bids higher for common-date Halves of this series in MS64. Most \$20 Saints in less than Gem grades are highly sensitive to Gold Spot fluctuations, but first year issues, including the High Relief, had fairly good outcomes this past month. Since our last report on these Saints, High Relief issues in MS62 and MS63 are Bidding for at least \$15,000 and \$20,000, respectively, while business-strike Arabic Numeral variety specimens in MS65 gained \$50.

In other news, Heritage will be conducting its inaugural 68 lot Domain Name & Intellectual Property auction on November 21, with websites registered over the last 20 years. In addition to "numismatics.com," several other coin related domain names are up for grabs including "CoinCompany.com," "SellGoldCoins.com," "NumismaticsBlog.com," "CoinBlog.com," "MyCoinCollection.com" and the Canadian domain name "Coins.ca." A high Bid of \$800K has been recorded for "MutualFunds.com," leading the auction.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

UPDATE!

The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

^ 450,000

\$ 2
billion

CAC has evaluated over ~~400,000~~ coins with a market value over ~~\$1.8 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ~~\$275,000,000~~ worth of coins.

^ \$300,000,000

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

CAC[®]

"Because Confidence is Priceless"

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/Ls are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these bid levels. Demand for sight-seen trades can be expected to occur at substantially higher levels in many cases.

Gold Commems Continue Path North

Merics Maintain Momentum

While Gold has failed to regain the psychologically important level of \$1,300 per ounce, the yellow metal made an upward move of over \$17 today after five straight days of losses, closing at \$1,286. This could be related in part to Janet Yellen's statements that suggest maintaining the status quo regarding interest rates and bond purchases should she replace Ben Bernanke. Stack's Bowers has racked up over \$13.5 million so far from the Baltimore auction. Three of the top five lots from the sale were Massachusetts Bay Colony Silver pieces. Making the number one position was the NE Shilling, graded PCGS AU55, cataloged as Noe-1-A, and bringing in over \$440K. Coming in second place in the sale was an N-1 1652 Willow Tree Shilling, graded PCGS VF35, for over \$280K. Next in the hierarchy, also selling for over \$280K, an 1854-S Quarter Eagle with a grade of VF35 from PCGS. Back to Massachusetts again for fourth place. A 1652 Willow Tree Sixpence graded PCGS AU53 sold for over \$270K. Taking the fifth position in the auction was a 1915-S \$50 Pan Pac Octagonal graded PCGS MS65 for \$159,800. We have listed several additional highlights herein.

Heritage's upcoming auction in Houston early next month provides another opportunity for early Copper enthusiasts to Bid on a 1793 Wreath Cent, graded PCGS AU53, adorned with pleasingly original olive green and magenta patina. Increased orders for Barber Halves in MS63 and MS64 resulted in higher sight-unseen Bids for these issues. Recent disclosures about some of the important Type material being offered up at auction during the upcoming annual FUN Show in Orlando this January reveals the inclusion of a very rare 1870-S Liberty Seated Dollar, graded PCGS XF40. Reputed to be the first Silver Dollar ever minted in San Francisco, this coin's apparently sparse mintage is officially unknown, but its rarity is confirmed by the fact that only 9 examples have so far come up for certification and, in this grade, has a combined pop of just 3 with only 5 finer.

Upside Bidding activity for common-date Morgan Dollars, mostly in MS64, persisted and a few better-date Dollars in MS65 also made moderate strides forward, including 1879, 1881, 1882-O, and 1888-O issues. A seriously aggressive attempt is underway by market-makers to pry loose some of those very scarce 1921 and 1921-D cartwheels in PCGS MS67 by offering three times previous Bid for them. Only seven specimens of the former issue have been certified in this grade with none finer, while only six specimens of the latter are known with just one finer + graded example certified by PCGS. Two of each from Philly and Denver have been awarded the CAC green bean in MS67. Trading for Peace Dollars concluded with mild reductions in Bid

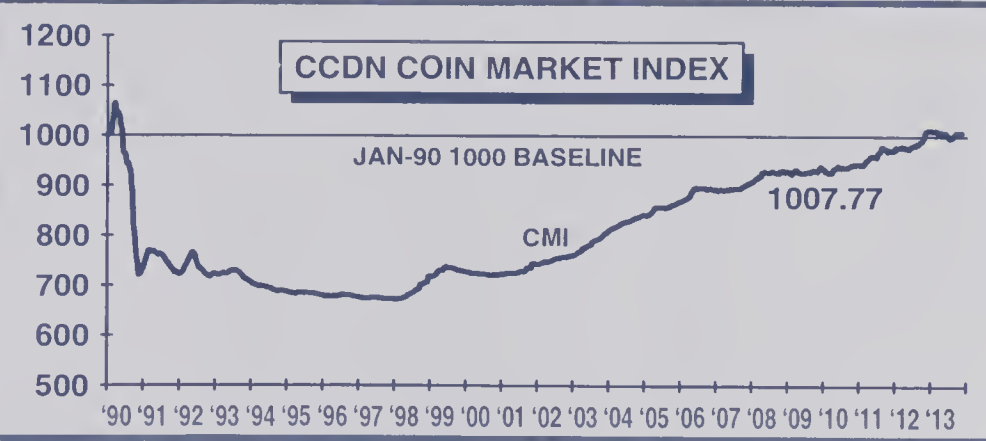

this week for a few generic issues in MS64 but sharp increases prevailed for a few of the scarcer issues in NGC MS66+, including the 1927 D and 1927 S.

Aside from the dip below the \$100 Bid level for 1915 Buffalo Nickels in PCGS MS64 1928-S Buffs in MS63 traded at a \$20 discount, although full current Bid support has been sustaining fairly well all year for these Nickels in Gem and better grades. The Mercury Dime craze continues with several issues in Gem and better that had been overlooked during last week's bull session gaining considerable upside momentum this week. Bidders participating in this segment are emphasizing quality in their pursuit of the finest specimens available, as reflected by the prolific gains posted within the MS66FB and MS67FB columns. Among the hottest issues sought is the 1930-S, as those of the former grade in NGC plastic gained 60% while those of the latter rose by an average of 43%.

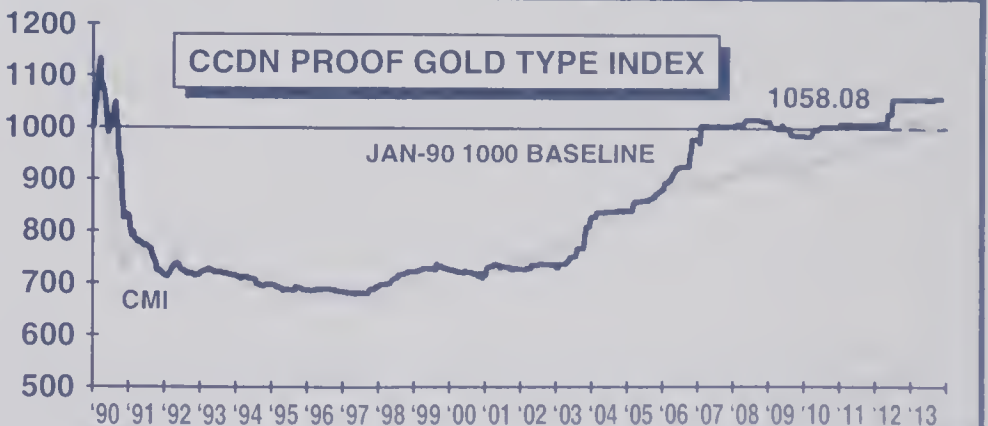

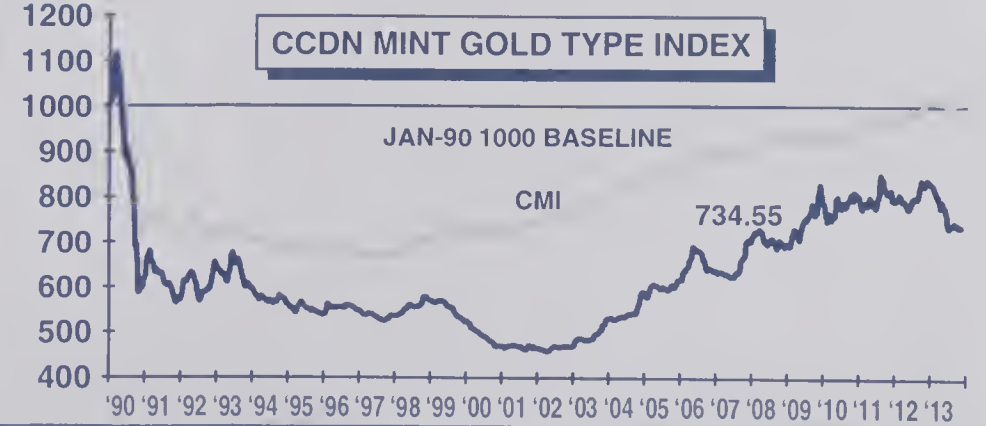

Fairly quiet trading activity concluded with moderate reductions in Bid for two Silver Commems this week as Missouri Halves in MS62 ended short by \$20 while Washington-Carver Type Halves in MS65 did so by \$2. The real action within this segment, however, revolved around the Gold Commems with every component of this series, other than the two \$50 denominated Pan-Pac issues, gaining ground in at least one grade between MS63 and MS67. Strongest recoveries were posted by issues that had plunged most significantly in recent times, of course, and they included 1904 Lewis & Clark Dollars in MS66, \$2½ Pan-Pacs in PCGS MS65, and \$2½ Sesquicentennials in MS63. In two weeks, Grant with Star Dollars in MS66 rebounded by as much as 14% to recover all their losses of this year. Common late-date Walking Liberty Halves in MS66 each gained \$3 since the beginning of this month as bulk wholesale orders persist. Appreciable gains came through for two late but better-date Walkers in NGC MS67 – the 1945-S and the 1946 – as the former issues surged by 24% while specimens of the latter issue in MS65, as well as comparably graded 1947 Halves in PCGS plastic, pulled in offers as high as 14% over previous Bid. An elusive Gold Type specimen being made available to the highest Bidder through the upcoming auc-

tion in Houston is an 1859-O \$10 Lib graded PCGS AU50, with a combined pop of only 11 and 24 finer. This No Motto Eagle has an original mintage of just 2,300, and only 55 examples have been known to be certified across all grades. High Relief \$20 Saints in MS61 and MS62 are being avidly pursued, as those of the former grade are now eliciting sight-unseen offers higher by 25% since last week.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid. A coin's Bid level is near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and strictly for sale fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

Data for each stickered-coin is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these levels. Current sight-seen trades can be expected to occur at substantially higher levels in many cases.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations
Throughout his 20 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

Merces Move Up Again Silver Commems Still Sour

Precious metals have taken it on the chin, with Gold well below that all-important \$1,300 mark, now sinking as low as \$1,244. Silver fell below its watermark of \$20, finding a level at \$19.93. How these weakened metals and the Dow closing above 16,000 for the first time ever will affect future expos and auctions is up for debate. Houston's 57th Money Show of the Southwest and Heritage Auction, beginning December 5 should shed some light on the subject. We have included several previews from this sale herein.

The competition for very scarce Buffalo Nickels can often be fierce at major auction events but, for the more common issues, Bidders tend to insist on some leeway with regards to their maximum offerings. Thus, 1916-D Buffs in MS63 and 1934-D Nickels in MS66 were deemed a bit too abundant for offers at previous Bid. Several Mercury Dimes, mostly better-date issues, added to their gains of those from last week and the week before, although the upside trading involved hardly any Merces in grades better than MS66FB.

Some of the enthusiasm seen during trading for Morgan Dollars in past weeks had dried up and, while declines were dominating the movement within this segment, they were far from prolific and dramatic. Two PCGS issues, the 1878 7TF (Rev. of '79) in MS65 and the 1896 in MS67, each posted losses of 8%. Although generic Peace Dollars in MS65 moved back up to the \$105 Bid level, this was not a good six-month period for 1923 Dollars in MS67 as these very pretty but ubiquitous issues are now down by \$525 since their descent back in early May. However, those 1928 Dollars in MS62 through MS64 appear poised for renewed recognition as their series' lowest mintage key issues.

Weakness at the auctions this week shaved \$1,100 off of Bid for Proof Capped Bust Half Dimes in NGC PR65, resulting in a decline of 7% for these issues this year, while comparably graded Proof Twenty Cent Pieces in PCGS holders passed hands with offers short by \$275, and a \$140 drop in Bid ensued for business-strike issues of this obsolete denomination in PCGS MS65. On a more somber note, today marks the 50th

anniversary of the assassination of our 35th President, John F. Kennedy. A numismatic legacy of his life and administration that continues on to this day is the minting of the Kennedy Half Dollar, a series gaining collector appeal, especially by those who were living during the days of the all too brief "American Camelot" period. Kennedy Half Dollars have yet to really attain the popularity and market promotion of its Franklin Type and Walking Liberty predecessors. Key-date examples of this series, however, such as the first issue year Heavily Accented Hair Proof variety and the lowest mintage 1970-D, originally available only in Mint Sets of that year, have risen in demand and are both avidly collected by an increasing number of Kennedy Half enthusiasts.

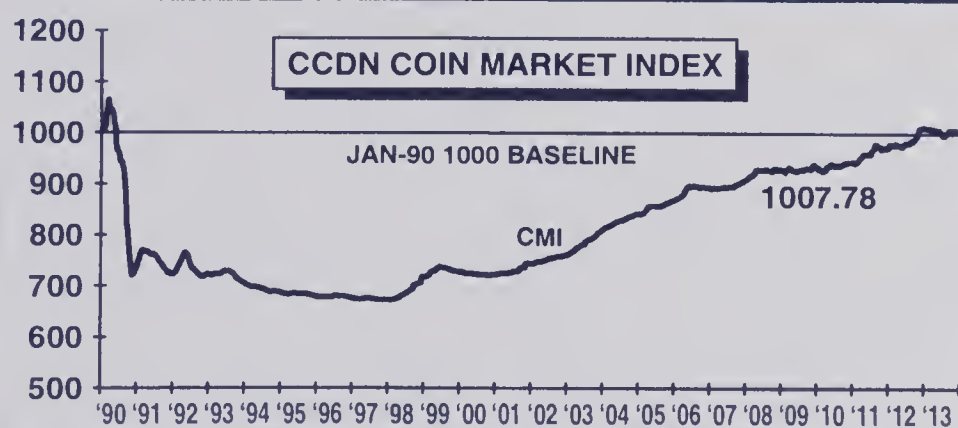

Trading activity for Silver Commems was lively but quite suppressing for several issues again, particularly for some that had until now stood up rather well to the volatility within this segment throughout the year. Bid for 1892 Columbian Halves in NGC MS66 dove 13%, while 1920 Pilgrim issues in MS66 and MS67 each incurred respective reductions by 8% and 7% on average. Texas Type Halves in NGC MS67, which also appeared quite solid, ended \$15 lower while comparably graded B.T.

Washington Type Halves in PCGS plastic got hit with a loss of \$45, thereby incurring a total drop of \$100 since January. Silver Commems in elite grades, however, remain very much in vogue with the well-capitalized collectors. A Wisconsin Half in PCGS MS68 sold sight-unseen through CCE this week for \$5,000. Most Gold Commems had another decent session of trading supported by offers at current Bid, but \$2½ Pan-Pacs in NGC MS67 fell drastically short due to a poor auction outing.

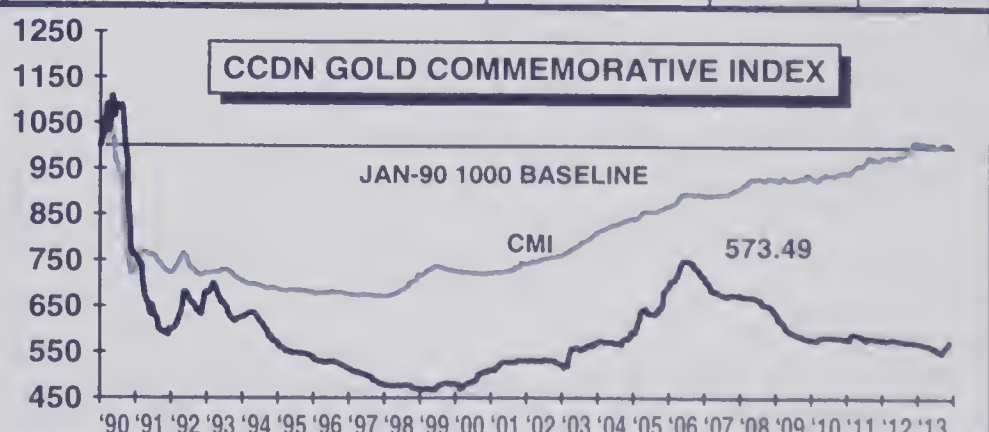

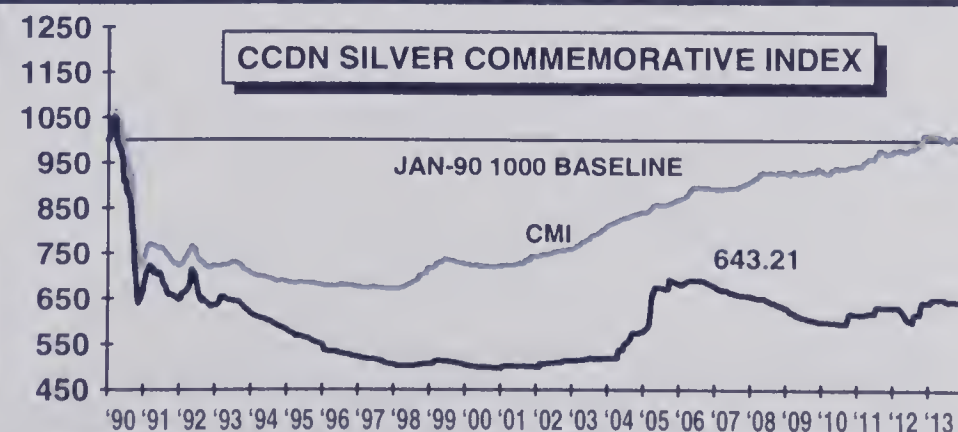

Despite caution and considerable weariness emanating out from the Gold Type segment lately, \$10 Libs with Motto in MS66 are bouncing back, and those in NGC plastic were particularly in short supply, prompting Bidders to up the ante for them by as much as \$500 since last week. Gem and better quality Gold of all denominations held up quite well amidst all the somewhat unflattering forecasts concerning near-term prospects for the Gold Spot market.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity including the reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid by Asks or Trades near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealer, and fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks. All listed prices are based on the exercise of due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or benefit that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols. "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; lm - Lowest asking price appearing last month. "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined
over 450,000 coins
(\$2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

CAC[®]

"Because Confidence is Priceless"

www.caccoin.com

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Commems In Need Of Promotion Type Gold Suffers

The coin dealing fraternity is divided this weekend among spending holiday time with family, attending the MSNS Michigan show and the Houston pre-show. The following weekend, Dec. 5-8, is the official Houston Money Show of the Southwest with an auction by Heritage. Precious metals remain in a weakened state, with Gold Spot closing today at \$1,241 per ounce. Such anemic levels haven't been seen since early July. Silver is still headed south as well, at \$19.85, nearly a four-month low. Early October was the last time Platinum has been in its current \$1,372 realm. Even with such sluggish Spots, the market is managing to do fairly well as sight-unseen trading over the electronic exchanges yielded more than \$270K this week.

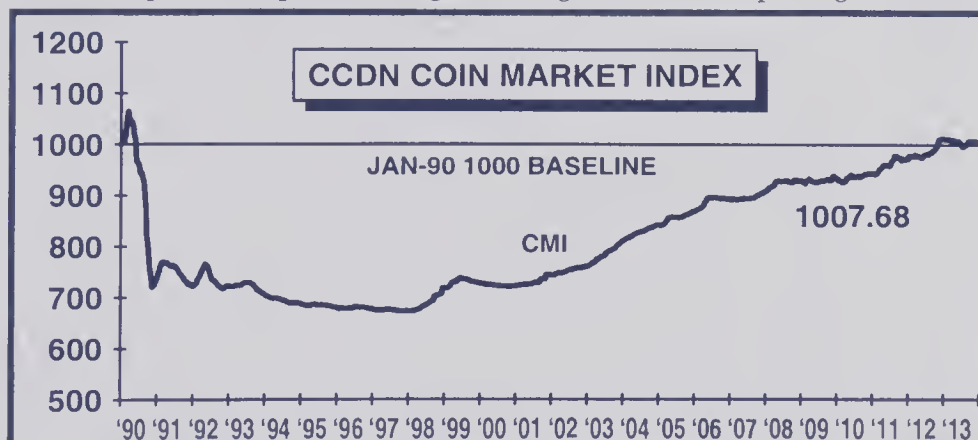

Lackluster action evenly rounded down sight-unseen Bids for about half a dozen Silver Commems. While Antietam Halves in PCGS MS65 mildly descended by \$5, their peers in NGC MS61 through MS64, and 1893 Columbian issues in MS65, each lost \$10. California Halves in PCGS MS63 are now Bidding at a \$5 net loss for the year at \$185 while 1934 Texas issues in NGC MS64 were squeezed further down, resulting in their Bid sliding back to nearly where it began in January. No news may be good news, sometimes, as it was at least for the Gold Commems this week. Last week's rather significant decline of about 15% for \$2½ Pan-Pac issues in MS67 undoubtedly translates into possible opportunities for the most quality-conscious enthusiasts of the Gold series.

Several first issue year Morgan Dollars with those interesting reverse die tail feather varieties are getting more attention, especially those in MS61 through MS63, as are both varieties of the 1880-CC Dollar in these grades. On-line Bidders competing for the handful of rare Morgan Dollars featured in the upcoming Houston auction are already demonstrating a good amount of fervor over the 1894 Cartwheel in PCGS MS65 along with a mellow toned 1895 Proof Dollar graded PCGS PR65Cam. A 1904-S Dollar in PCGS MS66PL is currently in third place among the Morgan Dollar lots pulling in the seri-

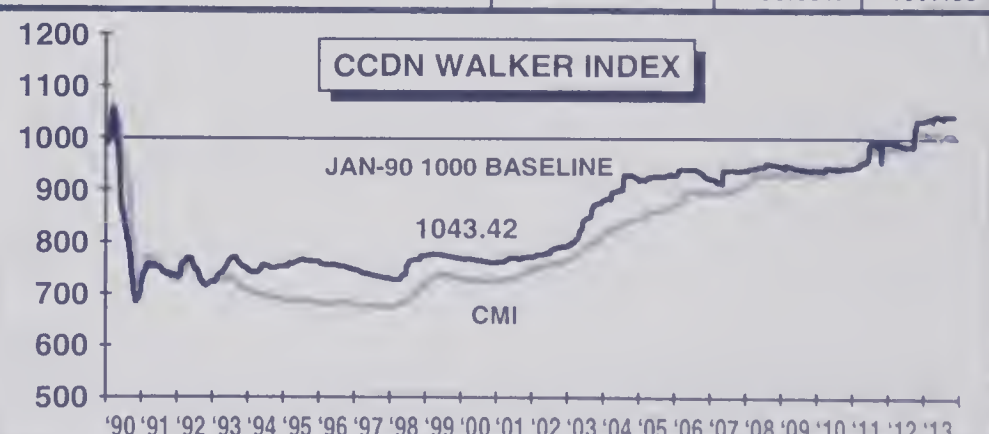

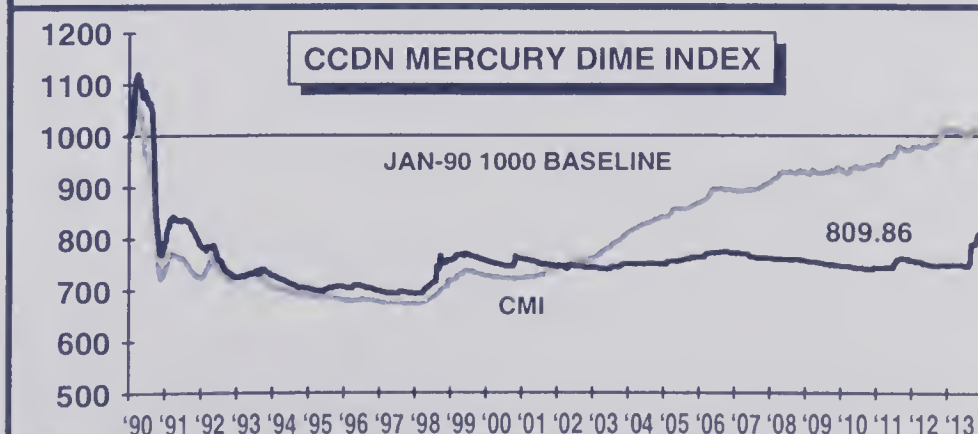

ous money. 1921-D Dollars in PCGS MS64DMPL recovered all of this year's losses, but poor auction outings resulted in thumbs down for 1926 Peace Dollars in MS63 and 1935 Dollars in MS64.

Braided Hair Half Cents in PCGS MS65RB landed a bit hard on the auction block this week with a \$90 reduction. Proof Trade Dollars, as impressive as they are, may not always be as appreciated as they should be by every collector, and Bid for those graded PR63 in PCGS plastic settled back down to an even \$2,500, although these issues remain in net gain territory for the year by \$200. Buffalo Nickels roamed through this week encountering no opposition to any of their current Bids. Although quite plentiful, first issue year 1913 Buffs of both Types, including their mint-marked peers, are gaining immense popularity in superb Gem grades and continue to often trade at considerable premiums due to their cross-over appeal with both series and Type collectors. This was a great month for the Mercury Dimes segment, as buoyant trading activity for Winged Liberties persisted for all but this one last week of November. Those Mercs with sight-unseen Bids recently elevated by this month's rally have met the test of current Bid support without difficulty so far but, among those issues that stayed neutral throughout the month, 1937-D Mercs in PCGS MS66FB were the sole components of this series subjected to downside trading pressure this week that reduced them by 15%. Bidders, evidently, didn't have Walking Liberty Halves on their minds all that much either, as this segment remained devoid of any upside and downside activity throughout the week.

\$10 Indians and \$20 Libs and Saints are the bearers of the strain taking hold within the Gold Type segment. The negative consequences of a sagging Gold Spot appear to be having more of an indirect than a direct effect on some material but still pose little, if any, threat to Gem quality Gold Type issues other than Type I Gold Dollars in PCGS MS65, as they did last week, and \$5 Libs with Motto in NGC MS66.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity and reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid. By Act of God, the market may fluctuate near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealer, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

NGC Bulk Submissions Have Never Been Easier

**Irma Kane, West Coast
Account Representative**
*Irma brings more than 35 years
of numismatic experience and
considerable industry connections. She
is excited to help dealers realize the
benefits of NGC certification*

Get personal consultations from industry experts

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times. We now also offer a direct liaison for West Coast dealers interested in bulk submissions. Irma Kane is uniquely qualified to personally assist you, and will travel to your location for on-site consultations.

**To discuss your options, contact Irma directly at
ikane@NGCcoin.com or 562-382-4507.**

Silver Dollars Rally

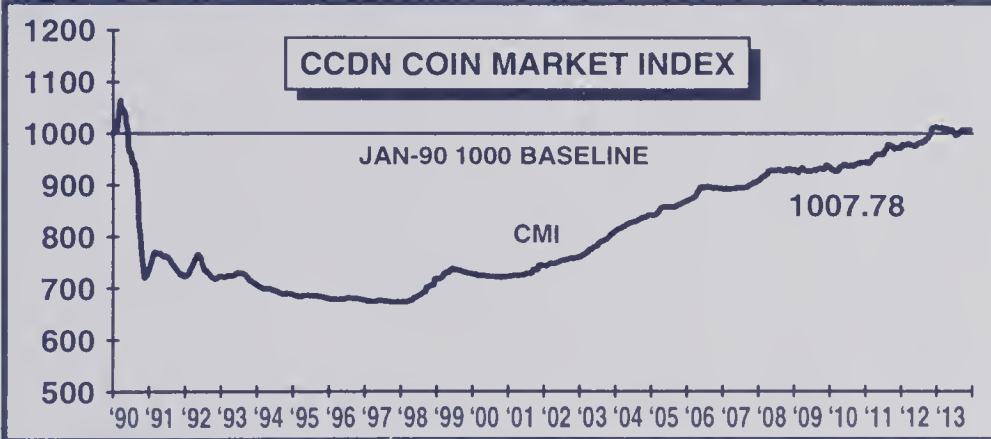

Precious Metals Slump

Much of the numismatic fraternity, both dealers and collectors, are attending the Houston Money Show of the Southwest this weekend, December 5-7, with an auction by Heritage. Precious metals remain in a slump with Gold at a current Spot of only \$1,233 per ounce. Silver closed at \$19.53 and has been below \$20 for the entire week. Platinum landed at \$1,364 and Palladium is actually up a bit from yesterday at \$737, a level this high not seen since mid-November. After the 57th annual Houston Money show, the SoCal Coin and Currency Show will take place December 12-14 in Ontario, CA. Bonhams will hold an auction December 17 in New York featuring the Robbins collection of Classic US Gold. Then it's the PCGS members only show in Vegas at the Venetian Hotel from December 18-21, with an auction by Legend-Morphy on the 19th. This week's sight-unseen trades through the electronic dealer-to-dealer wholesale networks are, not surprisingly, low considering the Thanksgiving break, at just over \$65,000. Type, both Mint State and Proof remains relatively strong in Copper, Nickel and Silver even though the Bid columns are absent of advances. Gold Type is still struggling as four times as many minus signs are seen versus plus signs. Gold Spot has an absolute direct influence on the mind-set of Bidders participating in this market segment. Some of the better issues here are higher, moving in the opposite direction of Spot, but overall the sentiment remains lousy. See the chart herein for the top five best and worst performers from this time last year.

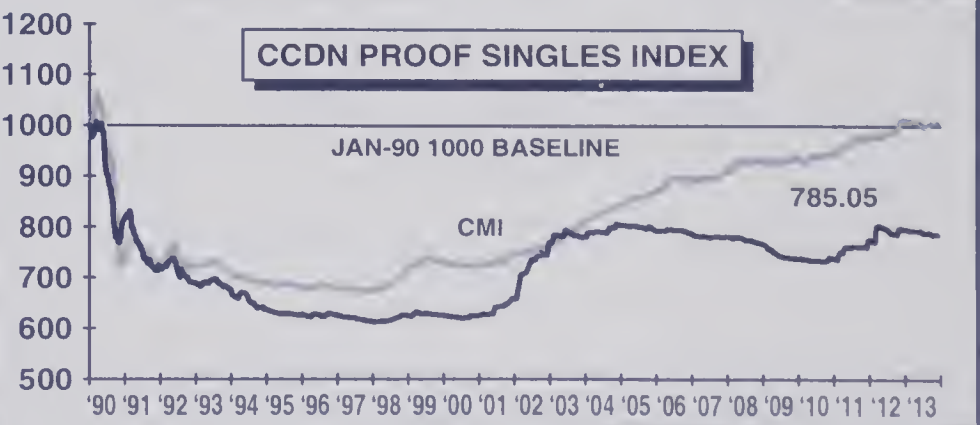

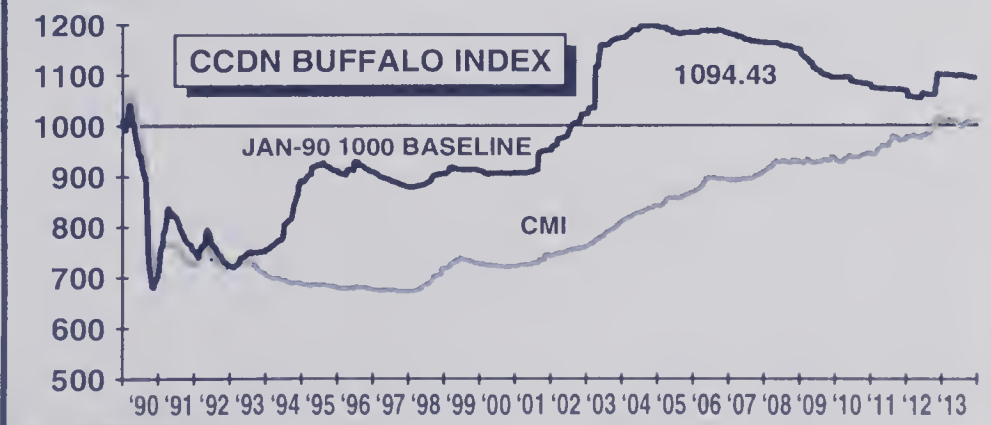

Mint State Gold Type	Service Grade	Dec-7-12 Bid	Dec-6-13 Bid	% Change
\$20 High Relief	PCGS 61	\$12,000	\$15,000	+ 25%
\$20 High Relief	PCGS 62	\$14,050	\$15,500	+ 10%
\$20 High Relief	PCGS 63	\$18,575	\$20,000	+ 8%
\$20 High Relief	PCGS 65	\$35,500	\$38,000	+ 7%
\$20 High Relief	NGC 62	\$14,100	\$15,000	+ 6%
\$20 Lib T3	PCGS 62	\$1,890	\$1,310	- 31%
\$20 Lib T3	P&N 61	\$1,860	\$1,300	- 30%
\$20 Saint	P&N 62	\$1,880	\$1,315	- 30%
\$20 Lib T3	NGC 62	\$1,870	\$1,310	- 30%
\$20 Saint	P&N 61	\$1,855	\$1,300	- 30%
Gold Spot		\$1,704	\$1,233	- 28%

Scores of sight-unseen Bid jumps are in place for mostly better Morgan Dollars with GSA, ANACS and ICG slabs participating. Each of the mintmarks is represented in this latest run-up, including a \$500 Bid increase to \$15,500 for all three of the Morgans dated 1921 in PCGS MS67. These conditional rarities are receiving increased attention as of late with Bid more than tripling in the past month for the Philly and Denver issues. PCGS has now encapsulated eight examples

at the MS67 grade of the former, six of the latter, and have yet to see a San Francisco example in this condition. Quite a few Carson City minted cartwheels are higher with original GSA entombed examples of the 1890-CC needed at \$3,600 amounting to a 10% jump, and the higher buyer could care less about the original box and certificate. The largest increases, upwards of 50%, are found for ANACS Dollars in the lower Mint State grades. One such example is an 1879-O in MS63 that has moved up from a Bid of \$113 in Choice to \$175. Our records indicate that the last specimen to sell at public auction realized \$194. Gem Walkers are down a smidgen to \$88 Bid; however, demand remains strong throughout the series. Mercury Dimes and Buffalo Nickels graded by PCGS and NGC remain stable overall in this report with no real changes to convey. Merics graded by ANACS and ICG are now being actively pursued by way of higher sight-unseen Bids with the lion's share zeroing in on product in the higher grades. Sadly, classic Silver Commemoratives are still heading south with another group moving lower in this report. Some 385 PCGS and NGC slabbed Commems are lower from the beginning of the year. Among the largest losers since January on a percentage basis are: Cleveland NGC MS66 -26%; Lafayette NGC MS65 -25%; and Stone Mountain PCGS MS65 -24%. Many of these issues are now trading for a fraction of their Bid levels from a decade ago. On the positive side, 470 Commems have increased Bids year-to-date with the top few sporting percentage increases that are equally dramatic as the losers, including: Pan-Pac NGC MS64 +27%; Fort Vancouver NGC MS66 +25%; and Elgin NGC MS67 +22%. The Coronet Collection is making its first East Coast public display. This amassment is the finest current Morgan Dollar Basic Set, Circulation Strikes (1878-1921) in the PCGS Set Registry. With a weighted grade point average of 66.38, the 97-coin collection will be exhibited at the 59th annual FUN Show in Orlando, Jan. 9-11. The set was exhibited for the first time anywhere at last September's Long Beach Expo. A few of the highlights include the following which are all PCGS pop 1, none higher, examples: 1891-CC MS68PL; 1893-O MS66PL; 1893-S MS67; 1900-S MS67PL; and 1901 MS66. In addition to the Coronet Collection display, the FUN show will include several other educational programs, events, exhibits and activities. ICTA will be conducting a cash reporting/anti-money laundering seminar for dealers at the show on Wednesday, January 8. In addition, the Numismatic Crime Information Center is offering a free seminar for law enforcement personnel on numismatic crime investigations January 10.

UPDATE!

The CAC sticker
doesn't add value,
it just helps
to identify
a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^ 450,000} ~~400,000~~ coins with a market value over ^{\$ 2 billion} ~~\$1.8 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over ^{^ \$300,000,000} ~~\$275,000,000~~ worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Morgan Dollars Remain Strong Full Bell Franklins Surge

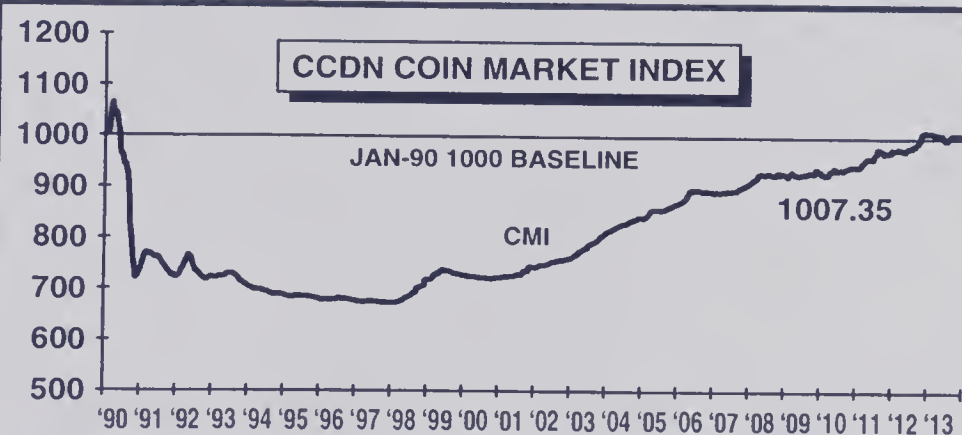

Dealers have returned from the successful 57th annual Money Show of the Southwest held Dec. 5-7 in Houston. Heritage held a floor auction including a Premier Session which totaled over \$10 million. We have listed several highlights from this sale herein. Precious metals remain in a slumber as Gold dropped to close at \$1,226 an ounce. It's been over five weeks that the yellow metal has been below the \$1,300 mark. Silver slipped under \$20 an ounce again as it has been prone to do lately, closing at \$19.41. Sight-unseen trading is back to normal after Thanksgiving with the last week pulling in over \$390K through the dealer-to-dealer electronic networks.

Morgan Dollars continue to be one of the most popular areas of the market to collect and the ongoing demand here is forcing prices higher. Over 75 Bid increases are in this report with a wide range of material targeted. The largest increase on a percentage basis from last week is for first year of issue 1878 with 8 Tail Feather reverse which moved up 10% in MS63 to a sight-unseen Bid of \$215. Nearly 7,000 examples have been encapsulated at the Choice grade level with a little more than half as many in MS64 where Bid nearly doubles to \$380/\$390 for PCGS/NGC plastic. In addition to Philly, branch Mints are also sought-after at higher levels. New Orleans minted cartwheels possess the lion's share of increases while San Francisco specimens are coming in a close second. Common dates are holding steady across-the-board with sight-unseen transactions being consummated at the posted levels. 1926 Peace Dollars in NGC MS66 have decreased by \$100 to a Bid of \$900 after a recent auction outing that was less than commendable. PCGS counterparts remain firm with visible buyers waiving \$1,225 at any of the 173 that have been graded at this level. NGC has slabbed a little more than a fourth as MS66 versus PCGS with 47 reported in the census report and one finer. Silver Commemoratives are singing the same old song and are continuing along the path headed south. In just three years over 140 issues have declined by 10% or more, with the most serious being the 47% drop for 1934-D Oregons in PCGS MS67. Gold Commems are in the same boat, as minus signs routinely outnumber the pluses.

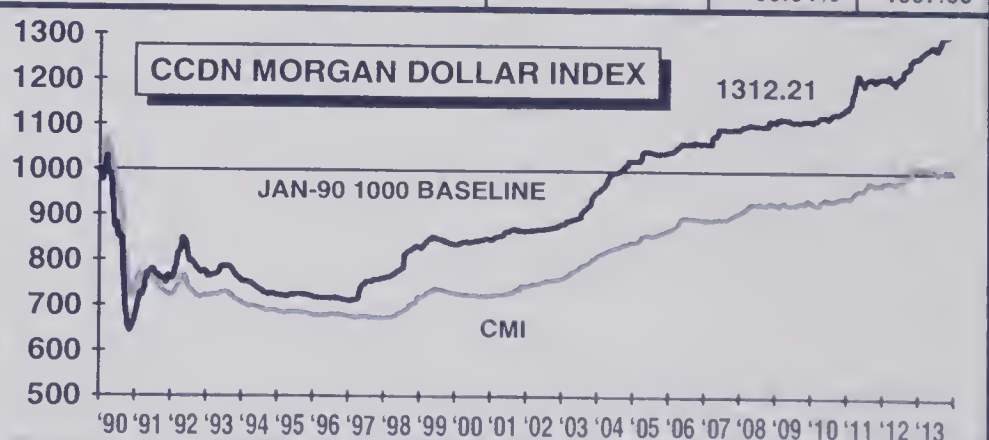

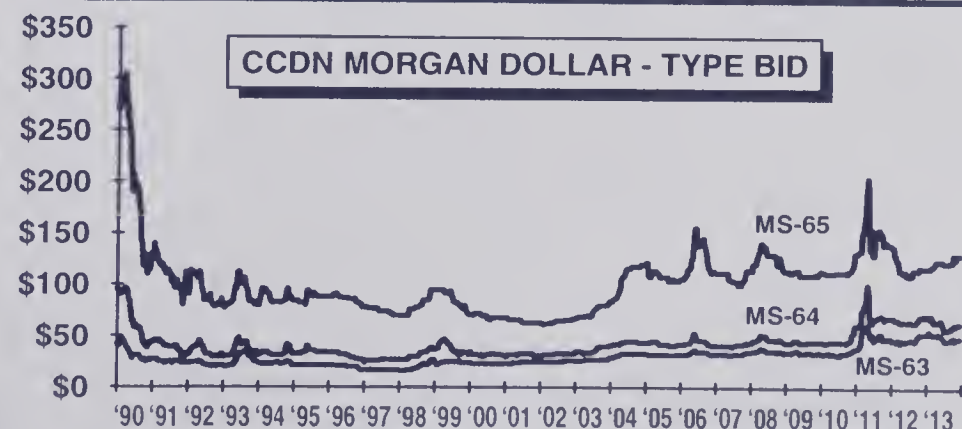

Overall, Gold Type remains under pressure as Spot struggles for a clear direction. However, generic Eagles and Double Eagles are bucking the trend in the lower Mint State grades of MS61-MS63. Better Date Gold, such as 1911-D \$2½ Indians are also performing well with increases tallied in like grades. A 17% Bid jump has taken place for those graded NGC MS62 while PCGS examples rose by 11% in the same condition. These little Gold Injuns have a combined pop of 1,446 with a total of 812 encapsulated as MS63. An even dozen graded MS62 have sold at public auction this year realizing prices from \$8,813 on the low side to \$11,750 at the top end. A handful of slight declines are in place for select Buffalo Nickels in various grades. The famous 1937-D 3-Legged Buff in PCGS MS63 dropped some \$500 to a sight-unseen Bid of \$25K. This decline was caused by this coin's last auction appearance where it realized \$25,850 in Houston. The last two examples in this grade to sell at public auction, hammered for \$32,900 in September and for \$28,200 in August. The former donned a green CAC sticker of approval. Recorded populations in this grade are: PCGS with 287; NGC at 297 with CAC stickering a total of 39. A few Franklin Half Dollars graded MS67 with Full Bell Lines are feeling the love with substantially higher sight-unseen Bids this year. Buyers are looking for either PCGS or NGC and are now offering \$2,750 for 1948 up 38%; \$4,000 for 1949-S up 33%; and \$3,000 for 1950 up 33%. These Franks have a combined MS67FBL pop of 8, 6, and 8 respectively.

Currently, dealers and collectors are in Ontario attending the SoCal Coin and Currency Show which runs Dec. 12-14. Coming up is an auction by Bonhams, Tuesday, Dec. 17 in New York. This sale features the Robbins collection of Classic US Gold material. Next is Legend-Morphy with an auction in Las Vegas Dec. 19 as part of the PCGS members only show. Jan. 9-12, 2014 is set for the 59th annual FUN show in Orlando, Florida. Then it's time for dealers to head to Long Beach, Jan. 30-Feb. 1, 2014, as the Expo kicks off its 50th year.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the high, not reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers; are strictly the responsibility of the dealers; and fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

Data for each stickered-coin is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Proof Dollars. Bids for P/Ls are usually much lower than for DMPLs, but command some premium over non-P/L strikes.

NGC Bulk Submissions Have Never Been Easier

**Scott Heller,
Director of Operations**

Throughout his 20 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Scott directly at
sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).**

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Morgans On Many A Wish List Happy Holidays — Last Issue Of 2013

This is the final issue of the CCDN for 2013. We hope you and your family have a safe and happy holiday season. Our next issue of the *Bluesheet* will be published on Friday January 3, 2014.

Dealers are at the Venetian in Las Vegas for the PCGS members only show and Legend-Morphy auction running December 18-21. The sight-unseen market is doing just fine for this time of year as the dealer-to-dealer electronic networks have totaled over \$195K for the week. Bonhams held an auction in New York December 17 which realized nearly \$1.6 million. The top lot from this sale was an original Panama Pacific Commemorative five piece set with copper frame, garnering \$175,500. This set consists of 1915-S issues of the \$50 Round in PCGS MS64; \$50 Octagonal in NGC MS63; Quarter Eagle in PCGS Gem; Gold Dollar graded PCGS MS63; and Half Dollar in PCGS MS63. We have included several other highlights below.

The Dow and the S&P 500 both closed December 18 at all-time highs after the Fed announced a \$10 billion per month reduction in the stimulus program, suggesting that the US economy is on solid ground. Precious metals have, not surprisingly, taken a dip, especially Gold, which is down below \$1,200, at \$1,195 per ounce. We haven't seen levels this low for the yellow metal since August of 2010. Silver is under \$20 at a Spot of \$19.15. Platinum came in at \$1,318, a low not hit since June, while Palladium is down to a more than three-month low at \$696. This week's sight-unseen trades through the dealer-to-dealer electronic networks included quite a few better slabs as opposed to generics which normally make up over 90% of the transactions recorded each week. Included among the better examples that blindly changed hands are: Proof Seated and Barber Quarters in grades PR65-PR67 ranging from \$1,475-\$4,800; Proof-64 and MS65 Twenty Cent Pieces at \$3,450 and \$2,850; Liberty Seated Dollar with Motto in PCGS PR64 for \$4,860; and a Grant Commem with Star Half Dollar in NGC MS65 for \$4,780 to name a few.

CAC approved PCGS and NGC slabs along with + graded material remain strong, especially so for CAC, with active sight-unseen Bids in place for the vast majority of the issues we cover. Morgan Dollars are flush with advances, with the largest increase

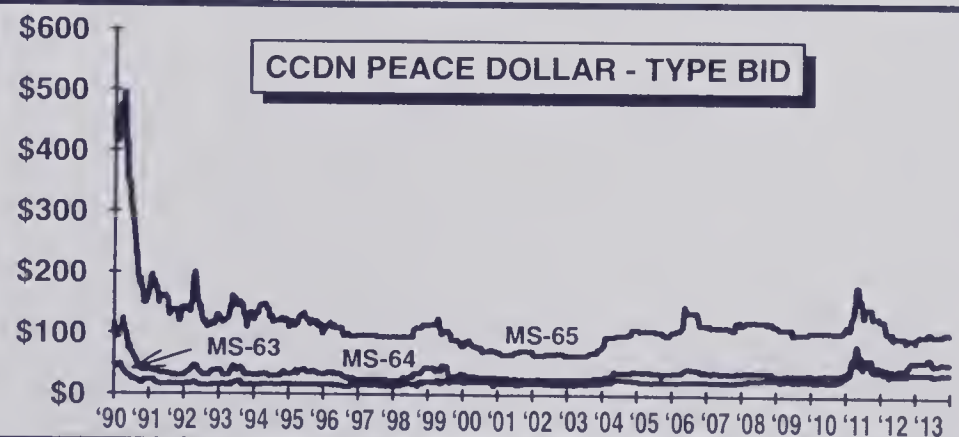

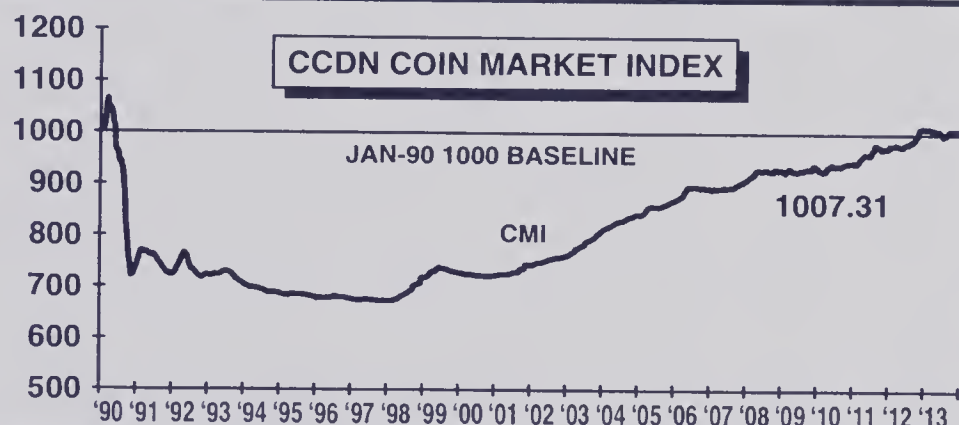

recorded for 1896-S cartwheels in MS64. Bid moved higher by \$1,080 or 28% in an attempt to bring any of the 31 examples CAC has stickered to market. The next San Francisco date, 1897-S, holds the next three spots on the leader list, increasing across-the-board, up to 21%. Common date Deep Mirror Proof Like Morgans have crept up a bit to \$300 for PCGS encapsulated product in Very Choice, of which over 13,000 have been graded as such. A \$360 Bid jump is in place for any one of the 405 Liberty Seated Dollars with Motto grading NGC PR64, representing an 8% hike. This is in tandem with a sight-unseen transaction for a PCGS example in the same grade of which 447 have been graded by PCGS. The last example of each to sell at public auction was an 1870 graded by NGC that realized \$4,700 two weeks ago and \$5,006 won an 1866 Dollar graded by PCGS last month.

A number of + graded Mercury Dimes with Fully Split Bands are higher in both PCGS and NGC plastic. These increases are primarily following suit after their non-Plus counterparts increased earlier in the month. Silver Commemoratives just cannot seem to catch a break and continue to soften overall. In addition to the 30 PCGS and NGC Commems falling, some half-dozen stickered examples are also declining. Increases are targeting both Small and Large Eagle Draped Bust Dimes in the lower Mint State grades of MS61 and MS62, jumping as much as 7%. These show up very infrequently at public auction, as in only two PCGS MS61 Small Eagle examples selling since May of 2007 and just three of the Heraldic Type going back to early in 2005.

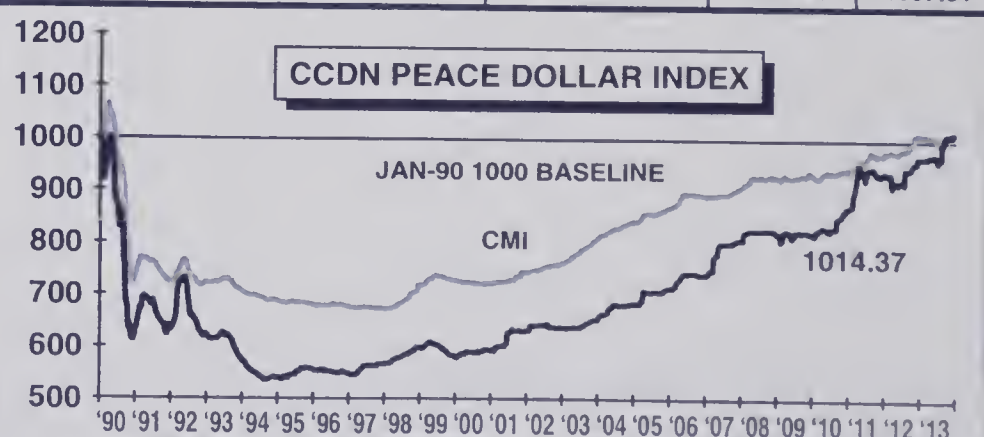

Reduced Size Capped Bust Dimes also moved North — in NGC MS66 condition these are now at \$6,000 Bid.

After the holidays, dealers and collectors will get right back into action for the new year with the FUN show. The 59th annual winter gala is scheduled for January 9-12, 2014 in Orlando, FL. This bellwether event will feature a 6,700 lot auction by Heritage. Another New Year show is the 42nd annual New York International Numismatic Convention slated for January 9-12 with an auction by Stack's Bowers. This sale will be anchored by the Demarete collection of world medals from the Renaissance to the modern era and the Anthony J. Terranova collection of Art-Nouveau medals.

Bonhams	Price Realized

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CAC Leads the Charge as it Hurdles Another Milestone!

CAC has examined
over 450,000 coins
(\$2.0 billion)

CAC continues to hurdle impressive milestones at a speedy pace. Founded over five years ago by leading members of the numismatic community, CAC has led the charge – setting forth stringent standards for quality within a grade.

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. Today, CAC stickers identify coins that fully merit the grade it was assigned. Now, advanced collectors and novices alike can have confidence that a coin is solid for the grade – look for the CAC sticker.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

NGC Bulk Submissions Have Never Been Easier

**Irma Kane, West Coast
Account Representative**

*Irma brings more than 35 years
of numismatic experience and
considerable industry connections. She
is excited to help dealers realize the
benefits of NGC certification*

Get personal consultations from industry experts

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times. We now also offer a direct liaison for West Coast dealers interested in bulk submissions. Irma Kane is uniquely qualified to personally assist you, and will travel to your location for on-site consultations.

**To discuss your options, contact Irma directly at
ikane@NGCcoin.com or 562-382-4507.**
